## CUMMINGS STEPS AWAY FROM THE BLACK PROBLEM

Attorney-General, in Interview, Denies Any Responsibility or Duty in the Matter.

### MAINTAINS ONUS RESTS ON SENATE

Refuses to Give Reason for Previously Saying Alabama's Eligibility Was Beyond Question.

By RICHARD L. STOKES, A Staff Correspondent of the Post-Dispatch.

WASHINGTON, Sept. 22.—On behalf of the Department of Justice, an explicit disclaimer of responsibility or duty in the case of Associate Justice Hugo L. Black of the Supreme Court was uttered this morning at a press conference by Attorney-General Cummings, who, in his statement, sought to place the onus, if any, on the shoulders of the United States Senate.

Reminded that this "passing of the buck" to the Senate, which confirmed the nomination, also involved the Alabama case, which was the subject of the executive, which appointed him, the Attorney-General, with a touch of irascibility at odds with his usual bland demeanor, replied that this was a "statement" and not a question, and that he would let it lie where it was.

Cummings affirmed without compromise that the Department of Justice made no investigation of Black's qualifications prior to his appointment, in the case of his nomination and confirmation, or during the period that has since elapsed. Asked, in that case, on what he based his assertion at a press conference two weeks ago that Black's eligibility was "beyond question," the Attorney-General, without denying he made such a statement, replied that he refused to answer, on the ground that any response might give would be "misconstrued."

#### Another Explanation.

It was then recalled that, at a press conference before Black's appointment was announced, the Attorney-General stated the Department of Justice was engaged in scrutinizing the credentials of 60 possible nominees to the Supreme Court. He replied that what he meant to say was that the department examines the records only of candidates who are known locally but not nationally, or who are members of the bench, in which case the opinions they have handed down are subject to inspection.

A report, published today, was brought up, to the effect that in Cummings' own office, an assistant Attorney-General, the person of William E. Fort, there is a former law partner of Justice Black and his alleged fellow member in the Robert E. Lee Klan of Birmingham, Ala. Cummings said he had just read the item, and had not yet spoken to Judge Fort.

"It is a fair bet," he said, "that I will talk with him on the matter." Asked whether Fort could not be cleared for the department, Cummings said: "I haven't spoken or communicated with Judge Fort for more than a year."

The conference was called for 11:30 a. m. It was half an hour later when the doors of the Attorney-General's office were opened. The attendance of correspondents was said to be the largest in months. After the usual rite of passing cigars had been dispatched, Cummings entered, sat at his desk and remarked with a smile: "I wonder if I can read your minds?"

Cummings' Statement. When, glancing now and then at a typewritten sheet before him, the Attorney-General said slowly and deliberately: "So that you may have more clearly before you the position of the Department of Justice, I want to say it has frequently been investigated by the department made no investigation of Mr. Justice Black's eligibility up to the time his name was sent to the Senate. This is correct."

Added, it is not the practice of the Department of Justice to make investigations into the private lives of prospective appointees to the Supreme Bench, or any other in the Department. For instance, no investigation was made in the case of Chief Justice Hughes, Mr. Justice Cardozo or Mr. Justice Roberts. While I have not examined the records, I should not be surprised to find that Mr. Justice Stone, who was Attorney-General at the time

### CHICAGOAN CONFESSES ATTACK ON YOUNG WOMAN IN HOTEL

Loop Business Man Admits He Hit Her on Head With Brick.

By the Associated Press. CHICAGO, Sept. 22.—Thomas McCall, 39 years old, a partner in a loop engraving company, has admitted he assaulted Miss Virginia Austin, 24, a New York doll designer, in her hotel room last night, during a fight over a bookmaker's key. McCall, 39, was arrested by police after the shooting, which was reached by two fire escapes.

"I saw her in the lobby of the hotel where we both lived," McCall was quoted as saying, "and as she rode up the elevator I noticed her room key—No. 414. About dawn the next morning I got up and went for a walk, found the brick, and decided to go up to her room."

He was quoted as saying he struck the woman as she slept, and kept his hand over her face when she recovered consciousness. McCall was arrested after Miss Natalie Ortuso, a dancer at a loop theater, reported seeing a prowler on the fire escape outside her window at the hotel.

### THREE ITALIAN SAILORS HELD AFTER KILLING OF EDITOR

French Officials at Tunis Also Press Inquiry Into Anti-Fascist 'Punitive Expedition.'

By the Associated Press. TUNIS, Tunisia, Sept. 22.—French authorities charged three Italian sailors today with the murder of Joseph Miceli, anti-Fascist newspaper editor, in his office here. At the same time, officials pressed an investigation of an alleged anti-Fascist "punitive expedition" from adjacent Libya.

Seven Italian sailors were questioned, but were released before two Italian training ships left Tunis this morning as scheduled. Clashes between Fascists and anti-Fascists were coincident with the visit of the Italian training ships Amerigo Vesputi and Colombo to this French protectorate neighboring Italy's Libya. Miceli was killed and four cadets wounded in a fight after the cadets went to his office to object to a newspaper article.

(Reports in Rome said Miceli was really Giuseppe Bresciani, exiled Italian Communist, who fired into a group of unarmed cadets who were disarming him and killed him with his own pistol.)

## BONDSMAN SHOT TO DEATH IN AUTO; COMPANIONS HELD

E. W. McGarry Killed — Charles Bartold, Driving, and Herman Kohn in Back Seat Detained.

### FATAL WOUND IN BACK OF HEAD

Driver Says Bookmaker Told Him Victim Tried to 'Muscle In' on Handbook Profits.

Edward W. McGarry, a professional bondsman, was shot to death in an automobile on Manchester road west of Kirkwood last night, during a ride with Herman Kohn, a Maplewood bookmaker, Charles Bartold, an unemployed laborer.

Bartold told police the shots came from the back seat of the automobile, which was occupied by Kohn. The bookmaker's statement was that they came from an automobile which drew up alongside of McGarry's car.

The revolver from which the shots were fired was recovered by police this morning, just off the shoulder of Manchester road near Barrett Station road, where Bartold said, he had turned around after the shooting to drive back to the Maplewood Police Station with McGarry dead beside him in the front seat.

Shot in Back of Head. One bullet entered the back of McGarry's head, ranged down and emerged from his mouth. The other went in at the back of his neck and came out in front. Both wounds were power burred, indicating the bullets were fired at close range.

One of the bullets lodged in the left of the automobile's speedometer, jamming it at an indicated speed of 70 miles an hour. That, Bartold said, was the speed at which they were traveling when the shots were fired. Kohn said they were going only "20 or 30 miles an hour" at the time.

In his statement to Maplewood police and St. Louis County Sheriff, Bartold related that Kohn told him, before the automobile ride began, that McGarry had been trying to "muscle in" on the profits of his handbook shop at 7207 Manchester avenue. Despite that statement, he said, McGarry and Kohn appeared to be on good terms when he was with them, and there had been no quarrel before the shooting.

Kohn denied McGarry had attempted to "muscle in" on his handbook profits, and said he had made no such statement to Bartold. He had not known McGarry, he said, until yesterday afternoon when McGarry introduced himself when they were in a saloon next to his handbook shop.

### Killed Kidnaped in 1930.

Both Bartold and Kohn were held at Clayton for the coroner. Kohn, 51 years old, lives at 6274 Cates avenue, University City. In 1930, when he owned a chain of handbook shops in St. Louis, he shot and killed Oliver Honig, one of three men who were attempting to kidnap Kohn and his partner, William Rustein. The killing was listed as a justifiable homicide.

McGarry, when killed, was riding around St. Louis County, without particular destination, after drinking with Bartold and Kohn.

Tells of Shooting. McGarry and Kohn had been drinking in a saloon at 7205 Manchester avenue, Maplewood, next door to Kohn's handbook shop when Bartold joined them about 5 o'clock yesterday afternoon. McGarry was drunk, and Kohn was "in no condition to drive," he told police, so the two asked Bartold to drive them around in McGarry's automobile.

They stopped first at a saloon near Big Bend road and Clayton road in Rialto Heights, where Bartold said, Kohn told him of McGarry's attempt to "muscle in," and then headed out Manchester road. McGarry was in the front seat, beside Bartold, who was at the wheel, and Kohn took the back seat.

Just west of the Kirkwood city limits, Bartold told police, he heard the shots.

"There were two or three shots. I was so scared I couldn't tell how many," he related. "The flashes were so bright, I couldn't tell the shots came from the back seat."

### Recounts Conversation.

"McGarry slumped over beside me, and I said: 'My God, he's been shot.'"

"Kohn said: 'Yes, keep on driving, they are still following us.'"

"I looked into the rear view mirror. There was a machine way back there and I didn't think it possible the shots had come from there. It was so far back."

"I said: 'Did you do this?' Kohn

# JAPANESE PLANES BOMB NANKING, CANTON, KILLING HUNDREDS OF CIVILIANS

## ROOSEVELT GOES WEST TO FEEL PUBLIC'S PULSE

This Is Common Explanation of Dash, Although It Is Not Admitted in Official Statement.

### STATE OF POLITICAL EMERGENCY HINTED

Such Important Measures Planned, It Is Thought, That He Trusts No One Else in Advance Work.

By PAUL Y. ANDERSON, A Staff Correspondent of the Post-Dispatch.

ABOARD PRESIDENT ROOSEVELT'S SPECIAL TRAIN, EN ROUTE TO PACIFIC COAST, Sept. 22.—President Roosevelt departed today on a flying trip to the Pacific Northwest, under circumstances which seem to indicate a belief on his part that a state of political emergency exists. According to his own recent statements, conditions in Europe and Asia would be awkward, if not risky, for him to stir out of Washington at this time. Yet he is taking two weeks out, and traveling 6000 miles, with the only ostensible purpose of making a speech at Bonneville Dam, visiting his daughter in Seattle, and having lunch with the Lieutenant-Governor of British Columbia.

That is the official explanation of this extraordinary dash. Of course, no one takes the explanation seriously. The commonest belief among informed observers is that the President has arrived at a characteristically quick decision to ascertain, for himself, how people in the West feel about his policies, and, in particular, how they feel about his reiterated determination to "reform" the Supreme Court.

His First Appearance. His first public appearance on the trip will be a train platform talk Friday morning at Cheyenne, Wyo., home town of Senator O'Mahoney, who was a leader of the recent successful fight against the President's plan to pack the court.

On the same day he will also appear at Wendover and Casper, in the same State. Next day he will detain in Gardner, Mont., home State of Senator Burton K. Wheeler, another leader in the fight against his court-packing adventure.

At his press conference at Hyde Park yesterday, the President warned reporters against reading significance into the stoppings places on his itinerary. It was a warning which went virtually unheeded. It would be extremely difficult to find a reporter—or anyone else—in the President's party, who believes that his stops in Wyoming and Montana are the result of mere coincidence. He has said that the trip is primarily one of "observation" of "intake" rather than "outgo."

But what he purposes to "observe"—what it is that he desires to "intake"—has not been satisfactorily explained. That he would make such a trip, at such a time, merely to look over a few dams and reclamation projects, is hardly to be considered seriously.

Question of Nebraska. At the same time the President spoke proudly of newspaper stories which, he said, represented him as purposely arranging his itinerary to avoid an appearance in Nebraska, home State of Senator Burke (Dem.), another leader of the opposition to the court packing plan. Roosevelt said he regretted the fact that his train would pass Nebraska during the night, but that any other arrangement would prolong his trip by one day.

Moreover, he also regretted his inability to appear in Butte, the home of Senator Wheeler. The cause of his "regret" on this count was not explained, but nobody in his party is under the impression that he would like to visit with Wheeler or entertain him on the train.

The administration would like to take Wheeler for a ride, but not that kind. It would like to take him for a ride politically.

The gist of the President's admissions on the subject was that no political significance should be read either into his appearances or his failures to appear. The response to his warning may be measured by

## RAIDERS RENEW AIR ATTACK ON SOUTHERN CITY

First of Four Japanese Assaults, Starting at 2 A. M., Lasts Four Hours—Next Nearly an Hour.

### BODIES OF DEAD PILED IN STREETS

Non-Combatants, Fleeing to Country, Seek Refuge Under Trains as Bombers Return Twice More.

By the Associated Press.

HONGKONG, Sept. 22.—Japanese bombing planes made a series of raids on Canton, chief city of Southern China today. It was reported that 300 persons were killed. The fourth attack of the day and the sixth within 24 hours came in mid-afternoon.

Foreign eyewitnesses told of piles of bodies, most of them civilians, in the streets of the southern Chinese metropolis.

The Japanese airmen apparently were trying to crush the morale of the Canton populace. Railway facilities were taxed by throngs trying to flee from the city.

Foreign observers described the scene at the railway station. Men, women and children sought safety under two trains standing near the station. The trains were rocked by explosions while the refugees huddled under them.

Six fires broke out after the third onslaught in which nine large warcraft dived and wheeled above the city for an hour this afternoon, dumping great cargoes of explosives.

Many civilians were suffering from the devastating consequences of bombs. There were no official statements on the loss of life or property.

Eyewitnesses gave only fragmentary accounts of the attacks, including a report that four of the attacking planes were shot down either by anti-aircraft fire or Chinese planes.

The first raid started at 2 a. m. and lasted four hours during which the raiders, their number undetermined, divided their time between beating off defense planes and dumping bombs.

Forty minutes after they had withdrawn, six bombers swept into action for nearly an hour.

Officers of the British freighter Shun Chih which had been detained by Japanese destroyers 80 miles off Hongkong yesterday saw several bombers return to an aircraft carrier and reported one crashed into the sea, apparently out of fuel.

Canton is about 60 miles north-west of Hongkong, on the Canton River.

### CHIEF JUSTICE BACK IN CAPITAL

Hughes Will Preside Over Judges' Conference Beginning Tomorrow.

By the Associated Press. WASHINGTON, Sept. 22.—Chief Justice Charles Evans Hughes returned to Washington from his summer vacation yesterday, but declined comment on any current issues.

Accompanied by Mrs. Hughes, he motored from New York, where he had been 10 days. Previously he had spent the summer in New Hampshire and Canada. The Chief Justice will preside over the annual conference of senior Circuit Court judges beginning tomorrow. The new term of the Supreme Court begins Oct. 4.

### INHERITANCE TAX OF \$26,728

Estate of Mrs. Nellie G. Raymond Pays State Levy.

By the Associated Press. JEFFERSON CITY, Sept. 22.—The estate of Mrs. Nellie G. Raymond, who died in St. Louis Oct. 20, 1936, paid the State Treasurer's office today an inheritance tax of \$26,728 on a valuation of \$245,000.

College Speeder Must Chop Wood. EVANSTON, Ill., Sept. 22.—John Downey, Northwestern University freshman, was ordered by Municipal Judge Harry Porter yesterday to chop wood in the city ward for 29 days for two violations of the speed laws. He will do the stretch at the rate of one hour a day after classes and a half day on Fridays and Saturdays.

### CHINESE SHOULD LIKE IT, ACCORDING TO INVADERS

By the Associated Press.

SHANGHAI, Sept. 22. JAPANESE aviators dropped pamphlets last night on the Mantiao district, a native quarter bordering the international zone. One Japanese aviator, however, forgot to untie his packed leaflets and a bundle of them crashed through the roof of a Chinese dwelling.

The leaflets were the first illustrated ones of the undeclared war.

"Japanese soldiers should be heartily welcomed by the Chinese public," they proclaimed. To prove the point, they had pictures of long-gowned Chinese bowing to a line of bayonet-armed Japanese soldiers.

## JAPAN SAYS IT REGRETS ATTACK ON BRITISH ENVOY

Note on Wounding of Ambassador to China by Aerial Machine-Gunners Submitted to England.

By the Associated Press.

TOKYO, Sept. 22.—Japan today expressed regret for the wounding of the British Ambassador to China in an aerial attack outside Shanghai, and British quarters said the note met demands for apology and assurance that such incidents would not again occur.

The British demand for punishment of the aviators who machine-gunned the Ambassador, Sir Hugh Kitchin-Hughes, on Aug. 26, was, however, answered ambiguously, the British said.

The note on this point observed: "It is needless to say that the Japanese Government will take suitable steps, whenever it is established that Japanese aviators killed or wounded intentionally, or through negligence, the nationals belonging to a third country."

The note was handed to the British Ambassador to Tokyo, Sir Robert L. Craigie, by Foreign Minister Koki Hirota.

Text of Japan's Note. "I now have the honor to inform Your Excellency that the inquiry in Shanghai and vicinity having been completed, the Japanese Government desires to make the following reply:

"As the result of the most careful investigation, it has been established that on Aug. 26, two Japanese planes machine-gunned and bombed two motor cars, which were believed in all sincerity, to be military buses or trucks carrying officers or soldiers of the Chinese army at a point three kilometers (about two miles) southeast of Kiating, where Chinese forces were concentrated, and since Aug. 18, not only Japanese planes made repeated attacks thereupon, but a number of aerial combats by Chinese and Japanese planes took place."

"Owing to the difficulty of conducting investigation on the spot, there has been some slight discrepancy in the various reports received as to the position of the Ambassador's motor car when he was wounded. (He was traveling from Nanking to Shanghai when the attack occurred.)

"But it was ascertained that no Japanese plane had machine-gunned or bombed the locality where the Ambassador was first reported to have been wounded. However, careful study, made simultaneously by Japanese and British authorities, leads to the conclusion that the position of the motor car in question might have been south of Kiating, instead of six miles south of Taitung, as stated in an earlier British report."

Expression of "Deep Regret." "In the light of all these circumstances, the Japanese Government considers the incident may have been caused by Japanese planes which mistook the Ambassador's motor car for a military bus or truck. As the wounding of the Ambassador may thus have been due to action, however involuntary, by Japanese planes, the Japanese Government desires to convey to his Britannic Majesty's Government a formal expression of deep regret."

"Regarding the question of punishment of the aviator concerned, it is needless to say that the Japanese Government will take suitable steps whenever it is established that Japanese aviators killed

## SQUADRON OF 50 IN TWO RAIDS ON CAPITAL; SLUM AREAS HARD HIT

Little Damage Done to Government Buildings—Four Attacking Ships Shot Down in Fight With Chinese.

### 20 AMERICANS TAKE REFUGE IN EMBASSY

Straw Huts Set on Fire by Incendiary Missiles, Trapping Non-Combatants—Two Principal Railway Stations Struck.

By the Associated Press.

NANKING, Sept. 22.—More than 50 Japanese airplanes bombed this city twice today, killing, wounding or burning to death more than 200 non-combatant Chinese.

The dead and injured were mostly those who had been too feeble or sick to join the exodus to the safety of the surrounding countryside.

Incendiary bombs and high explosives fell into their straw huts in the Hsiao-kwan slum district, between the walled section of the city and the Yangtze River. Many were burned to death when the huts caught fire.

The lives of 20 Americans, including seven women, were endangered by the bombardment and by the firing of Chinese anti-aircraft batteries.

Densest Section Attacked. The most densely populated section of the city was attacked, including the new residential district where the American, Italian, German and Netherlands embassies or legations are situated, and also the homes of virtually all American and foreign residents.

Thirty sections of the capital were bombed with an average of three bombs for each spot. The stations of two of China's most important railways, the Shanghai-Nanking and Tientsin-Pukow lines, were bombed. These stations are near where American, British, French and Italian warships are anchored in the Yangtze.

Many additional civilian casualties resulted in this area.

The Japanese aviators were directing their attack principally against Government buildings and military barracks, they failed. Not one of these points was seriously damaged.

Chinese said their planes brought down four of the Japanese raiders. Japanese bombs aimed at the headquarters of the Kuomintang—the dominant political party—destroyed only a small hotel nearby; other bombs missed the Ministry of Interior and a local garrison headquarters entirely and destroyed only a Chinese pawnshop.

### Beginning of Raid.

At 10:35 a. m., after almost 24 hours since expiration of the Japanese ultimatum to evacuate the city at noon yesterday, sirens warned of the approach of enemy aircraft. The "all clear" signal, marking the end of the attack, was not sounded until noon.

The populace of this city of more than 1,000,000 dashed to prepared dugouts and other shelters or fled to the hills in motor cars, rickshaws or on foot. The streets presented scenes of confusion as the natives sought their way out of the thickly-crowded areas.

Before any Japanese planes had been sighted, 15 youthful Chinese aviators, piloting American Curtiss-Hawk pursuit, one roared into the sky and headed to the northwest to challenge the invaders. Suddenly, from the southeast, 30 to 40 Japanese machines appeared at about 10,000 feet. They seemed only dark specks in the sky against the sun.

As they swooped lower the roar of their engines sounded like the sustained roll of thunder. When they were in position, the Japanese wing leader signaled with a puff of smoke and all the craft let loose bombs on the southern section of

Continued on Page 2, Column 5.

## REBELS CAPTURE 12 MORE TOWNS IN GIJON REGION

Continue Advance From East and South Against Government's Last Important Northern Port.

## CONFLICTING REPORTS IN SOUTHERN SPAIN

Loyalists Tell of Gains in Cordoba Province—Insurgents Say Attacks Were Repulsed.

By the Associated Press.  
HENDAYE, French—Spanish Frontiers, Sept. 22.—Fresh advances east and south of Gijon, Spain, were reported today by an insurgent communiqué which announced capture of 12 additional villages. Generalissimo Francisco Franco's Navarrese column pushed forward in the eastern region, the high command said, without much resistance from the Asturian defenders of the Republican Government's last important Biscayan port.

North of Pajares, in the southern region, the fighting centered around Mount El Gallo, which the insurgents said was under their control with other nearby peaks encircled. Pajares is 32 air miles from Gijon.

Government sources said the Madrid-Valencia troops on the Cordoba province front, in Southern Spain, had made important advances, pushing the insurgents back toward the cities of Cordoba and Seville. The insurgent communiqué said these attacks yesterday were repulsed.

Insurgent infantrymen counter-attacked the Government field headquarters, it was said, and the fighting ended in a disordered Government retreat.

The Government had reported two insurgent battalions were annihilated and three insurgent-held towns were leveled by artillery. Further advances were reported around Pozoblanco, in the south, by the Government. Government miners were said to have recaptured a valuable coal mine near Penarroya, where hard fighting which began Monday.

On the Teruel front in the east Government forces told of occupying four strategic hills northwest of Lida.

## Loyalists' Attack Sets Town Aflame

Near Badajoz.  
MADRID, Sept. 22.—Government forces today swept to the outskirts of the southern town, Granja de Torrehermosa, 35 miles south of Badajoz and near the Portuguese frontier.

The civilian population abandoned the town, which was on fire after day-long artillery and airplane bombardment by Government forces.

Insurgent defenders, with a machine gun battery, were established in a cathedral tower in the center of the town, and fought off Government troops who filtered into a nearby cemetery. A temporary protection behind tombs, said a communiqué to Madrid.

Forty-six brigades bore the brunt of the fighting, which Government commanders said carried their army about nine miles into Badajoz Province.

Madrid newspapers made a vigorous demand for seizure of houses which are protected by flags of certain South American nations and in which thousands of persons allegedly opposed to the Madrid Government are taking refuge.

This action was urged as a reprisal against the "insolent protection" of Fascists in the heart of Madrid.

Seizure of closed newspapers was mentioned, but newspapers emphasized that other houses rented by South American countries should be taken over and their occupants arrested.

"After the Geneva decision, the Government has one immediate task, which is to close the buildings which these South American countries rented in Madrid in order to save Fascists who should be brought to trial by Spanish courts," the newspaper *Castilla Libre* declared editorially.

Plane Tries to Drop Bombs on French Steamer.  
PARIS, Sept. 22.—A French warship escorted the French passenger steamer, *Djenné*, from Marseilles into the Mediterranean today as a precaution following an attack on the French steamer *Koutoubia* last night.

The *Djenné*, 8700 tons, carried several hundred passengers and was on the way to Casablanca. It will be escorted either by French or British ships until safely out of the Mediterranean.

The *Koutoubia* was attacked by an unidentified plane while on the way from the island of Corsica to Casablanca. No one was injured in the attack, south of the Balearic Islands in Spanish civil war waters, and British warships offered escort.

The destroyer *Hyperion* reported that two large bombs from the three-motored monoplane fell about 300 yards from the *Koutoubia*. The plane then retired to the north.

## Chinese Reds Supporting Nanking Dissolve Their Own Government

Large Communist Army Reorganized to Help Gen. Chiang in His Fight Against Japanese.

By the Associated Press.  
NANKING, Sept. 22.—The Government of the Soviet Republics dissolved itself today and ordered its army, a large force which has disturbed China's internal affairs for 10 years, to serve Generalissimo Chiang Kai-shek of the Nationalist Government. In a manifesto the Central Executive Committee of the Chinese Communist party announced support of and unity with the present Chinese administration.

Reorganization of the Communist army as a Nationalist revolutionary army under Chiang's Military Affairs Commission was announced. This army, mostly in Shensi, Shanxi and Suiyuan provinces, already has been designated as the Eighth National Army.

"The Chinese Communist party, realizing that the principles of Sun Yat-sen (founder of the Chinese Republic) are indispensable to the reconstruction of China, has decided to abandon all measures aimed at the overthrow of the Kuomintang (ruling party) Government by force, propagation of Communist doctrines and the forcible expropriation of land," the committee's manifesto declared.

under statutory obligation to defend Black in any suits regarding his eligibility. He declared he would take under advisement making public an account of his probable interview with Judge Fort.

Senator Walsh Declares Black Imposed on President Roosevelt.  
By the Associated Press.  
WORCESTER, Mass., Sept. 22.—Senator David I. Walsh (Dem., Mass.) today declared Justice Hugo L. Black of Alabama, by not disclosing his previous membership in the Ku Klux Klan, had obtained his elevation to the Supreme Court "by deception."

By his silence, Walsh contended, Black had grossly imposed on President Roosevelt and his colleagues, even before his confirmation.

Walsh said any impeachment proceedings would have to originate in the House, and expressed the opinion the most feasible way in which Black could be eliminated would be for the President to obtain his resignation.

"From interviews and correspondence I have had with several Democratic members of the Senate," Walsh said to an Associated Press correspondent, "I find that practically all of them express the view that Senator Black, by permitting the President to nominate him for the United States Supreme Court, and for the Senate to confirm him without disclosing his eligibility, and declared that, to the best of his knowledge, there was no statute or procedure enabling the Supreme Court to pass on the qualifications of its own members."

He had also declared that, concerning Borah's contention that Attorney-General of the United States, but no private citizen, could bring quo warranto proceedings in the Supreme Court against Black, requiring him to state by what right he held office. He had no reason to believe, he concluded, that the Department of Justice would be

deceived to comment on two petitions now pending before the Supreme Court questioning Black's eligibility, and declared that, to the best of his knowledge, there was no statute or procedure enabling the Supreme Court to pass on the qualifications of its own members."

## U. S. PROTEST TO JAPAN ON NANKING BOMBING

Tokio to Be Held Responsible for Any Damage Suffered by Americans.

By the Associated Press.  
WASHINGTON, Sept. 22.—The United States put Japan formally under notice today that it would be held responsible for any damage suffered by Americans as a result of Japanese military operations in the Nanking area.

In a vigorous protest against Japanese bombing attacks on the Chinese capital, presented to the Japanese Foreign Minister in Tokyo, this Government repeated the view that any general bombing of such an extensive area of population "is unwarranted and contrary to principles of law and of humanity."

Secretary of State Hull told his press conference that the new representation differed from those addressed previously to the Japanese Government in that it constituted a formal written note to the Japanese Foreign Minister. The previous protest, made on the ground that the threatened bombing violated humanitarian and international laws, was delivered orally.

Referring to the Japanese warning that nationals of third powers evacuate the city, the note declared: "The American Government objects to such jeopardizing of lives of its nationals and of non-combatants generally and to the suggestion that its officials and nationals now residing in and around Nanking should withdraw from the area in which they are lawfully carrying on their legitimate activities."

"The American Government strongly objects to the creation of a situation in connection with the American Ambassador and other agencies of this Government are confronted with the alternative of abandoning their establishments or being exposed to grave hazards."

Reorganization of the Communist army as a Nationalist revolutionary army under Chiang's Military Affairs Commission was announced. This army, mostly in Shensi, Shanxi and Suiyuan provinces, already has been designated as the Eighth National Army.

"The Chinese Communist party, realizing that the principles of Sun Yat-sen (founder of the Chinese Republic) are indispensable to the reconstruction of China, has decided to abandon all measures aimed at the overthrow of the Kuomintang (ruling party) Government by force, propagation of Communist doctrines and the forcible expropriation of land," the committee's manifesto declared.

under statutory obligation to defend Black in any suits regarding his eligibility. He declared he would take under advisement making public an account of his probable interview with Judge Fort.

Senator Walsh Declares Black Imposed on President Roosevelt.  
By the Associated Press.  
WORCESTER, Mass., Sept. 22.—Senator David I. Walsh (Dem., Mass.) today declared Justice Hugo L. Black of Alabama, by not disclosing his previous membership in the Ku Klux Klan, had obtained his elevation to the Supreme Court "by deception."

By his silence, Walsh contended, Black had grossly imposed on President Roosevelt and his colleagues, even before his confirmation.

Walsh said any impeachment proceedings would have to originate in the House, and expressed the opinion the most feasible way in which Black could be eliminated would be for the President to obtain his resignation.

"From interviews and correspondence I have had with several Democratic members of the Senate," Walsh said to an Associated Press correspondent, "I find that practically all of them express the view that Senator Black, by permitting the President to nominate him for the United States Supreme Court, and for the Senate to confirm him without disclosing his eligibility, and declared that, to the best of his knowledge, there was no statute or procedure enabling the Supreme Court to pass on the qualifications of its own members."

He had also declared that, concerning Borah's contention that Attorney-General of the United States, but no private citizen, could bring quo warranto proceedings in the Supreme Court against Black, requiring him to state by what right he held office. He had no reason to believe, he concluded, that the Department of Justice would be

deceived to comment on two petitions now pending before the Supreme Court questioning Black's eligibility, and declared that, to the best of his knowledge, there was no statute or procedure enabling the Supreme Court to pass on the qualifications of its own members."

## JAPANESE PLANES BOMB NANKING TWICE IN DAY

Continued From Page One.

the city, where the Government center is. Chinese anti-aircraft batteries on the hills rimming the ancient city were in vain action.

Shortly before the invaders swept in from the southeast, other Japanese planes apparently had showed up to the northwest but too far distant to be seen by civilian observers. The obvious strategy was to draw the Chinese pursuit craft away from the city, clearing the way for the raid from the south-east.

Chinese Battle Invaders.  
Other Chinese pursuit ships, however, tore into the Japanese flanks. Soon enemy planes were seen dropping clouds of black smoke. They staggered across the sky for a moment and then four of them shot out of the formation and plunged to earth.

Their bombs dropped, the Japanese planes disappeared to the north at 11:15, but almost immediately another large number swooped down from the northwest and concentrated on the Japanese Embassy and Drum Tower residential area.

Of Japanese planes shot down, Chinese said one crashed in the congested center of the city, another on the crowded waterfront. The third on the Pukow terminal of the trunk railroad to the north across the Yangtze River, and the fourth just outside the city walls.

In the second raid, at 3:30 p. m., the Japanese planes dropped over a great height because of the serious damage they had previously suffered from the Chinese pursuit planes. They dropped their bombs from an estimated altitude of two miles, fighting a slow withdrawal action.

As they fell back on the prepared defense line the Chinese regional troops dug in to bolster the already strong position. The Chinese were overwhelmingly strong numerically and were thought to have adequate artillery and mechanized units to meet the Japanese mechanized army.

Japanese reported they encountered only small resistance in the last three miles beyond captured Nanjing, the next sizable town above Paoingfu on the railroad from Peking to Hankow.

Paoingfu is about 80 miles southwest of Peking and the fortified Chinese line runs along the North River about 10 miles to the north.

United States consular officials were concerned for the safety of Americans in the regions, particularly in the case of the Chinese response to offers to evacuate them to safety in Manila.

Hundreds of Americans remain in North China—mostly missionaries and educators—but the only applicants to the Consul in Tientsin were nine Filipinos and an American-born Chinese family.

35 Americans at University.  
Thirty-five Americans with 400 Chinese students are housed within the campus of the American-owned Yenching University outside of Peking and are carrying on their classes. The walls bristle with machine guns, all small gates are bricked up and the large ones pro-

disappeared, workmen turned out on the highways to fill bomb holes. Electricians were busy repairing transmission lines.

Government officials halted work during the raids but resumed it immediately afterward.

The British Embassy is within a stone's throw of the Chinese Ministry of Communications, which Japanese airmen have been trying steadily for four weeks to demolish.

The German Embassy is near the Ministry of War.

Japanese air bombs on several occasions have struck within 300 yards of the French, Russian and Belgian Embassies.

Despite the air raids, United States Ambassador Nelson T. Johnson and his staff returned tonight to the Embassy from the American patrol boat *Luzon*, aboard which they had taken refuge yesterday.

## Japanese Drive Back Chinese To Fortified Line in North

150,000 Defense Troops Entrenched Along 100-Mile Barrier—Major Battle Expected.

By the Associated Press.  
PEIPING, Sept. 22.—The southward thrust of the Japanese expeditionary force in North China today pushed the Chinese back to their strong defense line cutting from east to west across Central Hopeh province.

A Japanese army of 60,000 men had advanced 70 miles south from Peiping to within two miles of the defense line in the western flank in the Paoingfu sector. On the eastern wing, a strong Japanese column occupied the last village five miles north of Tsangchow.

A major battle that probably would decide the fate of North China was thought to be imminent. Foreign military observers said that if Japan could break the 100-mile barrier of concrete forts and dugouts stretching from Paoingfu to Tsangchow, Chinese resistance to the north of the Yellow River would be crushed.

150,000 Fresh Men in Line.  
The Chinese were known to have two field armies of regular troops. Numbering at least 150,000 well-trained men, entrenched along the line. They were fresh troops which have not yet been in battle.

The Japanese, on the other hand, have had to fight doggedly and have suffered heavy losses. Chinese provincial divisions have held up the Japanese drive for two months, fighting a slow withdrawal action.

As they fell back on the prepared defense line the Chinese regional troops dug in to bolster the already strong position. The Chinese were overwhelmingly strong numerically and were thought to have adequate artillery and mechanized units to meet the Japanese mechanized army.

Japanese reported they encountered only small resistance in the last three miles beyond captured Nanjing, the next sizable town above Paoingfu on the railroad from Peking to Hankow.

Paoingfu is about 80 miles southwest of Peking and the fortified Chinese line runs along the North River about 10 miles to the north.

## NEW CHINESE CHARGES PREPARED FOR LEAGUE

Dr. Koo to Accuse Japan of Aggression and Urge Action to Halt Conquest

By the Associated Press.  
GENEVA, Sept. 22.—Dr. V. K. Wellington Koo, China's League of Nations delegate, today prepared charges against Japan to lay before the Chinese-Japanese Advisory Committee.

Dr. Koo planned to follow his new accusation of Japan as the aggressor in the Chinese-Japanese war with another urgent appeal for concrete action to halt the conquest of China. He made a similar indictment and plea last week before the League Assembly.

Both China and Japan were invited yesterday to participate in the committee's consideration of the Chinese appeal. The United States is represented by a committee member, Leland Harrison, Minister to Switzerland.

While officially ignoring the League as such, Japan nevertheless is waging an extensive diplomatic counter-offensive against China in Geneva. Japan's official Government Bureau for International Conference distributed today to all delegations a lengthy document designed to refute China's allegations and present "exact information" on incidents in Northern China and the Shanghai region, both theaters of the present conflict.

The document asserted Chinese provocations forced Japan to adopt measures for self-defense and denied that Japan wished to destroy China as a political entity or crush its civilization.

or wounded, intentionally, through negligence, the national belonging to a third country.

"As stated in the interim note of Sept. 8 (asking for time for continued investigation), instructions have been sent again to Japanese forces in China to exercise the greatest care for safeguarding non-combatants, it being the desire and policy of the Japanese Government to limit, as far as possible, the dangers to non-combatants resulting from hostilities in China."

"I avail myself of this opportunity to renew to Your Excellency assurances of my highest consideration."

One Plane Dropped Bomb.  
Sir Hugh was gravely wounded. His party was in two automobiles, both flying large Union Jacks. Two planes swooped down, spraying both machines with bullets. The second plane then dropped bombs.

For a time it was feared the Ambassador would not recover. Blood transfusion was resorted to and he is now sufficiently recovered to walk and to receive visitors. The British Government at once made sharp protest to Japan, demanding cessation of the attacks, and "fullest redress."

## 'WASN'T PERMITTED TO EARN MY PAY'

Highway Attorney Resigns;  
Says He Did Nothing  
Day After Day.

Clifford Greve Jr., 5 Hortense place, told a Post-Dispatch reporter today he had resigned as an assistant attorney for the State Highway Commission because he was "not permitted" to earn his salary of \$3600 a year and felt therefore that it was unfair to taxpayers to continue to receive it.

"I was just simply shelled last April," he declared, "when I was relieved of my duties as trial attorney and sent to the office at Jefferson City with no particular duties. I went to the office each day but spent most of my time just sitting there. As I said in the letter, I haven't earned a tenth of my salary since then, and it just isn't fair to taxpayers."

Greve said he pointed out in the letter that he had tried a great many condemnations in between his appointment by Gov. Park on Oct. 23, 1935, and last April, that he had not lost any and that a net amount of \$7200 in road funds above his salary had been returned to the State.

Greve said the appointment came to him unsolicited after he had made campaign speeches for J. Marvin Krause, son-in-law of former Gov. Park, when Krause was a candidate for the Republican nomination for Judge of the St. Louis Court of Appeals in 1934.

He made the speeches because he considered Krause well qualified for judicial office, Greve said, adding that he told him specifically he expected no favor if Krause were elected. Krause was not elected, but recommended Greve for the appointment nevertheless, pointing out that Greve had supported him without expressing a wish for favor.

### CASKET CO. SIGNS UNION PACT

A. F. of L. Organization on Strike at Three Other Plants.

The Monark Casket Co., 1912 Washington avenue, signed an agreement yesterday with the Casket Workers' Union, granting 14 men and women workers a 20 per cent increase in wages and a 40-hour week. The employees, who formerly had a 48-hour week, continued at work during the negotiations.

The union, affiliated with the American Federation of Labor, is conducting strikes at three other firms, the St. Louis Casket Co., F. C. Riddle & Bro., and the Kregel Casket Co.

### RESIGNS \$3600 JOB

CLIFFORD GREVE JR.

### MRS. CHAUNCEY J. KRUEGER DIVORCES FORMER JUDGE

Obtains Decree on Grounds of Indignities; Testifies He Grew Quarrelsome.

Mrs. Chauncey J. Krueger, whose husband, an attorney, was formerly Judge of the Court of Criminal Correction and Republican member of the Board of Aldermen, obtained a divorce on grounds of general indignities today in Circuit Judge David J. Murphy's court.

She testified that he had grown "quarrelsome," and that she sometimes had to pay bills for medical treatment and food with her own money. He struck her one time, she said, when she remonstrated with him for having spilled orange juice on a rug in their home.

They were married in June, 1931, and separated last November. Her maiden name, Mary Buchanan, was restored. Krueger filed an entry of appearance, but did not contest the suit.

### FINED \$85 ON DRIVING CHARGE

Leo C. Tolliver Loses His License for Year.

Leo C. Tolliver, a waiter, was fined \$85 and his driver's license was suspended for one year by Police Judge Edward M. Ruddy today on charges of driving when intoxicated and speeding.

Tolliver, 32 years old, was arrested Aug. 30 at Goodfellow boulevard and Emma avenue. A policeman testified he was driving 50 miles an hour. Tolliver denied he was intoxicated. He resides at 4549 Pershing avenue.

## Roosevelt Starts Western Trip to Feel Public Pulse

Continued From Page One.

the fact that 21 correspondents, representing the leading newspapers and press associations, have signed up for the trip. This is about the same number that accompanied him on his last presidential campaign tour.

### May See Situation With Gravity.

If the common belief is correct, that he is actuated by a desire to gather first-hand information on the state of public opinion, then he must view the situation with considerable gravity, because it has been less than a month since he received a report on it from his No. 1 political scout—Postmaster-General Farley. "General Jim" was on the road three months, visiting every State east of the Mississippi except Florida and South Carolina. On his return he told newspaper men:

"They (the voters) are in favor of the Roosevelt policies through and through. They don't even care what they are."

The present trip, decided on after this reassurance, and coming on the heels of the Constitution day address, in which the President repeated his intention of bringing about a change in the size or procedure of the Supreme Court, leads unerringly to the conclusion that he is bent upon measures of such importance that he trusts no one else to do the necessary pulse-feeling for him.

No more than a week ago he was telling reporters that the condition of world affairs still made it uncertain whether he would take the Western trip. There has been no improvement in world affairs since then. On the contrary, the Japanese threat to bomb Nanking, resulting in the evacuation of the American Embassy there, has produced the most critical situation of the Chinese-Japanese undeclared war, in so far as this Government is concerned.

### World Situation Much Worse.

That fact is sharply emphasized by dispatches from London within the last 24 hours, stating that the British Government may shortly approach the United States to learn what the reaction would be in Washington if Britain should withdraw her Ambassador from Tokyo. In other words, conditions which made the President uncertain a week ago whether he dared leave the capital, have since become much worse.

Another aspect of the trip which gives rise to an interesting speculation is the circumstance that it will keep Mr. Roosevelt away from Washington until after the time when Justice Hugo L. Black is scheduled to return from Europe, and take his place on the Supreme Court bench. The President expects to return Oct. 6, Justice Black is now enroute from England, and

the fall term of the court opens Oct. 4.

Because of his precedent-breaking course in taking the judicial oath seven days after Roosevelt appointed him, instead of waiting until the opening day of the term, Justice Black will be ready to mount the bench on that day, unless unforeseen events intervene.

In his only formal statement on the charges that Justice Black is, or has been, a member of the Ku Klux Klan, the President said there would be no further comment until Black's return. He repeated that position at his press conference yesterday. That, together with his oral statement that he knew nothing of any Klan connection when he appointed Black, led to the conclusion that he would demand a prompt explanation upon the new Justice's arrival, and that, if the explanation proved to be unsatisfactory, he might even ask him to resign.

### The Problem Over Black.

Obviously, it would be far more embarrassing to ask for Black's resignation after he had begun to perform his duties as a member of the court, than before he ascended the bench. Consequently, the question arises whether the President would deliberately create a situation pregnant with embarrassment for himself.

This and kindred questions have tended to produce a belief—now rather widely held—that he may let the appointment stand. It is strengthened by the additional conviction, also widespread, that Justice Black would not resign if the President asked him to. Finally, a factor to be considered is whether the President would not deem it more expedient to stand by his appointment, and endure whatever penalties such a course involved, than to admit a colossal blunder.

### Wife Accompanies President on Two-Week Trip.

By the Associated Press.  
HYDE PARK, N. Y., Sept. 22.—President Roosevelt, bound on a two-week trip to the Pacific Northwest, left here by special train today at 4 p. m. Mrs. Roosevelt accompanied him. The trip will end either in New York or Hyde Park Oct. 6.

The 10-car special train is equipped with public address apparatus. Traveling the central route, the train tonight will pass through Buffalo, Cleveland and Northern Indiana, and tomorrow through Chicago and Southern Iowa.

The President yesterday advised the newspaper men to take along their "heavies" on the 6000-mile swing because of the cold Northwest nights. He had in mind particularly the reports of snow in Yellowstone Park, where he will spend Saturday and Sunday sight-seeing.

### GOLD AND PLATINUM STOLEN

Metals Valued at \$900 Taken From St. Charles Dentist's Office.

Dental gold and platinum valued at \$900 was stolen from the office of Dr. Walter G. Ochs, dentist in the Central Building in St. Charles, when he was out to lunch today.

Upon his return to the office shortly after 1 p. m. Dr. Ochs found that a transom above the office door had been forced open and the metal taken from an unlocked safe. Employees of an insurance company office next door said they had heard sounds, but had not investigated because they did not know the dentist was absent.

### Cuba Proposes Conference.

HAVANA, Sept. 22.—The Cuban State Department made public yesterday a note, sent to all governments on the American continents, proposing a conference to "study economic problems tending to destroy democracy." The note suggested "avoidance of unemployment" by reducing working hours. It was approved by the Cuban Congress and Cabinet.

### BONNE TERRE CHILD PRODIGY

AT HOME AFTER SCREEN TESTS

Parents of Mary Christine Dunn Decline to Discuss Results—Fear Strain of Film Life.

Mary Christine Dunn, 2½-year-old child prodigy, who was taken to Hollywood last month for screen tests, has returned to her home in Bonne Terre, Mo., with her parents, Mr. and Mrs. Lawrence T. Dunn.

The parents declined to discuss the results of the tests but said they had decided the strain of life in the film capital would be too great for a child of Mary's age, adding they might return to Hollywood later.

The Dunn had signed a seven-year optional contract with a major studio providing \$150 a week for Mary and a \$100-a-week expense account for themselves. They were in Hollywood a week. Mary attracted nation-wide attention last spring after Washington University psychologists announced she had an intelligence quotient of 185, 45 points higher than "genius."

### Birth Control Information Approved

CHICAGO, Sept. 22.—Establishment of a birth control information program to serve the 150,000 members of the Illinois Congress of Parent-Teacher Associations was

approved by the Executive Council yesterday. The congress will publish a list of 13 clinics, where information may be obtained. Speakers also would be made available to address local groups.

## LOCKED-OUT CIO MEN TELL NLRB OF FIGHT ON UNION

Describe Efforts to Get  
Them Into Independent  
Group of American Ra-  
diator Co. Workers.

### STORY OF THREATS GIVEN TO BOARD

Former Employee Testifies  
at Litchfield, Ill., Hearing  
Foundry Boss Uttered  
Threats.

By a Staff Correspondent of the  
Post-Dispatch.

LITCHFIELD, Ill., Sept. 22.—Locked-out employees of the American Radiator Co. were told by organizers for an independent union here that the local plant would be reopened only if they withdrew from the CIO-affiliated Amalgamated Association of Iron, Steel and Tin Workers and joined the independent organization, according to testimony introduced today before Herbert Wenzel, trial examiner for the National Labor Relations Board, who is hearing charges that the firm has been guilty of unfair labor practices.

Adolphus Bryant, a Negro, who had been in the employ of the company since 1919, testified he was approached by John Easterly, active in the organization of the independent Litchfield radiators' union, and asked to sign a white membership slip despite the fact that he had already signed one of the CIO's blue cards.

Questioned by David C. Shaw of St. Louis, Labor Board trial attorney, Bryant said Easterly had told him it was the only way in which the plant would be reopened.

"I have good reason to believe that it will be opened in a week, if we get 120 signatures," Bryant quoted the organizer. According to the CIO, there are about 240 workers eligible for union membership. Easterly also promised a two-weeks' vacation with pay and a 10 per cent salary increase, Bryant said.

About the "White Slip." Over his protest that he did not think it proper to sign a "white slip" after having joined the CIO local, Fred Anderson, another membership solicitor, told him that the men would never go back under the CIO, but assured him that he would not injure his standing in that group by signing the "white slip," the witness declared. He also said Anderson, a plant mechanic, told him the NLRB would never come to Litchfield as long as the plant was closed down.

Bryant described a meeting held at Easterly's home. About 120 men were there to be addressed by Dale Timmons, president of the independent union. The latter told them, he said, that the only possible way for them to go back to work was by withdrawing from the CIO and having the charges filed against the company with the Labor Board withdrawn. A committee was formed at that time, Bryant said, to induce workers to quit the John L. Lewis organization.

Dennis J. Godfrey, attorney for the independent union, which has intervened in the present proceedings, asked the witness whether he had not been told what to say on the stand by CIO members or a representative of the Labor Board. The witness denied this.

"At Easterly's house, did anyone say that the American Radiator Company was contributing money to the Litchfield radiators' union?" Godfrey asked. "No sir, I didn't hear anything like that. They took up a collection to pay for an ad in the paper."

Talk With Superintendent. Theodore Meier, a member of the independent union, was called to the stand under subpoena by the Labor Board. Under questioning by Shaw, he told of a brief conversation with E. M. Benedict, superintendent of the plant.

"If you fellows don't want to belong to the CIO," he quoted Benedict, "you could make just as much noise against it as those fellows are making for it."

Cross-examined by Samuel W. Fordyce of St. Louis, one of the lawyers for the company, he admitted that he had received no instructions or threats from the company.

Another witness was Edward Houlihan, a CIO member, who had worked for the radiators' company for 14 years. He quoted James Thornton, a foreman, as telling him that he had "better go into a union of our own than an outside one."

That was late in April but Thornton knew in January that he belonged to the CIO, Houlihan said, when cross-examined by George E. Logan, the other St. Louis lawyer representing the firm. He admitted that during that time nothing had been done to discourage his stand.

## HELD IN SHOOTING

Associated Press Wirephoto.  
ROY GARR.

session of the hearing. The story of threats against organizers and board representatives was told by Philip Davis, a former miner who said that he had worked for the radiators' company steadily since 1926 and who admitted that he was one of the first to join the CIO affiliate that was organized at the plant. He accused Peter Cashen, the company's foundry boss, and Henry Mumme, another company employee, of uttering the threats last April when they approached him in a saloon.

"Cashen said to me, 'I understand you fellows are going to bring in organizers,'" the witness said, "and I said 'sure, that's the trick now. It's all that we can do, conditions being what they are at the plant.'"

Davis hesitated to repeat Mumme's rejoinder, but finally did so at the urging of Shaw. Couched in what Logan facetiously described as "lady-like language," it was a blunt promise to run the organizers and the board out of town.

Thrown Out of Saloon. "Then I was thrown out of the saloon," Davis added. "That ended the conversation."

Under cross-examination by Logan, Davis insisted that he had been in the place only 10 minutes. Davis who like many of the radiators' workers is now on relief, also related how his grocer, Kenneth Nelson, had told him that work would be resumed at the plant only if the men signed "white slips," the local description of the independent union's application blanks.

"When I told him that I would never sign one of those things," the witness continued, "he told me that he couldn't 'carry' me any longer."

Questioned by Herbert Wenzel, the trial examiner, Davis said that he had paid his account every week and that when his credit was discontinued he was indebted only for purchases made during the week, amounting to perhaps \$5.

V. R. Fellers, chief clerk of the company, told him that the firm would never stand for any "agitation," testified Herman F. Wettmer, who said that he was in its employ off and on since 1905.

He said that he wanted some money in August of 1936 to lay in his winter's coal, and so went to Fellers with a request that the chief clerk endorse a note.

"I understand there has been quite a bit of agitating," Fellers said, according to Dettmer. "You know the company won't stand for that. It will close down the plant. Then I'll be left to pay your note."

Fired for Agitating. He also testified that he himself had been discharged in December of 1912 for "agitating," only to be rehired in January of 1913.

"What did you do?" he was asked. "I asked for a raise."

Like other witnesses, Dettmer declared that last May's shutdown came without any advance notice.

Several of the men said that they did not learn of it until the next day. In seeking to establish that it came at a time when the company had been planning to continue its operations, Shaw went into the technical details of the men's jobs

and also questioned them about the company's inventory. It was this testimony that drew the particular fire of the lawyers for the firm.

Shortly before the shutdown, the radiators' company had announced a new policy of vacations with pay for July and August; a picnic had been arranged for June, and season tickets had been sold for the games of its softball team, said Lee Deming, another veteran employee of the concern.

## SELF DEFENSE PLEA IN DENHARDT KILLING

Attorney Indicates Such Step  
for Brothers of Widow, General  
Was Accused of Shooting.

By the Associated Press.

SHELBYVILLE, Ky., Sept. 22.—A self-defense plea, it is indicated, will be made by Jack Roy and E. S. Garr, charged with the murder of Henry H. Denhardt on the eve of Denhardt's second trial for the murder of their widowed sister, Mrs. Verna Garr Taylor, his fiancée.

"Men don't kill each other for nothing," was the terse reply of J. Ballard Clark of Lexington, their attorney, to questions concerning reports the Garrs planned such a plea.

Patrolman Jephtha Tracey, to whom the brothers surrendered a few moments after Denhardt was shot on Shelbyville's main street Monday night, said he had indicated as much then.

Saw Denhardt Reach for Pocket. "They said that before any shots were fired they saw Denhardt reach for his pocket and they thought he was reaching for a gun," the officer said.

The brothers were formally charged with murder in warrants sworn to by County Attorney Coleman Wright. Arraignment was set for Friday morning and the Garrs remained in the Shelby County jail.

Clark said no effort would be made to provide bond until today. Circuit Judge Charles C. Marshall, who presided over Denhardt's first trial last April, formally granted a commonwealth request at nearby New Castle, to dismiss the murder charge against the former Lieutenant-Governor and former head of the Kentucky National Guard. The second trial was scheduled to open yesterday.

The body of the 61-year-old Denhardt was returned to his home town of Bowling Green, Ky., for burial. Mrs. Elizabeth Galze Denhardt, his divorced wife; a brother, J. G. Denhardt, publisher, and a sister, Miss Bertha Denhardt, live there.

Military Funeral Tomorrow. Private funeral services will be held at 10 a. m. tomorrow at the home Denhardt shared with his sister.

The body was accompanied by Rodger Myers of Bowling Green, attorney for Denhardt, who was with him when he was shot down and who begged the Garrs, he said, not to shoot him, too. Myers said Roy and Garr admitted killing Denhardt in revenge for the death last Nov. 6 of his 40-year-old sister, who had gone for an automobile ride with Denhardt.

The defense in the trial last week, the witness declared, was that he had paid his account every week and that when his credit was discontinued he was indebted only for purchases made during the week, amounting to perhaps \$5.

The Garr brothers hung a blanket over their cell window yesterday to avoid the stares of passersby. Mrs. Mary Pryor Taylor Brown and Miss Frances Taylor, daughters of the dead widow, visited their uncle.

and also questioned them about the company's inventory. It was this testimony that drew the particular fire of the lawyers for the firm.

Shortly before the shutdown, the radiators' company had announced a new policy of vacations with pay for July and August; a picnic had been arranged for June, and season tickets had been sold for the games of its softball team, said Lee Deming, another veteran employee of the concern.

## WILLIAM O. DOUGLAS BECOMES S E C HEAD

Law Professor Takes Office to  
Succeed James M. Landis,  
Resigned.

By the Associated Press.

WASHINGTON, Sept. 22.—William O. Douglas, 38-year-old law professor who is the new chairman of the Securities and Exchange Commission, pledged immediate and vigorous action by the commission in the role of "the investor's advocate" when he took office today. He said the commission would prosecute quickly all cases of manipulation.

Referring to recent breaks in the stock market, he said the commission would study to determine causes and levels as such.

"Prices always will go up and down in response to natural economic forces," he continued. "We do not want to interfere with that but we do not want other people to interfere with it, either."

Taking cognizance that some Wall street circles regard him as a radical, Douglas said he was a "true conservative." He said his "whole philosophy about finance is the application of simple honesty to all transactions."

He said experts were studying methods of reducing the size and increasing the intelligibility of prospectuses of new securities.

The commission will consider immediately prohibiting margin trading for their own accounts by commission brokerage houses and will continue study to determine complete segregation of brokers and dealers, he continued, and rules will be issued soon on price maintenance of new securities during their period of initial distribution.

He said the commission would send recommendations for regulation of investment trusts to Congress by Jan. 1.

He remained in Washington only a few hours today, immediately returning to Pleasant Bay on Cape Cod to remain until Oct. 1 with his family.

Douglas was selected for the chairmanship by his associates while he was away on a vacation. Although he generally had been expected to get the post eventually, no action had been considered likely until President Roosevelt named a new commission member to succeed Chairman James M. Landis, who resigned last week to become dean of the Harvard Law School.

Douglas' criticisms of lawyers and bankers in reports to Congress and in speeches have given a preview of his ideas about finance. A few months ago, he urged the banking fraternity to charge smaller underwriting commissions, yield control of corporations to the real stockholders and treat labor fairly.

Douglas went to Washington from Yale University in 1934 to direct the commission's investigation of protective committees and reorganizations and became a member of the commission in January, 1936.

He was born Oct. 16, 1898, at Maine, Minn., and was graduated from Whitman College in Walla Walla, Wash. He taught in the Yakima High School for two years and then rode a freight train to New York in 1922 to study law at Columbia University. After two years' work for the law firm of Gravit, Dugerdorf, Swain & Wood in New York, Douglas became a lecturer at the Columbia Law School and in 1928 moved to the Yale Law School. There he specialized in bankruptcy law and eventually was appointed sterling professor of law, a post from which he has been on leave of absence since 1934.

## 25 PACKING HOUSES SIGN A.F.L. CONTRACTS

1600 Employees in St. Louis  
Affected—Wage In-  
creases Provided.

By the Associated Press.

The signing of contracts with 25 St. Louis packing houses affecting 1600 employees as a result of a campaign carried on for more than a year to unionize the industry was announced today by Earl Jimereson, an international vice-president of the Amalgamated Meat Cutters & Butchers Workmen, affiliated with the American Federation of Labor.

Contracts were drawn individually with each packing house, and are nearly uniform and provide for wage increases of 20 1/2 cents an hour for unskilled labor and 30 cents an hour for skilled butchers, as compared with 1933 wage scales, Jimereson said.

Wage scales an hour specified in the contracts are: Minimums for women, 52 and 54 cents; minimum for men laborers, 60 1/2 cents; sausage stuffers, 72 and 77 cents minimum; killers, skilled cutters and butchers, 85 cents to \$1.15.

Other contract terms are: Recognition of the union as sole bargaining agent for employees; closed shop; no strikes and no lockouts during existence of contracts; guarantee of 32 hours a week when working, but lay-offs not prohibited, and arbitration of employees' grievances. There is no definite time period in the contracts, but new negotiations may be opened after 30 days' notice.

The Amalgamated Meat Cutters and Butcher Workmen's International union has jurisdiction, not only over meat-cutters, packing house workers generally and live-stock handlers, but also over plant maintenance men of other craft unions, making unionization of the plants more on industrial than on craft lines.

Only three large packing plants, one in St. Louis and the other two at National City, were left unorganized by the A. F. of L. in the drive, Jimereson said. Contracts with three large St. Louis plants were obtained in the last week.

Fatally Hurt Playing Football. LOUISVILLE, Ky., Sept. 22.—Edward J. Boyles, 15 years old, died yesterday from a skull fracture suffered when he fell against a stone curbing while playing football in a street.

His term runs until June, 1939.

He was born Oct. 16, 1898, at Maine, Minn., and was graduated from Whitman College in Walla Walla, Wash. ## SPANISH REBEL LEADER HELD FOR PLOTS IN FRANCE

Governor, Who Admitted  
Effort to Steal Submarine,  
Accused of Many Other  
Activities.

PLANNED BOMBINGS  
IN PARIS, IS CHARGE

Major Troncoso Jailed on  
Orders of Interior Min-  
ister After Conference  
With Premier.

By the Associated Press.  
PARIS, Sept. 22.—French police  
arrested Major Julian Troncoso, in-  
surgent military Governor of three  
Spanish provinces, in Hendaye,  
France, last night on orders of  
Maz Dornoy, Minister of the In-  
terior.

Troncoso was taken from the  
frontier town to Bayonne under  
heavy guard. He was placed in jail  
there on the formal charge of hav-  
ing instigated the attempted theft  
of the Spanish Government subma-  
rine C-2 from a Brest dry dock last  
Sunday.

Because of his prominence in  
Spain, where he was known as the  
"Frontier King," the insurgent offi-  
cer has presented a delicate diplo-  
matic problem to French authori-  
ties.

Acts After Seeing Premier.  
Minister of the Interior, chief of the  
Surete National, said witnesses had  
linked insurgent Generalissimo  
Francisco Franco's military Gov-  
ernor with a whole series of terror-  
istic activities in France.

Officials said Troncoso took full  
responsibility for the abortive ef-  
fort to steal the submarine, in the  
course of which one raider was  
killed.

He stated in his defense during  
24 hours of questioning by Hendaye  
police that he considered it his  
"right and duty" to oppose Gen.  
Franco's enemies even on foreign  
soil.

Motiesier said witnesses asserted  
that Troncoso had planned to bomb  
the Spanish Government's pavilion  
in the 1937 Paris Exposition and  
also the Spanish Embassy here.

Other Activities Alleged.  
Other witnesses said he was con-  
nected with attempts to blow up  
the Spanish Consulate in Bayonne  
and with other secret terrorist ac-  
tivities in France.

Officials thought that Troncoso's  
frank admission of his part in the  
submarine plot would prevent his  
arrest from becoming an interna-  
tional incident, involving France  
with Franco.

Police were seeking to establish  
whether the insurgent schemer had  
been at Brest when the actual at-  
tempt to steal the submarine was  
made. Three witnesses, Motiesier  
said, have identified him as a mem-  
ber of the Brest raiding party.

Troncoso has insisted he spent the  
day in Bordeaux.

After being jailed in Bayonne,  
Troncoso was held at the disposi-  
tion of the investigating magistrate  
of that city.

The 40-year-old military governor  
of the provinces of Navarre,  
Gipuzcoa, and Bidasoa, is cred-  
ited with the organization of the  
insurgent espionage service. He  
also has been liaison agent between  
Salamanca, seat of the insurgent  
government, and foreign Embassies  
that moved from Spain to French  
towns near the frontier.

## Gets Opera Contract

BEVERLY LANE.

Chicago Civic Opera Company. She is 18 years old, and the  
third youthful singer signed by the organization.

## GAMBLING GRAFT INQUIRY IS BEGUN IN PHILADELPHIA

Court Also Directs Private Investi-  
gation Into Conduct of District  
Attorney's Office.

PHILADELPHIA, Sept. 22.—A  
grand jury began yesterday to hear  
witnesses to learn whether the city  
police give gambling and disorderly  
houses protection at a price.

"These syndicates have such  
large investments in houses and  
equipment that they can afford to  
pay well, and they will pay anyone  
in any city government who will  
take their money," Common Pleas  
Judge Curtis Bok told the jury.

At the same time Judge Bok di-  
rected Earl G. Harrison, an attor-  
ney, to conduct a private inquiry  
into the District Attorney's office.

District Attorney Charles F. Kel-  
ley had asked Judge Bok for the  
grand jury investigation last week.  
He charged that gambling existed  
in the city under the protection  
of the Bureau of Police. Mayor S.  
Davis Wilson, nominal head of the  
city police, asked Judge Bok to ig-  
nore the request, or to include the  
District Attorney's office in the in-  
vestigation.

Six Hurt by Baltimore Explosion.  
By the Associated Press.  
BALTIMORE, Sept. 22.—A blast  
in the basement of a three-story  
brick building being torn down  
slightly injured six persons today,  
including a city supreme bench  
Judge. Debris was blown into the  
street, striking automobiles and pe-  
destrians. Eight men were at work  
in the building, but only one was  
injured. The other injured were  
either in automobiles or on the  
sidewalk. Judge Abner Saylor was  
struck in the back of the legs by  
a piece of timber.

## MAIL FRAUD DENIED BY STOCK OPERATOR

Philip H. Philbin Jr. Arraigned  
Attorney Says He Is "Prac-  
tically Broke."

By the Associated Press.  
NEW YORK, Sept. 22.—Philip  
H. Philbin Jr., 35-year-old stock  
market operator from Denver,  
pleaded not guilty today to an in-  
dictment charging him with con-  
spiracy and using the mails to de-  
fraud.

Bail was fixed at \$30,000 over the  
objections of Philbin's counsel,  
Maurice J. McCarthy, once a candi-  
date for the United States Sen-  
ate from California, who said he  
was appearing at the request of  
Philbin's widowed mother, a resi-  
dent of Los Angeles.

Philbin was arrested yesterday  
by Department of Justice agents  
as he sat in a car on Park avenue.  
He was indicted in 1933 while he  
was abroad. The Government  
charged he used the mails to de-  
fraud investors of Atlas Tack Co.  
of \$600,000.

"Practically Broke," Lawyer Says.  
Philbin, who spent the night in  
the house of detention, wore a  
checkered sports coat, gray trou-  
sers, polka dot tie and carried his  
hat in his hands, which were hand-  
cuffed behind him while he awaited  
arraignment.

Assistant United States District  
Attorney Leo C. Fennelly asked for  
\$50,000 bail. He told the Court Phil-  
bin had been a fugitive for two and  
a half years. He said Philbin had  
lived in exclusive apartments and  
hotels since his return to New York  
from abroad, and had spent money  
freely on a trip around the world  
and had \$1500 in cash when ar-  
rested.

McCarthy insisted Philbin was  
"practically broke."

The indictment named 12 other  
defendants. Five were dismissed  
and a jury disagreed in the cases  
of the other seven. Finally, two  
defendants, William Jarvis and  
Samuel Gaines, were convicted of  
fraud in Boston and sentenced to  
five years' imprisonment.

Philbin began his world tour be-  
fore the indictment. As extradi-  
tion is impossible for mail fraud  
charges, Fennelly bided his time

The Most Successful  
WOOL  
of the Season

Of Stroock's soft Ankara fabric. It's a flattering  
shirtwaist type extraordinary... with fine tucks  
from neckline to hemline. You'll wear it for all  
sorts of everyday occasions... and top it with a  
"chubby" fur jacket and turn up smartly at most  
important luncheon engagements. In oxblood red,  
black and beige. Available in misses' sizes.

Misses' Budget Shop—Third Floor

at reports that Philbin was hunt-  
ing lions in Egypt.

Photographs in society columns  
of newspapers pictured Philbin  
with friends in the foreground of  
the Great Pyramid of Egypt. Later,  
society columns reported him and  
his friends as guests of the Maha-  
rajah of Rajppla on a tiger hunt  
in the jungles of India.

Yesterday Philbin told police he  
returned to this country from Can-  
ada. Federal agents had trailed him  
through England, France, Ireland,  
Belgium, Egypt and India.

He was accused of boosting the  
market value of Atlas Tack stock  
from \$6 to \$34 by manipulation. At  
the time, the indictment charged  
he owned 45,000 shares which he  
sold for a profit of over a half-  
million.

## \$3,096,532 IN BACK TAX BILLS TO BE PUT ON SALE

Collector to Advertise Nov. 1 Offer-  
ing Affecting 5122 Pieces

Delinquent real estate tax bills  
representing \$3,096,532.98 in back  
taxes will be offered for sale on  
Nov. 1 at the east door of the Civil  
Courts Building.

Collector William F. Baumann is  
preparing to advertise the sale of  
bills on 5122 pieces of real estate.  
In some instances the sale will cov-  
er delinquencies for five years un-  
der a ruling of Attorney-General  
McKittick that delinquency satis-  
factions must cover five years  
where taxes have been unpaid that  
long.

Last November Collector Bau-  
mann sold 60 bills for \$3014.96 to  
individuals, and the city bought in  
1082 bills for \$97,889. Property own-  
ers subsequently redeemed 1032 of  
the bills on payment of \$22,037 and  
the city received about 60 per cent  
of the balance from the collector  
as its share of the collections.

In 1935 only five bills were dis-  
posed of at a sale in April for \$185,  
and only four more, for \$447, in  
November.

## NO-TRUE BILL IN AUTO KILLING

Grand Jury Ends Inquiry in Case of Eugene A. Byers.

A no-true bill was voted by the grand jury yesterday after an inquiry in the case of Eugene A. Byers, 3140 Laclede Station road, Webster Groves, driver of an auto-

mobile which killed one woman and seriously injured another at Hampton avenue and Itaska street Aug. 28.

The woman killed with Mrs. Anna Deck, a widow, 3719 Hereford street. Her niece, Mrs. Rose Linnewerth, 5341A Murdoch avenue, suffered a skull injury and compound fracture of the left leg.

## DELINQUENT TAX PAYMENTS ONLY \$45,312 THIS MONTH

Figure Announced by City Collector Compares With \$583,688 in August.

Collection of delinquent general taxes so far this month has fallen off to \$45,312, Collector William F. Baumann announced today.

In August a total of \$583,688.92 was collected and the delinquency amounted to \$4,711,483.97. All penalties were remitted during June and in July and there was remission of 75 per cent in August. Those paying before Nov. 1 will have 50 per cent of the penalties remitted.

Mayor Dickmann has said that unless \$7,000,000 in back taxes is collected to provide the required amount of city revenue for 1937-38, it will be necessary to re-enact four special tax measures placing emergency levies on gasoline, cigarettes, amusements and advertising.

Sportsman Accidentally Killed. CHICAGO, Sept. 22.—Roger Sherman Vail, 54 years old, insurance broker and sportsman, was fatally wounded last night by the accidental discharge of a shotgun in his suburban home. He had gone to the attic to look at his hunting equipment.

## UNION TESTIMONY GIVEN AGAINST PLANT REMOVAL

Union Shop Steward Says She Did Not Know About Move Until 3 Days Before Operations Ceased.

## WORKERS ALLEGE BREACH OF CONTRACT

Witness Says Shieber Millinery Co. Was Treated as Non-Member of Industrial Group.

Testimony that employees of the Shieber Millinery Co. were notified the company planned to move to De Soto, Mo., until several days before operations ceased at the St. Louis factory, 1307 Washington avenue, was heard by Circuit Judge Robert J. Kirkwood today in the injunction suit brought by union employees to restrain the owners from moving the factory.

The suit, filed by five members of Locals 55 and 56, United Hatters, Cap & Millinery Workers' International Union, affiliated with the American Federation of Labor, is based on an alleged breach of contract between the company and the union.

Miss Mary Schulach, union shop steward at the factory, testified she did not learn of the intended move until three days before it actually began. She said she received the information from her foreman. On cross-examination she admitted the factory had operated "open shop." She denied the suggestion of a company attorney that she had been offered a job with the company at De Soto.

Miss Nora Bauman, a machine operator, said she was not informed of the move until several days before it occurred. Miss Bauman and Miss Schulach are plaintiffs in the suit.

A. G. Osterholm, secretary of the Associated Millinery Industries of St. Louis, which signed a group contract with the union last month, identified membership records listing the Shieber firm as a member. He added, without explanation, that the firm had been treated as a non-member for seven months last year.

On cross-examination of Osterholm, company lawyers brought out evidence supporting their contention that the Shieber firm was not a party to the group agreement with the union. Minutes of a meeting of the association of Aug. 14, identified by Osterholm, quoted I. N. Schieber, president of the company, as having stated from the floor that "under no circumstances will I permit you to act for the Shieber Millinery Co. in the matter of pending contracts with the union." Schieber departed immediately after making the statement, the minutes recorded.

Harry Fromkin, an international vice-president of the union, gave testimony intended to show that the company, as a member of the Associated Millinery Industries of St. Louis, had bound itself to a closed shop, group contract which the association signed with the union Aug. 15.

He testified I. N. Schieber was present at conferences for the group contract, and that, on Aug. 23, after the contract had gone into effect, he conferred with Schieber and A. J. Rosenberg, "vice-president of the firm, about the employment of two operators, which he considered did not conform with the contract's provisions. At that time, he said, the company officials did not disclaim being parties to the group contract.

Previous Union Contract. The company management never notified the union that it had withdrawn its membership from the association, Fromkin testified, and had been a party to a previous union shop contract, which expired last July 15.

While the injunction suit was filed on Aug. 29, the company had then already started moving the factory to De Soto, and has completed transfer of its equipment, now only maintaining a salesroom in St. Louis, Ben L. Shiffrin, attorney for the company, said. The company had 50 production employees here.

The employees brought legal action in the form of an injunction suit on the theory that they are parties to the contract, and that an emergency existed in which they would lose their jobs if the company was not restrained from moving its factory to De Soto. They allege in their petition that the contract provided the company should continue operations in St. Louis during the life of the contract.

Employees were told, the petition alleges, that there was no more work for them, as the company was going out of business, and that the production work was stopped at the Washington avenue plant "for the purpose of circumventing provisions of a contract with the union and to secure non-union labor."

Company's Attitude. In demurrers and an answer to the petition, the company contends it had never assented to the group contract with the Associated Millinery Industries, and, since it is not a party to the contract, the employees have no cause of action. The

company also contends that the Court has no jurisdiction. Judge Kirkwood has the demurrers under consideration.

The company also denied that removal of the plant to De Soto was to circumvent the contract but, on the contrary, said plans to move the factory had been made before negotiations for the contract between the millinery association and the union were started.

## OPPOSES WAGE-HOUR BILL

Southern Industrial Council Also For Change in Labor Act.

ATLANTA, Ga., Sept. 22.—Directors of the Southern States Industrial Council adopted resolutions here yesterday opposing the proposed Federal wages and hours bill and asking for amendment of the Labor Relations Act.

The wages and hours bill, it was stated, would "throttle industry, not only in the South, but would adversely affect it throughout the nation." In advocating amendment of the Labor Act, the Council directors suggested that "those who are to exercise the right of collective bargaining be required to incorporate and to assume equally with the employer legal and financial responsibility for any contract arrived at."

# GAS HEAT

## Grows in POPULARITY

Every day more and more people are installing gas heat in their homes. With this ever-increasing use of gas for home heating, complete freedom from all responsibilities of furnace tending is assured: because GAS HEAT brings more leisure, less work.

Not only is GAS convenient and worry-free, but it is also the cleanest fuel. It burns completely... without smoke, soot or ashes... thereby complying 100 per cent with impending anti-smoke legislation.

Enjoy more comfort... better health conditions... greater cleanliness... and genuine economy this coming winter BY INSTALLING GAS HEAT IN YOUR HOME.

No other fuel gives you such complete heating satisfaction, because for every home there is the proper type of gas heating equipment.

LACLEDE'S NEW 10-PAYMENT BUDGET PLAN allows you to plan your fuel expenses for the entire coming winter. Complete information concerning this plan is yours for the asking.

Be sure to attend the NATIONAL HOME SHOW this week at the Municipal Auditorium. Cooking demonstrations held every afternoon on the Main Exhibition Floor at 2 o'clock. Call at our Main Office for free tickets.

### ST. LOUIS POST-DISPATCH

## Convicted of Killing Widow

OSCAR BARTOLINI, 51-year-old former Quincy chef, early today was convicted of murder in the first degree in the killing of Gracey Asquith, Weymouth widow.

The jury reached its verdict after six hours and 57 minutes' deliberation. Under Massachusetts law, conviction of murder in the first degree carries a mandatory death sentence.

The verdict came exactly a year and a day from the date police believe the widow was killed and dismembered in her East Weymouth cottage. The murder was discovered Oct. 3, 1936, when the former model's legs were found floating in Boston harbor wrapped in a burlap bag.

The prosecution sought to prove by its evidence that Bartolini left three footprints in the Asquith bathroom; that he wrapped the head and legs with twine, burlap and window shade material taken from a curtain shop over which he roomed; that he killed Mrs. Asquith because of infatuation.

Bartolini's defense was that he was with friends or asleep in his room the day of the crime.

Former Massachusetts Chief Convicted of Killing Woman, Who Was Dismembered.

OSCAR BARTOLINI, 51-year-old former Quincy chef, early today was convicted of murder in the first degree in the killing of Gracey Asquith, Weymouth widow.

### GETS DEATH PENALTY FOR WIDOW'S MURDER

Former Massachusetts Chief Convicted of Killing Woman, Who Was Dismembered.

By the Associated Press.

DEDDHAM, Mass., Sept. 22.—Oscar Bartolini, 51-year-old former Quincy chef, early today was convicted of murder in the first degree in the killing of Gracey Asquith, Weymouth widow.

The jury reached its verdict after six hours and 57 minutes' deliberation. Under Massachusetts law, conviction of murder in the first degree carries a mandatory death sentence.

The verdict came exactly a year and a day from the date police believe the widow was killed and dismembered in her East Weymouth cottage. The murder was discovered Oct. 3, 1936, when the former model's legs were found floating in Boston harbor wrapped in a burlap bag.

The prosecution sought to prove by its evidence that Bartolini left three footprints in the Asquith bathroom; that he wrapped the head and legs with twine, burlap and window shade material taken from a curtain shop over which he roomed; that he killed Mrs. Asquith because of infatuation.

Bartolini's defense was that he was with friends or asleep in his room the day of the crime.

### LIQUOR OFFICIALS TO RETURN EXPENSE FUND TO DISTILLERS

Action Follows Controversy Over Accepting Money for Conference of Administrators.

By the Associated Press.

NEW YORK, Sept. 22.—The executive committee of the National Conference of State Liquor Administrators voted in a closed session yesterday, members of the conference said, to return to the Distilled Spirits Institute \$5000 donated to help pay expenses of the conference convention at Mackinac Island, Mich., last July.

The committee made no statement after its meeting, but leaders of the national conference said it had been decided to return the money because of the controversy over the propriety of permitting distillers to help defray expenses of the convention.

William P. Hayes, chairman of the Alcoholic Beverage Control Commission of Massachusetts and head of the national conference had denied that the distillers' organization had paid the money, and said they merely offered it. However, George Eppley of Columbus, O., retired president of the conference, said the Distilled Spirits Institute had helped finance the Michigan convention.

### ADMITS SHOOTING MAN, WIFE

Springfield (Ill.) Prisoner Says Firing Followed Dispute Over Union.

By the Associated Press.

SPRINGFIELD, Ill., Sept. 22.—Andrew Skrelevis, 48 years old, who was arrested by police after a 10-mile chase, has admitted shooting Andrew Susinskas, 46, and his wife, Della, 36, at their home yesterday, it was announced by the State's Attorney's office last night.

Susinskas, suffering from a chest wound, was placed in an oxygen tent. Mrs. Susinskas was shot in the left shoulder. Several shots were fired by police at Skrelevis' automobile before it upset on entering a dirt road five miles east of here. Skrelevis said the shooting followed a dispute with Mrs. Susinskas over his leaving the Progressive Miners to join the United Mine Workers.

### BRECKENRIDGE (MO.) PASTOR STANDS BY SIT-DOWN THREAT

Family Will Remain in Parsonage Until Rent Equals Salary Due, He Says.

By the Associated Press.

BRECKENRIDGE, Mo., Sept. 22.—This city's threatened ecclesiastical sitdown reached the watchful waiting stage today—the Rev. Patrick Job Allwell's family doing the waiting, his congregation the watching.

The Rev. Mr. Allwell met with his Methodist Episcopal congregation last night, but the conference made little headway toward producing the \$252 the pastor says he has coming in back salary. He announced Sunday from the pulpit that unless the money was produced his wife and two daughters would start a sitdown in the parsonage and live out the \$252 in rent, and that he would go to another pastorate.

The meeting last night—a basket supper, soprano solo and cornet duet affair—was called chiefly for a report by the church stewards. The report, however, was not ready. Mrs. George Dale, one of the stewards, said it might be finished today but feared the deficit would be about \$155 to \$160.

The pastor went to Kansas City today for a church meeting. His family stayed at the parsonage—just watching developments.

# America buys ECONOMICAL GENERAL ELECTRIC GAS HEATING AND AIR CONDITIONING EQUIPMENT

You, like satisfied users all over the country, will find a G-E Gas Furnace truly economical. It is designed and built to burn gas exclusively. On top of this it offers many improvements that are exclusively G-E. You get MORE heat with LESS fuel. And there is seldom, if ever, any "extra" cost. Your gas company supplies the fuel; you pay for it as used. That's all!

In the meantime you wake up in a warm room; live all day in controlled, even, healthy temperature. Your home stays cleaner, fresher and brighter because there is nothing to dim the beauty of draperies and upholstery; no dust in rugs or on floors.

Every type of home and income can have its G-E Gas Furnace. You have your choice of steam, vapor, hot water heat or complete winter air conditioning. You have, too, that sense of security and dependability which comes with every product that bears the G-E name. So get the facts today. Find out how truly little it costs to sit back and enjoy the ease and comfort of silent, automatic, dependable, General Electric Gas Heat.

### What Home Owners Say of G-E Automatic Heat

"Cut my fuel bill in half."  
"\$85.00 heats six room house."  
"No more getting up at Six A.M."  
"Automatic, care-free heating service."  
"No more hard work for wife."  
"We won't worry when winter comes."  
"Best investment I ever made."  
"The most economical heating unit."

### FREE LITERATURE FREE ADVICE

Get in touch with your General Electric distributor. He is a heating and air conditioning specialist. He will gladly make a survey of your home, without cost or obligation, and will advise the type of unit best suited to your needs. Phone or call today, or write for free literature.

While it is still too early for a final conclusion, results of a study at St. Louis University School of Medicine indicate quite clearly that some degree of protection is afforded against the virus of sleeping sickness by the blood serum of an individual who had the disease in 1933. Dr. G. O. Broun, professor of medicine, told the St. Louis Medical Society last night at a meeting at 3339 Lindell boulevard.

It would therefore appear that a rational basis has been provided for the use of transfusions of blood of individuals who have recovered from the disease in the 1933 epidemic in the treatment of the present outbreak, he declared, adding, "It is, of course, impossible to state whether therapy of this type will be effective."

In discussion which followed the reading of Dr. Broun's paper, Dr. Edwin Schisler pointed out that none of the patients successfully treated for encephalitis in 1933 at Deaconess Hospital contracted the disease again this year. He said the hospital had 33 cases in the first epidemic and that six died. Of the 27 who recovered none has had the disease this summer.

Replying to a question from a physician in the audience on how the disease is transmitted, Dr. Broun explained the only evidence thus far has been obtained from mice. The virus, or causative agent of the disease, takes effect when implanted in the nose and throat of a mouse, leading to the belief that human beings get it through the same portals. Injecting the virus under the skin of mice, he said, does not produce the disease.

The infectivity of encephalitis is probably low, since doctors and nurses who were constantly exposed seldom acquired the disease, Dr. Broun continued. Although the 1933 epidemic ended with the start of cold weather and the present outbreak is expected to do the same, "we should be prepared for future outbreaks," he warned.

Describing the experiments at St. Louis University conducted by himself, Dr. John Gruetter, Dr. R. O. Muether and Dr. Albert E. Casey, Dr. Broun said:

"On Aug. 28 we secured brain material from two cases clinically diagnosed as encephalitis at St. Mary's Hospital. This was immediately inoculated intracerebrally in mice. Culture of this brain material was sterile."

"Nine days later one of the mice inoculated with material from one of these cases became ill and died on Sept. 6. The brain of this mouse was emulsified and injected in dilutions into other mice."

"Between the fifth and the eighth day after the injection, all mice inoculated with this mouse brain material became ill with symptoms typical of the encephalitis which was produced by the 1933 virus. These symptoms are ruffled fur, disinclination to eat, muscular tremors, muscular spasticity, local and general convulsions, coma and death. All mice eventually died or were killed when moribund to prevent bacterial contamination of the brain tissues."

Same Type as in 1933.

The St. Louis University study, like that at Washington University, indicated encephalitis now present and that of 1933 were identical.

Dr. Casey pointed out that persons who had the disease four years ago have antibodies in their blood which neutralize the virus, but it is not known yet when the antibodies are developed in the body.

After discussion of the St. Louis University study, Dr. Curtis Lohr, president of the Medical Society, said the school deserved to be complimented for a fine work.

Dr. Casey pointed out that persons who had the disease four years ago have antibodies in their blood which neutralize the virus, but it is not known yet when the antibodies are developed in the body.

After discussion of the St. Louis University study, Dr. Curtis Lohr, president of the Medical Society, said the school deserved to be complimented for a fine work.

Speaking on "Cured Diabetes," Dr. B. Y. Glasberg, an assistant in clinical medicine at Washington University, said the disease was more frequently found in brain workers than in laborers, but it has never been made clear just why this is so.

In St. Louis there are between 6000 and 8000 diabetics and in the metropolitan area between 30,000 and 40,000 persons will probably develop the disease before they die, he asserted. "These figures illustrate why diabetes has climbed from twenty-seventh place as a cause of death in 1900 to ninth place in 1934," he continued.

"It may make it easy to believe that in Illinois diabetes was actually responsible for more deaths in 1935 than was tuberculosis, hitherto regarded as the Captain of the Men of Death. The development of modern dietary regimes and more especially the introduction of insulin has prolonged the life of the diabetic to the point at which the patient who is faithful in following his diet and in taking his insulin may live just as long, possibly even longer than the non-diabetic."

"Strangely enough, and in contrast to the attitude prevailing toward most of the common diseases, physicians generally are of the opinion that diabetes is never cured. This belief has almost become axiomatic in the expression, 'once a diabetic, always a diabetic.'"

Cure Thought Possible.

"Certain experiences of the past few years lead me to the belief that this is not necessarily so. I believe that in a few cases cure of diabetes is possible." He then outlined case histories of five patients which led him to that conclusion.

Regardless of the interpretation that may be placed on the case histories, he asserted, they re-emphasized the tremendous importance of weight reduction in mitigating the severity of diabetes.

Sulfanilamide, a recently-developed drug which has been used successfully in treating many types of streptococcal infections, seemingly has come to stay, Dr. Hollis Allen declared. Although remarkable results have been obtained through its use, there are accompanying unfavorable results in many instances, he warned.

The Medical Society endorsed a health exposition to be given the last week of October to call attention to the work of the United Charities agencies. Dr. Lohr asserted it would be an unusual opportunity for the medical profession to demonstrate how money given to United Charities is being spent.

tional cases of encephalitis were reported today in the city and county. Deaths since June 30 now total 60. In the city 285 cases have been reported and in the county 106. Another case was reported today in East St. Louis, making the total there four.

Jerry Babbitt, 80 years old, 1001 Cornell avenue, Webster Groves, died early yesterday at Isolation Hospital. Mrs. Elizabeth Christophel, 78, died Sunday at her home, 4011 Dryden avenue. The death yesterday afternoon of C. T. Morrison, salesman for a wholesale grocery company, was reported in late editions of the Post-Dispatch. He was 54, and lived at 831 Newport avenue, Webster Groves.

## ALLEGED EMBEZZLER RETURNED ON WARRANT

Samuel Farro Says He Took \$300—Tells of Row in Company.

Samuel Farro, former president of International Appliance, Inc., manufacturers of spray gun equipment at 4616 Hanover avenue, was returned to St. Louis today from Oklahoma City, where he was arrested last week on complaint of other company officers that he had disappeared with \$1500 of the company's funds.

In a talk with a Post-Dispatch reporter at Police Headquarters, Farro admitted he had told his associates he was going to Washington to attend to patents, but had gone to Oklahoma City instead, taking some of the company's money with him. He said the amount was not more than \$300 or \$400, however, and added he had left behind patent rights in which he held personal ownership and \$10,000 worth of machinery for use by the company.

Tells of Dissension.

Farro outlined the history of his company from the time it was founded a year ago, based on a spray gun patent which he believed "worth \$1,000,000 if you had the money to put it over," to recent months, when, he said, dissension among the officers made him "amused" that he wanted to leave the whole thing behind.

The trouble started, he said, when a member of the firm who was supposed to have \$500 of the company's funds, was found to have only \$1. After that he became distrustful of his associates, he related, and they also became suspicious of him, to the point where they would follow him if he walked to a drug store. This situation, along with poor health, and the fact his wife was ill in a sanatorium, led him to plan to leave International Appliance, Inc., to its own resources. He had formerly lived in Oklahoma City, he said, so he went there to start over.

Part of the money he took along, he stated, was collected for spray guns his firm had manufactured in its one and a half story frame plant, at the unproved dead end of Hanover avenue. His patent applied to spray guns of all types, from painting to use with fruit tree insecticides, he said, and utilized a principle whereby hand power could be used to generate compressed air to operate the gun. He also held 13 other patents, not used in the Hanover avenue venture, he said, for such devices as a mechanical fan which runs eight "ours without winding and a new type of ice cream freezer. He is 37 years old and described himself as a mechanic.

## GOODYEAR MAN TELLS OF QUITTING UNION

Testifies U R W A Once  
Sought Akron Wage Scale  
for Gadsden, Ala.

By the Associated Press.

GADSDEN, Ala., Sept. 22.—Horace Lowery, pipefitter for the Goodyear Tire & Rubber Co., told the National Labor Relations Board today the United Rubber Workers of America once sought wages in the Gadsden plant equal to those in Akron, but a local union to which he now belongs had no such objective.

Under cross-examination by Yelverton Cowherd, CIO regional di-

rector and union attorney, Lowery said the Etowah Rubber Workers' Association was "an organization to take up grievances if we are not satisfied." The U R W A contends the Etowah is "company dominated."

Lowery said he quit the U R W A after eight months "when I saw it wasn't accomplishing anything." When he joined the U R W A, he said, "we were told Akron would help us with our wage scale and we could get what Akron is paying."

Lowery testified yesterday a rumor "that some fellows from Akron were coming to close the plant down" was responsible for the storming of union headquarters by a mob here in June, 1936.

Lowery said he was one of the group which attacked S. H. Dalrymple, international president of the U R W A, on June 6, 1936, after Dalrymple had begun a speech in the County Court House.

None of the Goodyear executives knew of the Dalrymple affair or of the mob action against the union organizers, Lowery said.

## YANKEES

BROWNS LOSE BOTH ENDS OF TWIN BILL, 4-1 AND 11-0

By a Special Correspondent of the Post-Dispatch.

NEW YORK, Sept. 22.—The Yankees assured themselves of at least a tie for the American League pennant by taking both ends of a doubleheader from the Browns here this afternoon.

Even if the New Yorkers should lose all their remaining games and Detroit win its remaining contests, the teams would end the season tied for first place.

The score of the opener was 4 to 1 and the nightcap, 11 to 0.

The defeats were the 100th and 101st of the season for the Browns.

Eliot Hogsett for the Browns and Kemp Wicker for the Yankees were the starting pitchers in the second game.

In the second game the Yankees scored three runs in the second, two in the third and knocked out Hogsett with a six-run rally in the fourth that included a home run by Powell with a man on base. Bonetti replaced Hogsett on the hill for the Browns and he, in turn, was replaced by Bidill at the start of the sixth.

Although they made only three hits, the Yankees had little trouble taking the first game.

Monte Pearson pitched for the New Yorkers and turned in his second success in as many starts to increase evidence that he will be ready for a world series assignment. He allowed seven hits and the only run scored by the Browns was due to an error by Tony Lazzeri.

Jack Knott, who started for the Browns, was lifted for a pinch hitter in the eighth. The Yanks made their three hits and all of their runs off him. In the sixth they broke a 1-to-1 tie by sending three tallies over the plate, two of which came when Lazzeri hit his thirteenth home run of the season with Myril Hoag on the base paths.

The attendance was about 12,000.

## BOTTOMLEY TO RETURN HOME; MANAGER SICK, DE WITT SAYS

NEW YORK, Sept. 22.—Follow-

ing a conference with William O.

DeWitt, vice-president of the

Browns, Manager Jim Bottomley

today made arrangements to re-

turn to St. Louis and will arrive

there tomorrow.

DeWitt, however, explained the

announcement that Bottomley had

applied for the post as manager

of the National League Reds had

nothing to do with Sunny Jim's

unexpected return to St. Louis.

"When I came here yesterday I

found that Bottomley was suffer-

ing from intestinal flu and advised

him to return home for treatment,"

said DeWitt. "That is what he is

going to do. As to Bottomley's re-

tention as manager of the Browns

for next season I can't discuss that

at this time. But if Jim does not

want to stay with us and has a

chance to be made manager of the

Reds we will not stand in his way.

He has been suffering from the flu

ever since the present Eastern trip

started and it is best that he re-

turn home for treatment."

During Bottomley's absence the

Browns will play under the man-

agement of Gabby Street, who, ac-

cording to rumors, may become

Sunny Jim's successor as manager

for 1935.

Bottomley, reached at his hotel,

confirmed DeWitt's statement that

he was returning to St. Louis, but

was not quite as definite as to the

nature of his illness.

"I don't know whether it's intes-

tinal flu or not," said Sunny Jim.

"All I know is I've been sick for

four days, haven't been able to eat,

and haven't been on the field since

we were in Washington."

"When get back to St. Louis,

I'll get hold of a doctor to fix me

up, and in any case, I'm planning

to be back with the boys when they

wind up their series with the White

Sox in Chicago this week-end. I

sure have hated to leave the club,

but there's not much I can do about

it until I get better."

**York's Homer**

**Delays Yankees**

**In Ending Race**

By the Associated Press.

BOSTON, Sept. 22.—Rudy York's

thirty-third home run of the season,

made off Newsum and with two

men on, this afternoon, provided the

margin by which Detroit beat the

Red Sox, 6 to 4. It was Tommy

Bridges' fifteenth win this year.

By winning, Detroit kept the New

York Yankees from clinching the

American League pennant.

## PEPPER MARTIN PLAYS CENTER FIELD, LEADS BATTING ORDER

By J. Roy Stockton.

SPORTSMAN'S PARK, Sept. 22.—

Manager Frankie Frisch shook up

his batting order and returned Pep-

per Martin to duty in center field

in the Cardinals' third game of the

series with the Brooklyn Dodgers

this afternoon. Pepper batted in

the lead-off position, with Bordagary

battling second and Jimmy

Brown seventh.

It was another Ladies' day but

the women apparently didn't believe

it, fewer than 500 attending. The

paid attendance was about 1000.

Fred Fitzsimmons was the Brook-

lyn pitcher and St. Johnson hurled

for the Redbirds.

Klem, Barr and Parker were the

umpires.

The game:

**FIRST INNING—DODGERS**—

Connelley singled to left. Bucher

forced Connelley, Jimmy Brown to

Gutteridge. Hassett flied to Pepper

Martin. Bucher stole second.

Phelps was intentionally passed.

Haas beat out a hit to Bordagary.

Hilling the bases. Jimmy Brown

threw out Polly.

**CARDINALS**—Pepper Martin

beat out a grounder to Lyndsay

Brown. Bordagary fouled to Has-

sett. Mize lined to Polly. Medwick

lined to St. Johnson.

**SECOND—DODGERS**—Jimmy

Brown threw out Clarif. Lyndsay

Brown struck out Padgett. Fitzsim-

mons grounded to Gutteridge.

**CARDINALS**—Lyndsay Brown

threw out Padgett. Gutteridge beat

out a grounder to Polly. Jimmy

Brown hit to Lyndsay Brown, who

stepped on second and threw to

Haasett for a double play.

**THIRD—DODGERS**—Connelley

walked. Bucher sacrificed. Bordagary

to Mize. Gutteridge threw out

Hassett. Connelley moving to

third. Phelps again was passed in-

entionally. Johnson threw out

Haas.

**CARDINALS**—Ogrodowski lined

to Connelley. Bucher threw out John-

son. Pepper Martin flied to Connelley.

**FOURTH—DODGERS**—Polly

flied to Padgett. Clarif was safe

on Johnson's fumble. Lyndsay

Brown struck out. Fitzsimmons

singled to left, sending Connelley

to third. Connelley flied to Pad-

gett.

# BEITING IS EVEN ON OUTCOME OF AMBERS-MONTANEZ BOUT WAR ADMIRAL

## ESCOBAR, ROSS AND APOSTOLI FAVORITES IN OTHER BATTLES

"Carnival of Champions" In New York Tomorrow Night Might Outdraw Louis-Farr Attraction.

By the Associated Press.  
NEW YORK, Sept. 22.—The bout that's going to pack the biggest share of about \$50,000 worth of customers into the Polo Grounds for the carnival of champions tomorrow night appears to be the one between Lightweight Champion Lou Ambers and Nedo Montanez, the gay Puerto Rican.  
That, at least, is the fight they all are talking about today, and it is the only one of the three and one-half championship bouts on the program that is getting an important play from the gamblers. Promoter Mike Jacobs has dropped it in the "top" spot of the evening, the third act.  
Expectations are it will be a real rough-house for 15 rounds if it lasts that long. In their previous 10-round over-weight battle at the Garden, Montanez had the champion on the floor in an early round, but Ambers came back to plaster Pedro toward the last, and there are those who think he would have won in 16 rounds.  
If you want to bet on either Pedro or Lou, you have to lay the odds with Jack Doyle, the Broadway commissioner. Five dollars will win you four, and you take your choice. In other words, Doyle considers it a dead-level proposition and doesn't really want to do much wagering.  
On Doyle's books, Fred Apostoli is favored to trim Marcel Thil, European middleweight, in the night's first feature while Barney Ross is Doyle's choice in the second duel over Challenger Cefterino Garcia from the Philippines.  
Doyle's money also says that Sixto Escobar still will be bantamweight king when he and Harry Jeffra of Baltimore wind up the show.  
To get back to the star turn, Montanez's handlers say their slugger is going to show the crowd "his real self" again tomorrow night. They assert with gravity that Pedro twisted an ankle so badly three weeks before his bout with Lou last spring that he didn't get back to training until four days before the bell. That, they explain, was why he played out in the closing rounds.  
All eight of the lads who are due to split up a reported \$100,000 of Mike Jacobs' money will be paraded into the Boxing Commission basement at noon tomorrow to see whether they have made the prescribed weights. If any of them hasn't, there will be some fun, and not so many to the Legionnaires have finished parading and are looking for a place to sit down.

## MRS. MOODY IS OUT OF COAST TENNIS EVENT

By the Associated Press.  
LOS ANGELES, Sept. 22.—Helen Wills Moody's comeback on the tennis court was indefinitely postponed today when her mixed doubles partner, Germany's Baron Gottfried von Cramm, withdrew from that event.  
Mrs. Moody, but recently divorced, was entered in only that division of the Pacific Southwest tournament.  
Von Cramm, officials announced, would concentrate on the singles and men's doubles.  
Don Budge led America's surviving singles contender into the quarterfinal round today.  
Flanked by four other United States contenders, the Californian was due to meet—and win—his mixed doubles partner, Germany's Baron Gottfried von Cramm, in the quarterfinal round today.  
In the other featured men's singles encounter, Von Cramm drew worthy opposition in Francis X. Shields, former United States Davis Cup star, now a Hollywood actor.  
The sole remaining Briton was lanky Charles Hare, who faces Los Angeles' Joe Hunt next. Hare's countrymen, as well as all English women, have been eliminated.  
The women's singles found Senora Anita Laziana of Chile as the only foreign threat. Tomorrow she plays Mrs. John Van Ryn of Australia in a quarterfinal match.  
The biggest casualty yesterday was the right ankle of a German. He tripped on his racket and twisted his right ankle during a struggle with Gene Mako of California. Leading 6-5 in the first set, he was forced to default. Carried from the court to a hospital, he was obviously painfully injured.

## Coach Conzelman Rates Speed Most Important Attribute of Present-Day Football Player

By Jimmy Conzelman  
Head Football Coach, Washington University.  
A nest of Monday morning quarterbacks were discussing the other day what characteristics would be most desirable in a candidate for a football team. Size, power, ball-handling ability and coordination were suggested, but the majority decided that the desire to play the game was the important attribute a football man could have. No one in the group mentioned speed.  
Now there is no doubt that a 200-pound player is something pleasant to have around a gridiron. Size is important but only when the young fellow who has it also is able to move around. Unless he has the speed of foot to tackle in the open field, and charge fast when he makes a block there isn't a place for him on any good team in the country. A smaller man who can do these things will handle him with ease.  
Speed and Power.  
Power is somewhat different. Power suggests speed but doesn't always have it, and on a football field it can be brought to the earth by a tackle or a block well beneath the center of gravity which is somewhere around the knees. When speed accompanies power you have something like Bronco Nagurski or Widsith who played last year on Minnesota's line.  
Handling a ball is certainly important but almost every player who has worked out with a football learns to control it as it comes to him. At least if he's a backfield man, he does, for there isn't a pressing need for a lineman, other than an end, to show dexterity in that department. The best ball handler in the world would be of little value to a team if he lacked speed after he got hold of it.  
Many football men with the finest muscular co-ordination fail to lead the team. Every squad will have several players who look as if they should be potential stars. They are adept at catching passes and will be weak on defense or they may have an excellent running form but no drive in line play. No co-ordination, while important, doesn't always mean football success.  
On any football field it would be hard to find a candidate without the desire to play. It is practically certain that a player would not report for practice if he didn't enjoy the body contact that the game requires. Yet, he might have the most consuming desire to get into the game and still be valueless to his coach. The country is full of fans who would give a lot to be able to step into a football line-up. The desire to play is there but the ability is lacking. Any coach could place a great team on the field if this was the most important characteristic of his candidates, for every squad has enough men out for football with a burning ambition to make the team.  
I believe that every coach will agree that if you had 35 players

## HAMILTON MEN, RICE-STIX GIRLS WIN SOFTBALL TOURNAMENT TITLES

The Rice-Stix girls and the Hamilton-Brown men's softball teams won national championships in the American Softball Association's tournament concluded last night by scoring their second straight victories of the title series. The Rice-Stix team blanked the Grandmas of Maplewood Park for the second time, 4-0, after winning the opening contest, 10-0, while the Hamilton-Brown squad beat the Independents, South Side Park, 10-4, after winning Monday's game, 5-2.  
Dorothy Schlirmer hurled for the South Side Park team and allowed but two hits.  
The Hamilton-Browns, Maplewood Park, who also won the city championship recently, had Don Axtell pitching and while he was reached for eight hits, the heavy attack of his teammates carried him through. George Hager, batting hero of the first game, came through again last night. Hager hit a single and a home run.  
The season is now ended at South and North Side parks, but several of the other parks still have park championships to decide.  
Officials Elected.  
D. R. Blodgett, Edwardsville, was elected president of the Southwest Illinois High School Conference last night. Lawson Fletcher, Collinsville, vice president; J. F. Snodgrass, Collinsville, re-elected secretary-treasurer, and Lawrence McCauley, Granite City, statistician, were other officers elected. Elected to the executive board were: Ray Jackson, Alton; Fred Friedl, Belleville; P. A. Grigby, Granite City; and J. B. Ogg, Madison. The next meeting will be Dec. 7 at Granite City.

## COURTNEY'S COLUMN

Another Ding-Dong Finish.  
THE American League may have produced more power house baseball clubs than its senior rival, in the last 15 years, but for ding-dong finishes and heart-breaking September drives, we'll take the National League for ours.  
Many of the American League struggles have had the fans humming during the final month of the race. The winner in such cases was apparent; interest flagged. But year after year the National League has produced a battle between two teams from two to four clubs, right down to the last week.  
Today the Cubs are hanging on grimly as the goal is in sight, and the Giants are battling to hold their scant lead. Had not injuries wrecked the Cardinal club, it, too, would be up there shouldering the leaders out of the way in the final pennant shove.  
Bill Brandt, publicity director for the National League, reveals in his weekly news release that in the last 28 years 14 of the National League races have been decided in the final week of the campaign.  
Since 1922 the winner and the runner-up in the National have been separated twice by a margin of only one and one-half games; four times the margin of difference was only two games; three times the leaders were only four games apart, and twice five games separated them.  
Some Amazing Finishes.  
THE National League also has provided some of the major surprises of the baseball world, in some of its final struggles. In the American League mightily tanks like the Yankees crush all opposition and roll on to fore-ordained successes.  
But in the National League you seldom can tell when underdog is going to start snapping at the heels of the leaders. You have the most astonishing finish of recent years was that of 1934 when the Cardinals, some eight games behind the leaders, as late as the first week in September, overcame this handicap and won the pennant—and incidentally, the world championship.  
In a way that was an even greater feat than the one achieved by the Boston Braves of 1914 when the famous trio of pitchers, Tyler, Rudolph and James, twirled the team from last place in the race, in mid-July, into a league pennant and world championship in October.  
The Boston team was only 12 games behind while still in last place and had three months to do their stuff. The Cardinals had only three weeks to overtake an eight-game deficit.

## JENKINS STOPS WITH LONG LIST OF AUTO RECORDS

By the Associated Press.  
BONNEVILLE SALT FLATS, Mich., Sept. 22.—Speedster Ab Jenkins added a new 24-hour speed record to his already impressive list of accomplishment today, but pulled up abruptly in his quest for a new 48-hour mark.  
After maintaining an average speed of 137.27 miles per hour, 3.50 miles an hour better than his former record, Jenkins halted his "Mormon Meteor" and declared the salt track "too broken" to continue his run.  
Two accidents, one resulting in a minor injury, and continued adverse weather conditions were overcome by the Utah speed driver in breaking a number of records. Among the major marks achieved were:  
12-hour run, 160 miles and hour; 3000 kilometers, 1614 miles an hour; 2000 miles, 160.07 miles an hour. Most of the marks he shattered were the ones he himself established here last year.  
Other marks set on the present run:  
500 kilometers, 172.82; old record, 167.11.  
500 miles, 170.77; old record, 168.44.  
1000 kilometers, 171.52; old record, 166.65.  
1000 miles, 168.06; old record, 165.73.  
2000 kilometers, 162.93; old record, 168.48.  
Six hours, 168.09; old record, 165.72.  
FARR OFFERED \$20,000 TO FIGHT ADAMICK  
By the Associated Press.  
DETROIT, Sept. 22.—Promoter Jack Kearns said he has offered Tommy Farr, the Welshman, \$20,000 to fight young Jimmy Adamick, Midland (Mich.) heavyweight, here in October on early November.  
Kearns said the offer was made to Babe Culnan of Newark, N. J., who he explained, obtained half of Farr's contract from Ted Broadbent after Farr's fight with champion Joe Louis in New York.

## GREENTREE AND WESTBURY PLAY FOR POLO TITLE

By the Associated Press.  
NEW YORK, Sept. 22.—The Greentree polo team will bid again for the national championship today against Old Westbury at International Field, Westbury, with the same quartet which carried it to the championship in 1935 and 1936. If Greentree wins, it will be the first team to take three straight titles.  
Both teams won to the finals with potent attacks and fans expect high scoring in the contest postponed from Sunday by rain.  
Greentree will play Pete Botwinick at No. 1, Gerald Baiding at No. 2, Tommy Hitchcock at No. 3 and Jock Whitney at back. Old Westbury, with two members of last year's American team which defeated England in London, has an equally impressive array. The internationalists are Mike Phipps at No. 1, Stewart Iglehart at No. 2, Cecil Smith, the brilliant Texas at No. 3 and Sonny Whitney, like his cousin, at back.  
Iglehart and Hitchcock are the game's best offensive threats. They are the world's only 10-goal players. Hitchcock, of Boston Sound, owned by C. E. Davidson; Sir Midas and Black Sleever, from the stable of W. C. Reichert; A. B. Rorn's Redress, Frank Barton's Miss Saxon; Conrad Mann, named by Mrs. Al Horton; Ethel K. West, Bel Esprit, and Prince Torch and Veaks, the entry of Frank Abbate.

## TRAINER SAYS COLT MAY RUN IF CONDITIONS ARE SUITABLE

Conway Wants to See Derby Winner in Another Workout Before Making A Final Decision.  
By the Associated Press.  
HAYRE DE GRACE, Md., Sept. 22.—Good weather and track conditions here Saturday may bring War Admiral back to the racing front.  
The three-year-old champion, off the track for three and a half months since he won the Belmont in June, may start here Saturday in the \$10,000 added Potomac if conditions are good, Trainer George Conway said.  
War, the Preakeense and the Belmont this year, was assigned 130 pounds for the mile and a sixteenth. That is the top impost, eight pounds more than that assigned to J. H. Whitney's Flying Scot, which is to carry the second heaviest burden.  
However, it is eight pounds less than War Admiral's sire, Man O' War, carried when he won the Potomac 27 years ago.  
"The weight seems to me to be fair," Conway said. "And War Admiral may start. 'Still, I want to see him work out at least once before deciding definitely."

## WRESTLING RESULTS

NEW YORK.—Jesse James, 191, bodyweight, 235 lbs., defeated Billy Roberts, 190, 235 lbs., 2:15.  
NEW YORK.—Steve (Crusher) Conner, 235, Ireland, pinned Jack Marshall, 215, 235 lbs., 2:15.  
NEW HAVEN, Conn.—Dynamite Al Cox, 224, Kansas City, defeated Jack Kennedy, 217, Texas, two or three falls.  
LINCOLN, Neb.—John Frank, Evanson, 205, defeated George Sauer, Lincoln, two straight falls.  
INDIANAPOLIS, Ind.—Chet Chevrolet, 227, 235 lbs., defeated Al Butler, 225, 235 lbs., 2:15.  
SAN FRANCISCO.—Gus Sonnenberg, 210, New York, drew with Sander Szabo, 210, Hungary (30-minute time limit).

WAR ADMIRAL ASSIGNED 130 POUNDS FOR POTOMAC STAKE

TRAINER SAYS COLT MAY RUN IF CONDITIONS ARE SUITABLE

Conway Wants to See Derby Winner in Another Workout Before Making A Final Decision.

By the Associated Press. HAYDE DE GRACE, Md., Sept. 22.—Good weather and track conditions here Saturday may bring War Admiral back to the racing front.

The three-year-old champion, off the track for three and a half months since he won the Belmont Stakes, may start here Saturday in the \$10,000 added Potomac if conditions are good, Trainer George Conway said.

War Admiral, winner of the Derby, Preakness and the Belmont Stakes, was assigned 130 pounds for the mile and a sixteenth Potomac. That is top impost, eight pounds more than that assigned to J. H. Whitney's Flying Scot, which is to carry the second heaviest burden.

However, it is eight pounds less than War Admiral's sire, Man O' War, carried when he won the Potomac 11 years ago.

Conway said, "and War Admiral may start. Still, I want to see him work out at least once more before deciding definitely."

11 Entered in Stake. By the Associated Press. CHICAGO, Sept. 22.—A field of 11 thoroughbreds has been named for Illinois' private horse race, the \$500,000 added Illinois Owners Handicap, Saturday at Hawthorne.

The prospective lineup includes Our Count and Boston Scout, owned by C. E. Davidson; Sir Midas and Black Slave, from the stable of W. C. Reichert; A. B. Bort's Address, Frank Barton's Miss Saxon; Conrad Mann, named by Mrs. Al Horton; Ethel K. Wells, Bel Export, and Prince Torch and Yoke, the entry of Frank Abbate.

Tiger Back in Limelight. By the Associated Press. NEW YORK, Sept. 22.—Tiger, chief horse of Mrs. Ethel V. Mars, spotted stable, in the Futurity, moved back into a ranking position yesterday with an impressive triumph in the Dunboyne Purse at Belmont Park. The son of Bull Dog went the six furlongs of the Widener straightaway in 1:14.4, under 125 pounds to whip John Hay Whitney's Pumpkin with Great Union third.

Mrs. Mars' colt's victory took the key away from the feature race, the thirty-fifth Manhattan Handicap, a mile and a half, which was won by A. H. Waterman's Count Stone under 104 pounds. Count Stone took the event in a photo finish over William Ziegler's Mare Express.

Tiger's fine showing compensates Mrs. Mars for the loss of Sky Lark, destroyed on the track at Belmont after breaking a leg in the Champagne Stakes.

Sports Briefs The fall picnic of Lindenwood College will be held this afternoon at the St. Charles Country Club. The feature will be a baseball game between two student teams. Table tennis, croquet and golf matches will also be held as well as a horse-back riding exhibition.

Five matches are scheduled tonight for the raffle program at St. Paul Social Center, East St. Louis. Ed Pope, 165, meets Emilio Piro, 167, in the feature, and Les Satter, 160, opposes Otto Holtz, 160, in the other finish match.

Algonquin Country Club held an apparently unbeatable lead in the women's District Golf Association tournament-play championship following yesterday's matches with point total of 202½ to 175 for Westwood. The maximum number of points that can be scored in one round is 44. Algonquin defeated Newwood, 25½-8½, in the first round. Mrs. G. A. Bedell, Mrs. C. P. Daniel and Mrs. C. A. Walter representing the club. Westwood, representing the club. Westwood defeated Triple A, 22½-18½, in her last match.

Conzelman Undecided About His Lineup for Drake; Billikens Ready

By James M. Gould. There is considerable difference in the pre-opening game feeling at the local universities as the football squads of each complete their preparation for Friday night contests. At St. Louis U., everything is lovely, in a manner of speaking. The Billikens certainly expect no difficult opposition from James Milliken at Walsh Stadium. But, at Washington, scheduled with Drake at Des Moines, the gloom is so thick it could be cut with any old blunt instrument.

Head Coach Conzelman will take a squad of 30 or 31 to Des Moines. Jack Jones, a big tackle—and how the Bears do need tackles—is No. 31, but it is very doubtful if he will make the trip. Bill Perfection, a regular halfback last year, definitely is out with a bad foot and Jones Klein's bruised hip may keep him home.

As a rule, Jimmy Conzelman doesn't go in strongly for pessimism but he will be distinctly relieved when the Drake game is history no matter what the result. "Have you a feeling of confidence," he was asked yesterday, "about the outcome Friday night?"

Not sure of Lineup. "I have a feeling of all," he said. "My scouts report Drake very strong. They have two lines of equal strength and those backs—well, if they get past the line of scrimmage, Manders, two-count 'em-two, Totsch and a couple of others can outpace any defense men we have. Why, do you know that Drake is rather looking forward to playing Notre Dame this year? Sure; they think they've got something and are anxious to get a chance to display it."

"How about your lineup; is that settled?" he was asked. "Well, I'm not exactly sure. If Klein could play, I'd know definitely, but if he is out, I may have to do some scrambling in the backfield. I'm not sure of my ends, either. Probably, we'll have to use a lot of men during the game if Drake has as wearing-out a ballclub as they are reported to have."

The Bears depart for Des Moines tomorrow morning and will work under the lights at Des Moines that night.

Billikens in Scrimmage. There's quite a contrast at St. Louis U. Coach Muellerleile sent his men through a hard scrimmage against a Freshman squad yesterday and saw some changes in his opening-game lineup. He probably will use Bill Clark at guard in Carl Yates' place at the start and, with Walker at quarter and Hart, many at half, little Central College was submerged, the Blue and White eleven is in fine shape. In fact, the outfit was better off than before the initial contest.

Bus Bergmann has recovered from a bad shoulder and was at his 1936 position at end. Thad Fisher, sensational ball carrier from Drumright, Ok., has recovered from a wrenched knee, and Coach Vee Green is preparing to coach the Bears with this sophomore.

Two Drake Stars Ready. Special to The Post-Dispatch. DES MOINES, Ia., Sept. 22.—Drake University's football team found out in practice yesterday that Notre Dame formations are not any too easy to halt. The varsity drilled his men through a hard scrimmage against a Freshman squad yesterday and saw some changes in his opening-game lineup. He probably will use Bill Clark at guard in Carl Yates' place at the start and, with Walker at quarter and Hart, many at half, little Central College was submerged, the Blue and White eleven is in fine shape. In fact, the outfit was better off than before the initial contest.

Bus Bergmann has recovered from a bad shoulder and was at his 1936 position at end. Thad Fisher, sensational ball carrier from Drumright, Ok., has recovered from a wrenched knee, and Coach Vee Green is preparing to coach the Bears with this sophomore.

The American Association playoff champions in the little world series. Atty Donald, who like Beggs, has beaten the Baltimore club four times this season, will pitch for Newark in this afternoon's game. Bill Lohrman, a 20-game winner for the flock, is slated to oppose Donald on the mound.

COLUMBUS AND NEWARK WIN IN PLAYOFF GAMES

By the Associated Press. COLUMBUS, O., Sept. 22.—Off to a good start with a victory over Milwaukee on Morton Cooper's three-hit pitching, the champion Columbus Red Birds slated Johnny Chambers for the mound tonight in the second game of their final American Association playoff against the Milwaukee Brewers.

Conzelman Undecided About His Lineup for Drake; Billikens Ready

By James M. Gould. There is considerable difference in the pre-opening game feeling at the local universities as the football squads of each complete their preparation for Friday night contests. At St. Louis U., everything is lovely, in a manner of speaking. The Billikens certainly expect no difficult opposition from James Milliken at Walsh Stadium. But, at Washington, scheduled with Drake at Des Moines, the gloom is so thick it could be cut with any old blunt instrument.

Head Coach Conzelman will take a squad of 30 or 31 to Des Moines. Jack Jones, a big tackle—and how the Bears do need tackles—is No. 31, but it is very doubtful if he will make the trip. Bill Perfection, a regular halfback last year, definitely is out with a bad foot and Jones Klein's bruised hip may keep him home.

As a rule, Jimmy Conzelman doesn't go in strongly for pessimism but he will be distinctly relieved when the Drake game is history no matter what the result. "Have you a feeling of confidence," he was asked yesterday, "about the outcome Friday night?"

Not sure of Lineup. "I have a feeling of all," he said. "My scouts report Drake very strong. They have two lines of equal strength and those backs—well, if they get past the line of scrimmage, Manders, two-count 'em-two, Totsch and a couple of others can outpace any defense men we have. Why, do you know that Drake is rather looking forward to playing Notre Dame this year? Sure; they think they've got something and are anxious to get a chance to display it."

"How about your lineup; is that settled?" he was asked. "Well, I'm not exactly sure. If Klein could play, I'd know definitely, but if he is out, I may have to do some scrambling in the backfield. I'm not sure of my ends, either. Probably, we'll have to use a lot of men during the game if Drake has as wearing-out a ballclub as they are reported to have."

The Bears depart for Des Moines tomorrow morning and will work under the lights at Des Moines that night.

Billikens in Scrimmage. There's quite a contrast at St. Louis U. Coach Muellerleile sent his men through a hard scrimmage against a Freshman squad yesterday and saw some changes in his opening-game lineup. He probably will use Bill Clark at guard in Carl Yates' place at the start and, with Walker at quarter and Hart, many at half, little Central College was submerged, the Blue and White eleven is in fine shape. In fact, the outfit was better off than before the initial contest.

Bus Bergmann has recovered from a bad shoulder and was at his 1936 position at end. Thad Fisher, sensational ball carrier from Drumright, Ok., has recovered from a wrenched knee, and Coach Vee Green is preparing to coach the Bears with this sophomore.

Two Drake Stars Ready. Special to The Post-Dispatch. DES MOINES, Ia., Sept. 22.—Drake University's football team found out in practice yesterday that Notre Dame formations are not any too easy to halt. The varsity drilled his men through a hard scrimmage against a Freshman squad yesterday and saw some changes in his opening-game lineup. He probably will use Bill Clark at guard in Carl Yates' place at the start and, with Walker at quarter and Hart, many at half, little Central College was submerged, the Blue and White eleven is in fine shape. In fact, the outfit was better off than before the initial contest.

Bus Bergmann has recovered from a bad shoulder and was at his 1936 position at end. Thad Fisher, sensational ball carrier from Drumright, Ok., has recovered from a wrenched knee, and Coach Vee Green is preparing to coach the Bears with this sophomore.

The American Association playoff champions in the little world series. Atty Donald, who like Beggs, has beaten the Baltimore club four times this season, will pitch for Newark in this afternoon's game. Bill Lohrman, a 20-game winner for the flock, is slated to oppose Donald on the mound.

COLUMBUS AND NEWARK WIN IN PLAYOFF GAMES

By the Associated Press. COLUMBUS, O., Sept. 22.—Off to a good start with a victory over Milwaukee on Morton Cooper's three-hit pitching, the champion Columbus Red Birds slated Johnny Chambers for the mound tonight in the second game of their final American Association playoff against the Milwaukee Brewers.

The Brewers, who finished the regular season in fourth place, picked Forrest Presnell to do their tossing in the hope he could stem the tide that overwhelmed Bill Zuber last night, 7 to 3. Zuber allowed 10 hits, with wildness contributing to his downfall. His rival, Cooper, slammed out three singles, one of them tying the score in the sixth inning, and another sewing up the ball game for the Birds in the eighth. The Brewers bunched their three hits in the third inning.

BEAUMONT HIGH TAKES LEAD IN TENNIS TOURNAMENT

By Davison Obeare. Beaumont High School's tennis team took a commanding lead in the race for the St. Louis Public High School League championship by defeating Soltan, 4 to 0 in a match on the Jefferson Memorial courts yesterday afternoon. Roosevelt and McKinley gained victories over Cleveland and Ben Blewett, respectively.

Bud Blanner No. 1 player on the Beaumont team had a rather easy time winning from Dick Russell of Soltan, 6-1, 6-0, while Bernard Manic defeated Mac Russell, brother of Dick, 6-1, 6-0. George Hendry, Beaumont's No. 2 player won from Robert Friedman of Soltan, 6-1, 6-2 in a match which produced some long rallies. Hendry proved steadier than his opponent.

In the only three-set match thus far in the tournament, Robert Nelson, Roosevelt, defeated Ed Marek, Cleveland. After losing the opening set, 6-1, Nelson came back to win the next, 6-2, 6-4. Leo Miller, No. 2 player on the Rough Riders' squad was forced to a 6-1, 7-5 battle by Bill Appel of Cleveland.

Dwight Lasater kept Ben Blewett from a shutout when he defeated George Winkler of McKinley, 6-1, 7-5. McKinley won the other two singles matches and the doubles contest to gain a tie for fourth place with Cleveland.

The schedule for this afternoon as announced by Karl Ware, league secretary, will send Blewett against Soltan, Cleveland against Soltan, while Beaumont 'ays Roosevelt.

Yesterday's results: BEAUMONT 4, SOLTAN 0. Singles—Bud Blanner, Beaumont, defeated Dick Russell, Soltan, 6-1, 6-0; George Hendry, Beaumont, defeated Bernard Manic, Soltan, 6-1, 6-0; Robert Stolz, Beaumont, defeated William Swick, Cleveland, 6-1, 6-2; Leo Miller, Beaumont, defeated Ed Marek, Cleveland, 6-1, 6-2. Doubles—Erwin Hoffman and Robert Kuter, Beaumont, defeated Stanley Levy and Tom Giles, 6-2, 6-2.

STANDING OF TEAMS. Team W. L. W. L. Beaumont — 4 — 0 Soltan — 0 — 4 Cleveland — 1 — 3 Roosevelt — 1 — 3 McKinley — 1 — 3

CUBS WILL NOT PLAY SOX IF THEY FAIL TO WIN N. L. PENNANT

By the Associated Press. CHICAGO, Sept. 22.—President Phil Wrigley of the Chicago Cubs came out yesterday with a world-series-or-nothing platform, announcing that there will be no city series with the White Sox if his team fails to win the National League pennant.

Wrigley said he felt a city series, following an unsuccessful league title drive by the Cubs, would be an anti-climax and would find no favor with the fans.

Frank Kurinec, St. Louis Owner Of Jewelry, Four-Time Winner, In Race-Game Only Four Years

By Dent McSkimming. "Aw, don't put me in the paper. I wouldn't even be at the race track if it wasn't for a fireman."

The interviewer was trying to get Frank Kurinec to tell something about his success as a trainer of race horses. Frank is a product of the Bohemian community that centers around Twelfth and Russell boulevards and he had been a jockey until very recently. He suddenly has developed into a very successful trainer considering the time he has had to handle horses.

His Fourteenth Winner. When he saddled Jewelry in the fifth race at Fairmount, yesterday, and the mare finished in front by a nose over As Always, Frank Kurinec had scored his fourteenth winner as a trainer.

And he was a jockey only six months ago at Arlington Downs, Texas, and a few years before that he was a husky young lad without a vocation, an education or a horse. Today he has all the vocation he wants, he's graduating to the upper grades of horse-ology and he has a stable of seven horses. And the man who has to take the blame for it all is Otto Stieber, fireman of the City of St. Louis at Engine Company No. 45.

"Mr. Stieber, at Engine House No. 45, thought I ought to be a jockey," continued Kurinec. "That was back in 1933. He convinced me that I was a jockey. I made a star as a jockey. He rode 27 times in 1934, at New Orleans."

Fireman Was Wrong. But Fireman Otto Stieber was wrong so far as Kurinec's riding ability is concerned for the boy Serapi-Lady Fox, a four-year-old filly by Serapi-Lady Fox, Scotch Thistle, by Sir Andrew-Blossom, and a horse Frank called "Rameta."

LAST NIGHT'S FIGHTS By the Associated Press. CLEVELAND—Charles Baxter, 137½, Pittsburgh, knocked out Frankie Flynn, 130½, Batavia, N. Y. (1). LOS ANGELES—Big Boy Bray, 209, Los Angeles, knocked out Frankie Connelly, 219, Otto Frischer (4). NEW YORK—Eddie McGeever, 159½, Scranton, Pa., and Joe Gonsky, 131½, St. Louis, drew (8).

NEW YORK—Leonard Del Genio, 145, outpointed Phil Furr, 147, Washington (10). ELIZABETH, N. J.—Red Cochran, 139, Elizabeth, stopped Bucky Reyes, 140, Jersey City (2). ATLANTA, Ga.—Ben Brown, 162½, Atlanta, outpointed Charley Jerome, 165, Memphis, Tenn. (10).

winner. He had 23 winners out of 339 mounts in 1933 and eight winners out of 107 mounts in 1934. Before he turned to training horses early this year at Arlington Downs in Texas, he had ridden 24 horses and won with two.

"I didn't quit because I was getting too heavy," said Frank. "I was positive I could train horses. That's my ambition. I gallop my horses in the morning. I train them and I hope to win with them. I have saddled 14 winners since I took up training." And the way Frank bore down on the "14" he left the impression that he was doing right well.

It was second high among the trainers at the Aurora meeting," he added. But most convincing of all about his astuteness as a horseman was the way Jewelry won. That proved Frank was right and, by the same reasoning, proved that Fireman Otto Stieber of Engine Company No. 45, was right, back in 1933 when he told A. J. Pershall that this little Bohemian would make a good race rider. Frank failed as a rider but he's going to town as a trainer.

In the Kurinec barn now are seven horses: Jewelry, a five-year-old mare by Cottingham-Gem; The Jurist, a five-year-old by Wise Counselor-Clopper; Transen, a seven-year-old mare by Transmut-Seniora; Real Jam, a five-year-old by Peter Hastings-Jane Cameron; Dixie Fox, a four-year-old filly by Serapi-Lady Fox; Scotch Thistle, by Sir Andrew-Blossom, and a horse Frank called "Rameta."

SAYS BETHLEHEM WANTED MARTIAL LAW IN STRIKE

Sheriff Tells Labor Board Hearing Steel Concern Asked Him to Swear In Industrial Deputies.

REFUSED TO DO SO, OFFICER TESTIFIES

NLRB Examiner Walks Out of Republic Inquiry After Row With Lawyers, but Returns.

JOHNSTOWN, Pa., Sept. 22.—Sheriff Michael J. Boyle testified at the Labor Board hearing yesterday in the Bethlehem Steel case that General Manager C. R. Elliott of the Cambria Works was very enthusiastic about asking the Governor for martial law in the summer steel strike.

Boyle also testified that Elliott requested him to inform Gov. George H. Earle about the possibility of a strike shortly before it was called by the Steel Workers' Organizing Committee June 11.

The request was made, the Sheriff said, at a conference in Elliott's office attended by Mayor Daniel J. Shields of Johnstown. "Elliott," he testified, "asked me to swear in deputies to take care of the strike situation. There was no discussion of pay."

Sheriff Refused.  
The Sheriff added that he explained that it was not "the Sheriff's place to swear in industrial deputies."

He stated he telephoned Theodore Pendergast, secretary to the Governor, and told "him of the possible strike at Bethlehem, and advising that since as Sheriff I had no officers of my own, it might be necessary to ask for State police."

Boyle earlier testified he sent a telegram to the Governor on his own initiative asking for additional aid preceding Elliott's modified martial law order on June 18.

He said the telegram was sent after he received reports of a proposed march of thousands of coal miners to a mass meeting in Johnstown in support of the steel strike.

Saw No Violence.  
The Sheriff said he had not seen any violence during the strike but did see evidence of violence in smashed automobile and trolley windows.

Asked if he knew the names of any of the car owners, he replied: "I was one."

His car was slightly damaged in a parking lot, the Sheriff added. H. M. Van Sant, vice-president of the Brotherhood of Railroad Enginemen and Firemen, testified that

APPLY RESINOL TO IRRITATED SKIN  
Quick relief from the annoying itch of eczema, poison ivy, and irritation on other parts of the body is obtained by applying an ointment called Resinol. Leave it on over night. It lessens the desire to scratch, and eases the irritation. The soothing effect of Resinol takes the sting out of the irritated parts and makes you comfortable. The skin heals sooner, too, with the help of Resinol.  
The ally base of Resinol Ointment is ideal for penetrating the outer layers of the skin and securing deeper action. Bathing the affected parts first with Resinol Soap hastens the effectiveness of Resinol Ointment. Try this treatment today.

Treasure Find Awaits Her

IDA MAE ZORNES.  
Four years ago she found \$133 secreted beneath a clothes closet in her home at Marshalltown, Ia. The Iowa Supreme Court has just held that she is entitled to the money. However, the court will have to hold it as the girl ran away from home 10 days ago and hasn't been located. She is 16.

the brotherhood workers on the Conemaugh and Black Lick Railroad, a Bethlehem subsidiary, struck June 10 after a company representative told them it was against the company's policy to sign a working agreement.

Examiner Walks Out of Hearing on Republic Steel.  
By the Associated Press.

YOUNGSTOWN, O., Sept. 22.—Differences between Trial Examiner John Lindsay and counsel for Republic Steel Corporation over Lindsay's repeated orders to confine evidence to issues involved in the National Labor Relations Board hearing of charges against Republic widened yesterday as Lindsay almost walked out of the case.

After Attorney C. F. Smith had made repeated arguments and statements on each court ruling, Lindsay rose suddenly and, walking toward the door, said: "Call me when you're ready to go on with the case."

A few moments later, he resumed his chair and instructed Attorney David E. Jones, co-counsel with Smith, to go on examining Barney Gillen, Warren (O.) Police Chief, concerning strike activities in Warren.

The situation arose when Gillen made remarks about a car being upset and an arrest, and the examiner instructed him not to make such remarks. Gillen replied he had to refer to the arrest to recall the date.

Lindsay reprimanded the witness for arguing with him, and Smith took exception to the examiner's remarks. Lindsay got to his feet and remarked: "There is such a thing as carrying things too far. There is a way to handle this situation."

Witness' Cry of "Liar" Leads to Recess in Weirton Co. Case.  
By the Associated Press.

STEUBENVILLE, O., Sept. 22.—Clashes between attorneys over a witness' repeated use of "liar" forced a recess today in the Labor Board's hearing against the Weirton Steel Co.

Clyde A. Armstrong, counsel for the company, demanded that Mike Simone, an S W O C member, give "civil answers." Attorney Allen Heald for the Labor Board retorted: "I suggest the witness was provoked into this and I am not sure it wasn't planned beforehand."

John Bress, a mill foreman, was ordered to leave the hearing room when he shouted, "Yes, that's right," after Armstrong asked Simone if he had ever been criticized for sleeping on his job in the mill.

"That's a lie," cried Simone. Trial Examiner E. G. Smith ordered a long recess to end the disruption.

LEGION PILGRIMAGE TO FRANCE

First Contingent of 1000 Sail on Liner Queen Mary.

NEW YORK, Sept. 22.—The American Legion's "20 years after" pilgrimage to the battlefields of France started today when 1000 Legionnaires sailed for Europe on the liner Queen Mary.  
Others of the 6000 persons expected to make the pilgrimage will sail at various times between now and Saturday to be guests of the French Republic for five days.

Man Shot to Death in Detroit.  
DETROIT, Sept. 22.—Frank Bagasco, undertaker, was shot down and killed in the street near his mortuary last night. He was born in Italy but had been in business in the United States for more than 20 years. Police admitted they were puzzled by the fact he apparently had received no threats.

CONGRESSMAN HENNINGSON SAYS BLACK SHOULD RESIGN

Disclosures Linking Supreme Court Justice With Klan Require It, He Thinks.

A statement expressing the opinion that Associate Justice Hugo L. Black of the United States Supreme Court should resign because of disclosures linking him with the Ku Klux Klan was issued here yesterday by Congressman Thomas C. Hennings Jr. (Dem.), of the Eleventh Missouri District.

"I feel certain," Hennings said, "the President of the United States at the time of his appointment of Mr. Justice Black did not know of or had been misinformed as to Mr. Black's purported allegiance to this moribund and un-American secret order."

"It is evident from the Congressional Record of the proceedings prior to Mr. Justice Black's con-

CANDIDATE OF LABOR PARTY

Mortimer Schiff's Son-in-Law to Run for Congress.  
NEW YORK, Sept. 22.—George Backer, real estate dealer and son-in-law of the late Mortimer Schiff, financier, will run for Congress on the American Labor party ticket in the Seventeenth Congressional District.

The district formerly was represented by Ogden L. Mills and by Ruth Baker Pratt. A successor to its latest Representative, Theodore Peyser, Democrat, who died recently, will be chosen at the Nov. 2 election. Candidates besides Backer are Bruce Barton, writer and advertising man, Republican, and Stanley Oserman, Democrat.

# LABOR ORGANIZERS BEATEN AT MEMPHIS

St. Louis Man Attacked and  
His Partner Is Reported  
Missing.

By the Associated Press.  
DETROIT, Sept. 22.—Richard T. Frankenstein, acting president of the United Automobile Workers of America, announced today he was sending additional organizers to Memphis, Tenn., where he said one organizer was beaten this morning and another was reported to be missing. The organizers will be sent from St. Louis, he said, to assist in the campaign to organize employees of the Ford Motor Co. assembly plant in Memphis.

Frankenstein acted in the absence of President Homer Martin who is ill. He said he had been notified that Norman Smith of St. Louis was beaten at Memphis and that Charles Phillips, who was with Smith at the time, was missing. Frankenstein, in a statement, said he believed that the beating was "by statements of the Mayor and Chief of Police." He quoted Mayor Watkins Overton and Police Commissioner Cliff Davis as saying recently that "CIO agitators and professional organizers will not be tolerated in Memphis."

St. Louis Office of Union Has Received No Orders.

Norman Smith was organizational director for the United Automobile Workers in St. Louis at the time of the General Motors strike, and remained at the union's local office until about three weeks ago, when he was named field organizer for the international body. He resides in St. Louis with his mother and three sisters, but union officials said they did not know his present address.

Local leaders said organization in Memphis is being conducted by Delmond Garst, regional director for the union, who is in Detroit at present, and that they had received no instructions about sending other organizers to Memphis.

Vessels in Atlantic and Gulf Ports Released; Union Says All Its Demands Are Met.

By the Associated Press.  
NEW YORK, Sept. 22.—Settlement of a long strike and release of nine vessels of the Morgan line in this and other Atlantic and Gulf ports was announced today by the Marine Engineers' Beneficial Association, which said the company had accepted all the union demands.

The ships which have been tied up are: The Dixie and El Mundo, in New York; El Coston and El Valle in Boston; El Capitan in Baltimore; El Jallo and El Alcantara in New Orleans; and El Oceano and El Oriente in Galveston. Terms of settlement as made public by the union are: Salary for chief engineer on passenger ships, \$350 a month; first assistant engineer, \$225; second assistant, \$205; third assistant, \$190, and juniors, \$140. On freighters the chief engineer will receive \$325, first assistant \$210, second assistant \$195 and third assistant \$175.

## MICHIGAN BANK ROBBER GIVEN 30-YEAR SENTENCE

Man Arrested in East St. Louis Gets Long Term at Alcatraz Prison.

By the Associated Press.  
DETROIT, Sept. 22.—The Government yesterday convicted Willard Long of robbing the First National Bank of Plymouth, Mich., and Federal Judge Edward J. Moineau sentenced him to 30 years in the Alcatraz Prison. The robbery, in which loot totaled \$6658, took place May 5. The testimony of Eleanor Duval, sweetheart of Long, that he walked into her room on May 5, threw \$1500 on a bed and announced, "That's my share of a stickup at

## UNION MAN BEATEN

—Associated Press Wirephoto.  
NORMAN SMITH.

Plymouth" climaxed Long's trial. She was called by the Government as a rebuttal witness after Long had testified that he was with her at the time of the robbery. She and Long were arrested together in an East St. Louis (Ill.) hotel a few days after the robbery.

Frankenstein said he intended to continue to search the residence for more hidden valuables. Last October Mrs. Cornet withdrew \$12,568 from a bank, most of it in \$100 bills, and in addition she recently had \$2500 in Liberty bonds, the disposal of which has not been cleared up, Flanagan said.

## \$11,500 IN CURRENCY IN HOME OF RECLUSE

Disclosed in Inventory of Mrs. Matilda Cornet's \$35,210 Estate.

Eleven \$1000 bills and a \$500 bill, wrapped in a handkerchief and tucked in a mattress, were found last week in the home of the late Mrs. Matilda Cornet, 80-year-old recluse, it became known yesterday with the filing of her inventory in Probate Court by Neal D. Flanagan, attorney and executor of her estate. The money, together with other property, including \$9364 in bonds previously found in paper bags and boxes in the old-fashioned house at 1042 Hamilton avenue, brought the total value of her estate to \$35,210. Mrs. Cornet, who died Aug. 14, left her entire estate to her sister, Mrs. Clara Koroll, 2335 South Seventh boulevard, except for \$1900 left to St. Rose's Catholic Church and \$500 to the pastor.

Flanagan said he intended to continue to search the residence for more hidden valuables. Last October Mrs. Cornet withdrew \$12,568 from a bank, most of it in \$100 bills, and in addition she recently had \$2500 in Liberty bonds, the disposal of which has not been cleared up, Flanagan said.

posals of which has not been cleared up, Flanagan said.

The \$11,500 in cash was found after Flanagan searched several days through trunks, boxes, clocks, dishes and pieces of furniture. Mrs. Cornet had lived alone since the death of a sister, Miss Minnie Klock, seven years ago. She refused to have a servant and lived frugally. Her husband, George A. Cornet, son of Francis Cornet, a wholesale grocer, died in 1921.

The inventory listed also the Hamilton avenue house, valued at \$3390, and property at 915-19 Delmar boulevard, now used as a parking lot, \$10,600. Mrs. Cornet was a seamstress before her marriage to Cornet in the 90's.

10 Killed in Wreck in Rumania.  
KLUG, Rumania, Sept. 22.—Ten persons were killed and 22 injured today in collision of local passenger and freight trains. No foreigners were hurt.

## LIQUIDATOR'S ANNUAL REPORT ON COUNTY SEWER DISTRICTS

\$173,000 in Taxes Received; \$70,000 Paid Out, Summary Filed in Court Shows.

William H. Tegethoff, liquidator for seven St. Louis County sewer districts under the old Ralph sewer law, received a total of \$173,428, chiefly in tax payments, and paid out \$70,851 during the year ending July 31, it is shown in his annual report, filed in Circuit Court at Clayton today.

The report, studied in conjunction with Tegethoff's report a year ago, covering the period from Jan. 20, 1934, when he took office, shows he has received an aggregate of \$290,072 and disbursed \$170,505 during his tenure. Cash balance as of last July 31 was \$119,566.

No comprehensive figures are given in the report as to the total amount of taxes still owing or of warrants outstanding. Tegethoff has stated that complete figures would be difficult to present at this time, owing to the fact that he is contesting the validity of many warrants, some paid and some unpaid, and to the remission of penalties, formerly considered district assets, by the Legislature.

Splinter Causes Child's Death.  
Marie Hamel, 7 years old, of De Soto, Mo., died yesterday at St. Louis Children's Hospital of blood poisoning resulting from a splinter in her right foot. She was the daughter of Mr. and Mrs. Charles Hamel.

## SPEED TRAPS COMPLAINT

Drummers' Association Writes to County Prosecutor.

A letter complaining that speed traps exist in St. Louis County "unequaled in any other part of our State" was received by Prosecuting Attorney M. Ralph Walsh yesterday from the Southeast Missouri Drummers' Association, which claims to have 300 members who motor through the county on business trips.

Not only salesmen but out-state merchants have been affected by the traffic condition, the letter stated, and as a result "merchants are going to other cities to purchase merchandise which rightfully should come from St. Louis."

Actress Sues Writer for Divorce.  
By the Associated Press.  
RENO, Nev., Sept. 22.—Mrs. Florence Arnold Sherman, movie actress known as Mary Moran, filed suit today to divorce Joseph C. Sherman, Hollywood writer. She charged cruelty. They were married Aug. 15, 1931, in San Diego. Property rights were settled by agreement out of court, the divorce complaint said.

## FRANCE, ITALY OPEN DISCUSSION ON SHIP PATROL

Rome Representative Will Accept Equality in Principle, Although Not Necessarily in Actuality.

## SPANISH QUESTION IS RAISED AGAIN

But Fascist Conferee Says Matter of Volunteers Has Not Been Issue in Naval Negotiations.

By the Associated Press.  
GENEVA, Sept. 22.—French and Italian representatives conferred here today in an effort to smooth French-Italian relations, ruffled by the crisis over the patrol of the Mediterranean.

Yvon Delbos, French Foreign Minister, told the Italian representative in Geneva, Bova Scoppa, that France was pleased at Italy's willingness to negotiate concerning the patrol.

But, Delbos added, France still is apprehensive because of the continued presence of Italian volunteers in the insurgent Spanish army.

Scoppa replied that the volunteer question had not been raised in the present issue, which centers on plans to stop attacks by submarines, surface warships and airplanes on merchant vessels in the Mediterranean.

Scoppa, informed sources said, assured Delbos that Italy would be satisfied with equality in the Mediterranean patrol, in principle, but not necessarily in actuality, and that Italy would patrol smaller areas than France or Great Britain.

It was understood Scoppa gave renewed assurance that Italy had no intention of violating the integrity of Spain.

Impending Conference Called Diplomatic Victory for Italy.  
By the Associated Press.  
ROME, Sept. 22.—Italians said today the impending Italian-British-French conference on ship raids was a sign that Premier Mussolini's demand for Mediterranean parity had been met and they called it a diplomatic victory for him.

Responsible sources said they believed assurances regarding Italy's Mediterranean position, given to the British and French Charges d'Affaires here by Foreign Minister Galeazzo Ciano, had overcome the big obstacle to an effective patrol agreement.

These sources indicated a belief that political differences could be threshed out when the three Powers get together soon in Paris.

The influence of Italian-German collaboration came in for its share of credit in press comment on this new approach to international efforts to drive raiding submarines, planes and warcraft from Mediterranean shipping lanes.

Stayed Away From Nyon.  
Both Italy and Germany, Europe's major Fascist states, stayed away from the Nyon conference at which nine nations agreed on a patrol plan.

Italy was offered the unimportant Tyrrhenian Sea as a patrol zone and Germany was offered nothing. Italy rejected the offer and demanded parity with France and Britain in keeping, Italy said, with its interests in the Mediterranean.

Today's press comment on Italian-German collaboration was linked with the government announcement of Mussolini's departure for Berlin Friday on a visit to Reichsfuehrer Hitler.

Italian Fascists also expressed satisfaction that Communist Russia had been eliminated from the forthcoming conference of naval experts at Paris.

"No Intruders."  
Il Popolo di Roma said "the question of surveillance of the Mediterranean today re-enters its proper channel and it is now up to the Powers which have the juridical title and means to solve it. There will be no intruders."

Informed quarters interpreted the remark to refer to the Soviet Union which had said Italian submarines had sunk two Russian merchantmen. Italy denied this.

Il Popolo said France and Britain had come to Rome "the long way" but that it was inevitable that they should come because "all roads lead to Rome."

## Distribution Of National One-Tenth

Commerce  
What Producers

Post-Dispatch

**CAN PEOPLE REALLY TELL THE DIFFERENCE IN CAMEL'S COSTLIER TOBACCOS?**  
The Best Answer is This...

*Camels are the Largest-Selling cigarette in America*

**CAMEL'S** use of choicer, costlier tobaccos has been the subject of much discussion. The question has often been raised as to whether or not people could tell the difference.

The way smokers feel toward Camels gives the answer! Camels enjoy a special regard among smokers. They are the largest-selling cigarette in America...or the world.

If you are not a Camel smoker, perhaps you, too, would enjoy a cigarette with a richer, cooler taste. Turn, then, to Camels. Judge them critically! Put them to the severest test—smoke them steadily. As you enjoy your Camels, you'll realize how true it is that there is no substitute for costlier tobaccos.

**THE CAMEL CARAVAN**  
now on the air with a full-hour show!  
Includes "Jack Oakie College" and Penny Goodman's "Swing School"! Sixty fast minutes of grand fun and music. Every Tuesday night at 9:30 pm E.S.T., 8:30 pm C.S.T., 7:30 pm M.S.T., 6:30 pm P.S.T., WABC-CBS.

**COSTLIER TOBACCOS IN A MATCHLESS BLEND**

Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic. The skillful blending of leaf with leaf brings out the full, delicate flavor and mildness of these choice tobaccos. That's why Camels have given more people more pleasure than any other cigarette.

Year in and year out, Camel pays millions more for finer tobaccos. And smokers do appreciate the added pleasure this means to them!

**HERB LEWIS**, Detroit ice hockey star: "I go for Camels in a big way. After an exhausting game—extra periods and all—they raise up my flow of energy—give me an invigorating 'lift'."

**IRENE SHERWOOD**, shopper: "Noon-time is one of my busiest times. For digestion's sake—smoke Camels! means so much to me. A Camel or two, and my luncheon goes smoothly."

**HENRY SNOWDON**, college wrestler: "After a tough match—or any time I'm feeling tired—I get a 'lift' in energy with a Camel. It's a mighty pleasant feeling."

**MRS. VINCENT MURRAY**, home-maker: "Believe me, I appreciate how mild Camels are! I smoke steadily and Camels don't have any 'cigarette' after-taste."

**RAY WINTERS**, radio announcer: "Camels suit me! And that goes for my throat especially. Can't remember when Camels ever scratched my throat."

**OTIS BARTON**, underwater explorer: "One of the first things I did in the 'bathysphere'—or any time when I'm feeling tired—is a Camel. I get a 'lift' with a Camel."

**MRS. J. W. ROCKEFELLER, JR.**, society aviatrix: "I prefer Camels for steady smoking. I can smoke as many as I please—and they don't get on my nerves. And I get a 'lift' with a Camel."

**JUANNA DE TUSCAN**, fencing champion: "I enjoy smoking so much—and I find that with Camels I can smoke often. Camels don't give me ragged nerves."

**GENE SARAZEN**, golf champion: "I've walked, I guess, thousands of miles around golf courses with Camels. They never throw my nerves out of tune."

**EVELYN CHANDLER**, figure skater: "What an asset good digestion is! I smoke Camels during meals and after. They do help to keep my digestion in order."

**FRED McDANIEL**, Texas rancher: "Me and Camels have been getting along mighty fine now for over 15 years. I never saw the beat of Camels for tastiness."

**JOANNA DE TUSCAN**, fencing champion: "I enjoy smoking so much—and I find that with Camels I can smoke often. Camels don't give me ragged nerves."

## FRANCE, ITALY OPEN DISCUSSION ON SHIP PATROL

Rome Representative Will  
Accept Equality in Prin-  
ciple, Although Not  
Necessarily in Actuality.

## SPANISH QUESTION IS RAISED AGAIN

But Fascist Conferee Says  
Matter of Volunteers Has  
Not Been Issue in Naval  
Negotiations.

By the Associated Press.  
GENEVA, Sept. 22.—French and  
Italian representatives conferred  
here today in an effort to smooth  
French-Italian relations, ruffled by  
the crisis over the patrol of the  
Mediterranean.

Yvon Delbos, French Foreign  
Minister, told the Italian repre-  
sentative in Geneva, Bova Scoppa,  
that France was pleased at Italy's  
willingness to negotiate concerning  
the patrol.

But Delbos added, France still is  
apprehensive because of the con-  
tinued presence of Italian volun-  
teers in the insurgent Spanish  
army.

Scoppa replied that the volun-  
teer question had not been raised  
in the present issue, which centers  
on plans to stop attacks by sub-  
marines, surface warships and air-  
planes on merchant vessels in the  
Mediterranean.

Scoppa, informed sources said,  
assured Delbos that Italy would be  
satisfied with equality in the Medi-  
terranean patrol, in principle but  
not necessarily in actuality, and  
that Italy would patrol greater Brit-  
ain than France or Great Britain.

It was understood Scoppa gave  
renewed assurance that Italy had  
no intention of violating the integ-  
rity of Spain.

Impending Conference Called Diplo-  
matic Victory for Italy.  
By the Associated Press.  
ROME, Sept. 22.—Italians said  
today the impending Italian-British-  
French conference on ship raids was  
a sign that Premier Mussolini's  
demand for Mediterranean parity  
had been met, and they  
called it a diplomatic victory for  
him.

Responsible sources said they be-  
lieved assurances regarding Italy's  
Mediterranean position, given to  
the British and French Charges  
d'Affaires here by Foreign Min-  
ister Galeazzo Ciano, had overcome  
the big obstacle to an effective pa-  
trol agreement.

These sources indicated a belief  
that political differences could be  
threw out when the three Pow-  
ers get together soon in Paris.

The influence of Italian-German  
collaboration came in for its share  
of credit in press comment on this  
new approach to international ef-  
forts to drive raiding submarines,  
planes and warcraft from Medi-  
terranean shipping lanes.

Stayed Away From Nyon.  
Both Italy and Germany, Europe's  
major Fascist states, stayed  
away from the Nyon conference at  
which nine nations agreed on a  
patrol plan.

Italy was offered the unimpor-  
tant Tyrrhenian Sea as a patrol  
zone and Germany was offered  
nothing. Italy rejected the offer  
and demanded parity with France  
and Britain, in keeping,  
Italy said, with its interests in the  
Mediterranean.

Today's press comment on Ital-  
ian-German collaboration was  
linked with the government an-  
nouncement of Mussolini's depar-  
ture for Berlin Friday on a visit to  
Reichsfuehrer Hitler.

Italian Fascists also expressed  
satisfaction that Communist Rus-  
sia had been eliminated from the  
forthcoming conference of naval  
experts at Paris.

Il Popolo di Roma said "the  
question of surveillance of the Medi-  
terranean today re-enters its prop-  
er channel and it is now up to the  
three powers which have the jurisdic-  
tion and means to solve it. There  
will be no intruders."

Informed quarters interpreted  
the remark to refer to the Soviet  
Union which had said Italian sub-  
marines had sunk two Russian mer-  
chantmen. Italy denied this.  
Il Popolo said France and Brit-  
ain had come to Rome "too long  
ago" but that it was inevitable that  
they should come because "all  
roads lead to Rome."

A communique yesterday by For-  
eign Minister Ciano disclosed that  
the French and British govern-  
ments had invited Italy to the meet-  
ing.

## Distribution Costs Take 28 Pct. Of National Income, Represent One-Third of Commodities' Prices

Commerce Department Official Analyzes  
What Public Pays for Goods With Pro-  
duction Base of \$18,500,000,000.

Post-Dispatch Bureau,  
201-205 Kellogg Building.  
WASHINGTON, Sept. 22.—That  
the annual cost of distributing com-  
modities reaches the total of more  
than \$15,500,000,000, or about 28 per  
cent of the national income, is as-  
serted in an address at Boston yester-  
day by N. Daniel H. Engle, as-  
sistant director of the Bureau of  
Foreign and Domestic Commerce of  
the Department of Commerce, be-  
fore the ninth Conference on Dis-  
tribution.

The cost of producing these com-  
modities was estimated by Engle at  
no more than \$18,500,000,000, or  
about one-third of the national in-  
come. He calculated that 40 per  
cent of the total value of manufac-  
tured goods was expended in pro-  
duction and something like 33-1/3  
per cent for distribution.

Not Too High, Engle Believes.  
Engle then proceeded to what he  
admitted was a startling statement  
—that in his opinion, and con-  
trary to general impression, the  
costs of distribution are not too  
high.

He did not deny that the expense  
of marketing certain products might  
be excessive, but maintained that the  
processes of manufacture, in recent  
decades, had become increasingly  
more standardized and simplified,  
while those of marketing have  
grown more complex and intricate.

He would agree, he said, that dis-  
tribution costs are too high only in  
the sense that all costs are too  
high, and so impose a limitation  
on the true objective of economic  
endeavor—consumption.

Both functions, of production and  
marketing, are indispensable to  
the consumer, declared Engle, and  
"whether one outwishes the other  
in importance depends largely upon  
the point of view. Critics are in-  
clined to believe, he stated, that  
production is all-important and dis-  
tribution insignificant, but the fact  
is, society has unconsciously placed  
heavier burdens on the marketing  
structure as a result of the growth  
of urban centers, widespread ad-  
vances in communication and trans-  
portation, and the expansion of na-  
tional income.

A Fundamental Difference.  
"There is," he continued, "a fun-  
damental difference between pro-  
duction and distribution which is  
often overlooked. Production, in  
many industries, lends itself easily  
to economies because of the wide  
attitude offered for mechanization  
and the use of capital. Distribution,  
on the other hand, is largely a mat-  
ter of personal service. Here the  
labor factor is large, and machine  
methods have distinct limitations.  
For this reason it is much easier  
to reduce production costs than  
marketing costs."

To illustrate, Engle estimated the  
total retail value of cigars and ci-  
garettes during 1935, the last year  
for which statistics are available,  
construct an adequate diplomatic  
framework for Italy's participation  
in the Mediterranean pirate-hunt-  
ing patrol when they convene in  
Paris.

Sources here said that Italy would  
not be given the absolute parity it  
had demanded, but would un-  
doubtedly have its patrol area ex-  
tended beyond her coastal waters.

Russians See Danger That Nyon  
Accord Won't Work in Practice.  
By the Associated Press.  
MOSCOW, Sept. 22.—The Journal  
of Moscow, which often speaks the  
mind of the Soviet Foreign Office,  
said today there was danger that  
the Nyon decisions "will evaporate  
when put into practice," although  
"the supporters of peace will do the  
utmost to guarantee their effec-  
tiveness."

News of the Italian-British-  
French agreement to meet at Paris  
in new Mediterranean conference  
was not published by the Soviet  
press, which often is a day late.  
Officials refrained from comment.

Germany Pleased With Italy's De-  
cision to Confer.  
BERLIN, Sept. 22.—Official quar-  
ters said today they were pleased  
with Italy's decision to confer on  
joining the Nyon Powers' patrol in  
the Mediterranean. This cleared  
the air on the eve of conversations  
between Premier Mussolini and  
Reichsfuehrer Hitler.

Private expressions indicated of-  
ficials had been disturbed over con-  
centration of British and French  
warcraft in the Mediterranean.  
This concentration the Frankfurter  
Zeitung interpreted as an applica-  
tion of pressure on Mussolini before  
his departure Friday for talks with  
Hitler.

Mussolini's willingness to enter  
Paris conversations soon was rep-  
resented here as amounting to re-  
treat by French and British from  
"the impossible stand taken at  
Nyon, where Italy was denied  
equality with France and Britain."

Kirkville Passes Bond Issue.  
KIRKVILLE, Mo., Sept. 22.—By  
a majority of about 9 to 1, Kirk-  
ville voted \$310,000 worth of bonds  
yesterday for a \$514,000 public im-  
provement program, the Federal  
Government having already agreed  
to pay for the rest. The program  
includes paving and water plant  
expansion.

Summer Welles Calls on Bonnet.  
By the Associated Press.  
PARIS, Sept. 22.—Sumner Welles,  
American Undersecretary of State,  
departed for home aboard the Eu-  
ropa today after a long talk with  
Finance Minister Georges Bonnet,  
presumably on the possibility of a  
world economic conference. An  
American Embassy spokesman said  
Welles' visit was chiefly a "cour-  
tesy call," but French reports were  
that the economic question was  
discussed.

Application for Leave to Circulate  
Petition Against Premier Filed.  
CALGARY, Alta., Sept. 22.—  
(Canadian Press)—A move to recall  
Premier William Aberhart, Al-  
berta's social credit leader, as a  
member of the Provincial Legisla-  
ture, is under way.

A formal application for leave to  
circulate a petition for the recall  
of Aberhart, who has been a storm  
center throughout his premiership,  
was filed with R. A. Andison, clerk  
of the Executive Council, at Ed-  
monton.

Sumner Welles Calls on Bonnet.

## EIGHT OFFICIALS CONDEMNED TO DEATH IN RUSSIA

Convicted of Attempting  
to Create Discontent by  
Sabotage Against Collec-  
tive Farming.

By the Associated Press.  
MOSCOW, Sept. 22.—Eight offi-  
cials were sentenced to death today  
by a court which convicted them of  
attempting to create discontent by  
wrecking collective farming efforts.  
Their alleged offenses occurred in  
the Lotoshin region of Moscow  
Province and were said to have  
been undertaken in hope of restoring  
capitalism.

The condemned officials were de-  
scribed as "members of a Trotsky-  
Bukharin nest" closely connected  
with Fascist agents in the Moscow  
provincial agriculture department.  
Nicolai Bukharin, former editor of  
Communist party organ, Pravda, is  
believed to be in prison.

It was charged there had been  
thefts of hundreds of bushels of  
grain and the "willful spoiling" of  
stored grain.

A local official of the Kassansky  
district, near Tashkent in Middle  
Asia, was sentenced to be shot and  
four others were sent to prison.

MUSSOLINI TO TAKE HITLER  
A MESSAGE FROM THE POPE  
Pontiff Approves Memorandum on  
Position of the Catholic Church  
in Germany.

CASTEL GANDOLFO, Sept. 22.—  
Pope Pius tonight approved a long  
memorandum on the position of the  
Catholic church in Germany, and it  
was learned the paper then was  
handed to Reichsfuehrer Hitler's  
attention at Munich or Berlin, dur-  
ing Mussolini's forthcoming visit  
there.

The memorandum was compiled  
on the basis of material furnished  
the last few days, on request, by  
German ecclesiastical authorities.

Cardinal Pacelli is to present to-  
morrow, for the Pope's approval,  
instructions to be sent to the Ger-  
man episcopacy and based on the  
memorandum. Neither instructions  
nor memorandum are to be pub-  
lished.

The Pope told 1500 pilgrims, in-  
cluding hundreds of Germans and  
several Austrians, today that Ger-  
many's religious state at present is  
"truly deplorable."

To Austrians, he observed: "Your  
country also is traversing difficult  
times for religion, but we are con-  
fident Austria will remain a faith-  
fully Catholic country in Central  
Europe." The Pontiff had spoken  
similarly in audience for Austrians  
last week.

NEW MEXICO VOTERS DEFEAT  
CONSTITUTIONAL AMENDMENTS  
Result Victory for Senator Chavez  
and Congressman Dempsey

ALBUQUERQUE, N. M., Sept. 22.—Five proposed amendments to  
New Mexico's Constitution were de-  
feated by a 2 to 1 vote, returns  
from nearly two-thirds of the  
State's districts showed today.

The third purpose of the plan is to  
raise the level of the Volga for  
greater efficiency in shipping.

Yesterday's result was a victory  
for Senator Dennis Chavez and  
Representative J. J. Dempsey, who  
opposed the amendments. The  
Democratic Gov. Clyde Tingling, in a  
bitter pre-election fight which split  
State party lines.

MOVE TO RECALL ABERHART  
Application for Leave to Circulate  
Petition Against Premier Filed.

Two proposals would have abol-  
ished the two-term limits for State  
and county officials. Other amend-  
ments defeated would have provid-  
ed a \$1,250,000 institutional build-  
ing bond issue, increased the pay  
of State legislators from \$5 to \$10  
a day and legalized the absentee  
ballot.

Right now is the proper time to make your lawn  
and to plant evergreens. You can now plant our  
"New Process" potted Rose Bushes, which are full  
of bud and bloom. These plants will continue to  
bloom in your garden for 2 months. Our green-  
houses are full of choice house plants. Your in-  
spection is invited. Consult our landscape de-  
partment about your lawn work or plantings. No  
obligation.

## Soviet Air Hero Leads Search for Arctic Flyers

FROM left, DR. O. J. SCHMIDT, who directed the establishment of the Soviet North pole camp, and M. S. BABUSKIN, Arctic expert, bid farewell to MICHAEL VODOPYANOV, who heads the rescue expedition from Moscow to search for the missing trans-polar plane piloted by Sigmund Levanevsky.

## WORLD'S LARGEST POWER PLANT UNDER WAY IN RUSSIA

Dam on Volga to Be Biggest  
Undertaking of the Third  
Five-Year Plan.

(Copyright, 1937, New York Tribune, Inc.)  
MOSCOW, Sept. 22.—Construction  
of the world's biggest power sta-  
tion, exceeding in its output those  
at Niagara Falls and equalling the  
entire power production of France,  
is officially announced as launched  
near Kuibishev, formerly Samara,  
on the Volga River 540 miles east  
of Moscow. The station will be  
the biggest project of the Third  
Five-Year Plan and the most spec-  
tacular single detail in the Bolshe-  
vik program to remake Russia.

It was disclosed that the project  
had moved from the stage of blue-  
prints to the beginning of actual  
work. The plan now apparently  
adopted calls for a concrete dam  
across Europe's biggest river below  
its junction with the Usa. The  
dam, to be three kilometers (1.8  
miles) long, will raise the Volga  
nearly 300 feet and generate hydro-  
electric power of 2,500,000 kilowatts.  
This figure compares with the 1-  
900,000-kilowatt projected capacity  
of the Grand Coulee Dam on the  
Columbia River in the United  
States. It is 70 per cent greater  
than the maximum figure which  
Lenin proposed to achieve in 15  
years over the entire Soviet Union.  
By 1942 its production is expected  
to constitute one-third of the coun-  
try's entire power generation.

The dam is expected to reclaim  
millions of acres of the Soviet  
Union's famous black soil belt, now  
improved by recurrent drought.  
The third purpose of the plan is to  
raise the level of the Volga for  
greater efficiency in shipping.

He said the registration would be  
completed before Dec. 1 because  
the postal Christmas rush deadline  
would be about Dec. 6 and from  
Dec. 1 on there would be a heavy  
seasonal unemployment, especially  
in agricultural centers. He added  
there would be no compulsion.

He said the Postoffice Depart-  
ment would handle the distribu-  
tion, collection and preliminary  
check of registration cards which  
would be sent to 31,000,000 homes.  
The cards will carry a brief mes-  
sage over the President's signature.

Biggers added the President  
would make a radio address ex-  
plaining the project and appealing  
to all to co-operate to get a fair  
result.

## VOLUNTARY ENUMERATION OF JOBLESS BEFORE DEC. 1

Administrator Announces Plans for  
Count Have Been Approved  
by President.

HYDE PARK, N. Y., Sept. 22.—  
John D. Biggers, administrator of  
the unemployment census, an-  
nounced after a conference here to-  
day that the President had ap-  
proved final plans for the voluntary  
enumeration. He added he expected  
the count to be completed be-  
fore Dec. 1.

Biggers said the President had  
given him "adequate authority" and  
approved an expenditure up to \$5-  
00,000.

He said the Postoffice Depart-  
ment would handle the distribu-  
tion, collection and preliminary  
check of registration cards which  
would be sent to 31,000,000 homes.

## SOVIETS' SUPREME JUDGES FIND THEY OFTEN HAVE FAILED

Criminal Courts in Many Places  
Also Accused of Punishing  
Only Petty Offenders.

MOSCOW, Sept. 22.—Bolshevik  
self-criticism was applied to the  
Soviet Union's Supreme Court itself  
yesterday as the Judges met in  
Moscow in a session reviewing  
their own failure to fulfill their  
plan.

The country's top-ranking Judges  
accused themselves of failing to es-  
tablish paternity in all alimony  
cases. Judge Reikhel, chairman of  
the Supreme Court's Law Col-  
legium, reported that 97.4 per cent  
of all alimony cases were decided  
in the plaintiff's favor. He added:  
"Unfortunately, our people's  
courts have not yet outlived the  
bureaucracy of over-simplified  
methods of establishing paternity,  
and fail to unearth many hiding  
fathers."

Judge Antonov Saratovsky, chair-  
man of the court's criminal section,  
accused many of his fellow Judges  
of failure properly to apply the  
law of Aug. 7, 1932, which made  
the theft or abuse of Socialist prop-  
erty a major crime. In many re-  
publics of the Soviet Union, he  
charged, Judges applied this law  
only against petty embezzlers, while  
cases of "enemies of the people"  
who were sabotaging the interests  
of the state were too often "fixed."

## THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its editorial principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare; never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.  
April 16, 1907.

## LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution but on request will not be published. Letters not exceeding 200 words will receive preference.

Thanks G. O. P. Can Win.  
To the Editor of the Post-Dispatch:

We are hearing lots these days about a coalition of parties against the New Deal. It seems to be inferred that the Elephant is unable to battle the Donkey single-handed.

The presidential charm and billions of our money in the hands of one party is indeed something formidable, but they can be beaten.

The Democrats had everything in 1860, and they lost to a people's candidate, Lincoln, and they have been losing pretty regularly ever since. They nosed in with Cleveland twice, they won with Wilson by a fluke in 1912, they got by with a political double-cross in 1916. They won again in 1932 simply because they had a ticket in the field, and they won again in 1936 "just because."

In other words, they won six out of the last 20 national elections, three of them, as I think, by flukes, which makes their batting average a little above zero.

In the election last fall, about 27,000,000 men and women voted for Mr. Roosevelt, about 17,000,000 for Mr. Landon. As I interpret these figures, there are at least 17,000,000 Republicans, about that many Democrats and 10,000,000 independent voters.

What the Republican party needs, in my humble judgment, is a program and a candidate in 1940 to attract these independent voters. With that combination, we'll carry every state where Republicans are permitted to vote.

All this talk about coalition is, in my judgment, pure buncombe. It's nice in theory, but not so good in practice. Let me quote one illustration. Last fall all Smith jumped his party for Landon. Campaigning for Senator Wendell last week, he referred to the Democratic party as "my party." The Roosevelt party was elected as Democrats and as Democrats they will be beaten by Republicans flying the Republican flag. W. J. SHEA, Collinsville.

We Are Again Set Right.

To the Editor of the Post-Dispatch:

I AM neither perturbed nor exasperated, just amused, at one of your Friday editorials. After referring to a letter in an adjoining column signed "A Reader," criticizing you for mistakes, grammatical and otherwise, you describe yourself as "like Bazarra, bleeding at every pore."

If that was true, your embarrassment caused you to sweat blood, for it is sweat and not blood that the pores are equipped to discharge. Your version does violence alike to natural law and to the rhyme scheme of Fitz Greene Halleck's poem, in which Marco Bazarra fell, "bleeding at every vein," after he and his comrades had piled "that ground with Moslem slain."

Fortunately, I am able to take such things calmly, but I would suggest that after this you have editorialized and corrected by the office boy before publication, because it is hard to predict the violence of "Reader's" next reaction. Only a few days ago a New York man died of anger because the cook drank coffee out of a saucer. It is well to avoid unnecessary provocation.

GLENN R. WINTERS.

Notes on Men's Apparel.

To the Editor of the Post-Dispatch:

OVER the changing styles of men's clothing I am not concerned, but over the changing of its conveniences I could write a book. For instance, the inside vest pocket, in which a man's secret things could be concealed, has gone; and gone also are the straps at the rear of the waistband of his pants, which made suitable allowance for increased or decreased girth. The frock coat as an everyday utilitarian garment, with its capacious tail pockets, in which could be deposited a handkerchief and a plug of tobacco, under the skirts of which could be worn patched but otherwise presentable pants, is seldom in the land. In its place has come the all-revealing sack coat, with which a top hat cannot be worn without the wearer seeming topheavy.

In place of the "shadblow" flap at the front of the "britches," worn with such distinction by our grandfathers, we have the straight opening down the front, to be closed with a row of buttons, but which we sometimes, accidentally or inadvertently, leave unbuttoned, to our very great embarrassment. Instead of the "dog-eared" pockets at the front of the pants, with their former top opening, out of which nothing could be spilled, we now have perpendicular openings, from which we drop many a dime, nickel, penny, and sometimes the key to the front door.

The changes do give a streamlined effect to man's figure, which must admit, is anything but graceful in its native dress, and for that reason, I suppose, it would be useless to propose a reversion to the olden uglier, but more useful and safer adjuncts and appliances. The faults of the present pockets and openings might be corrected, however, by the use of zippers, wherein would lie great safety for a man's personal effects and assure a well "buttoned-up" appearance; but (and this is exceedingly important) the zippers must be of the ever-workable type.

A SUFFERING MALE.

## MILK: A REGIONAL PROBLEM.

The local milk problem was not solved with the virtual fold-up of the Waterloo Milk Co.'s attack on the validity of St. Louis' standard milk ordinance. Were every dairy in St. Louis delighted with the strict requirements of the ordinance and doing its utmost to comply in the city, the problem, in terms of the metropolitan area, would remain. This is so for the simple reason that unsold milk is being sold outside the city, but within greater St. Louis, where the St. Louis milk ordinance has no effect.

The business of producing and distributing milk for St. Louis creates a public health problem which is larger than the City of St. Louis. It is larger than the city and St. Louis County combined. The river which divides Missouri from Illinois does not divide the milk problem. The milk problem of the St. Louis metropolitan area is as large as the area itself.

Under the United States Public Health Service ordinance, which is gradually being placed in effect in St. Louis, unsold milk cannot be sold in St. Louis, nor can milk from producers which meet the requirements be sold if the distributing dairies are delinquent at their plants. This affords protection for persons who live in the city, but what about the several hundred thousand persons who do not happen to live within the city limits of St. Louis, yet whose interests are so much a part of St. Louis that they think of themselves as St. Louisans?

To take up St. Louis County first, City Health Commissioner Bredekamp and County Health Commissioner Meyer both report a general willingness on the part of St. Louis dairies to provide county consumers with inspected and otherwise approved milk. University City, Clayton, Kirkwood, Webster Groves and Ferguson have milk ordinances antedating the standard ordinance in St. Louis, but lack of funds for full-fledged enforcement has prevented the residents of these communities from receiving adequate protection in the past. Regulation in these communities, in any event, suffered so long as St. Louis proper was deficient in its legislative attack on the problem.

Be that as it may, the present machinery does not assure a pure milk supply to all county residents by any means. Dr. Meyer and the two inspectors who check the conditions under which milk is produced in the county for county consumption are zealous enough but they lack the authority and the means they should have. In the first place, much of the county is not covered by ordinances; unincorporated areas and communities which do not have adequate ordinances or whose ordinances are ineffective are potential if not actual markets for unapproved milk.

In the second place, the plan of the St. Louis dairies to raise a fund from their own treasuries for county inspection, recently proposed to Dr. Meyer, is unsatisfactory on its face. Whether or not a tax of 4 cents a hundred pounds of milk, such as St. Louis levies on dairies to support its ordinance, is too high, it is basic that local government should establish the machinery for financing inspection and enforcement. Inspection should not be on a voluntary basis, subject to change if the dairies choose.

Why this should not be left to the dairies is demonstrated by the situation in the populous communities across the river. Although in another state, East St. Louis, Belleville, the Tri-Cities and many other Illinois cities are an important part of the St. Louis milk market. The trucks of St. Louis dairies deliver milk to homes in them just as they do in St. Louis. And yet the great quantity of milk which these dairies sell on the Illinois side is unsupervised. It comes from the same milked and it is received and bottled in the same plants as is the approved milk sold in St. Louis, but this does not make it safe and of high quality.

If this is the situation in the unprotected communities in Illinois, what assurance is there that the unprotected residents of the county will receive inspected milk unless they set up safeguards of their own?

When Chicago placed its standard milk ordinance in effect, Chicago dairies promptly dumped their unsupervised milk—no longer permitted within the city—in the heavily populated suburbs. The result was that outlying communities banded together to protect themselves. To cite one instance, the cities from Waukegan down to Evanston joined hands to establish a milk district which gave their residents the protection which Chicagoans enjoyed.

The same thing must be done in the St. Louis area. A central St. Louis County milk authority, preferably centered in the County Health Department, should be created at the earliest possible opportunity. Meanwhile, each incorporated community should adopt the standard ordinance and enforce it. The new public health district created with the merger of the public health agencies of East St. Louis and three adjoining townships affords the means for an attack on unsupervised milk in St. Clair County. Alton recently set the example for other Madison County cities by adopting the standard ordinance.

The situation may be complicated by the fact that the St. Louis market is under-supplied—that at present there is not enough approved milk to meet all demands. That still does not change the public health necessities. As regulation is extended the area will produce more milk of a high grade and less of low grade. Here is a regional problem and it should be treated as such by the communities, the authorities and the dairies.

## NO MISTAKING HIS MEANING.

For today's example of vivid English, we nominate William Hirth's description of Missouri as "a State ruled by tin-horn chiseling political crooks and buzzards."

The phrase might win no prize for subtlety or alliteration, but there can be no doubt that the men who heard the farm editor at the Missouri Farmers' Association convention at Sedalia knew exactly what he meant—and what he meant was plenty.

## THAT ALLEGED BUMPER CROP.

It appears to us a lot of loose and irresponsible statements are being made about the so-called bumper crop of babies being produced by the colonists of Matanuska Valley, Alaska. In something more than two years, the stock has distributed about 100 small bundles in Matanuska, and that adds up, as the vital statisticians calculate it, to 44 per 1000 population. Pointing proudly to that figure, the partisans of the Matanuskan show that, by comparison, the baby-producing rate of the United States is only 16.9 per thousand.

But the Matanuska colonists are people in the prime of life, especially selected to undertake pioneering hardships, and they might have been presumed to have babies galore, since babies develop into farmhands and are therefore potential assets to the colonists. On the other hand, the birth-rate figure for

this country includes a population with a heavy percentage of the very young and very old who are completely out of the child-getting cycle.

We do not wish to disparage the Matanuska performance, but it seems only fair to-middling, with no crop-control plan needed.

## TOWARD A ONE-CHAMBER LEGISLATURE?

Almost unnoticed, an organization is taking form for the purpose of forcing a vote in Missouri on the adoption of the one-chamber Legislature plan, such as is now in operation in Nebraska. Headed by Ray Buchan, members of the group have held several meetings in St. Louis and now are preparing to draft an amendment to the State Constitution which they propose to submit to the voters by means of the initiative. The plan is to set up similar groups throughout the State, which would circulate the petitions for the required number of signatures in time to have the question on the ballot a year from this November.

Assuming that the organization is composed of determined citizens who will go through with their plans, the work they are embarked on becomes truly important. They can, just as Senator Norris and his followers did in Nebraska, take the question to the people over the opposition of the two-chamber Legislature, most of whose members stand to lose their seats in the change. It would be idle to say that the unicameral system holds the solution to all the ills of state government. It can be demonstrated, however, that responsibility is more definitely fixed and that the opportunities for efficiency are greater.

In any case, a popular debate on the question in Missouri would be a wholesome thing for the State. There is no greater need in Missouri than to awaken the people to the urgent necessity for breaking the hold of the special interests which now dominate legislative sessions through their hand-picked legislators.

## IN THE "ATHENS OF MISSOURI"

It is shocking to read of mob violence, or attempts at mob violence, in any community.

It is doubly shocking to read of such an occurrence in a community blessed beyond the average with civilizing influences.

We refer to the effort Monday night at Columbia by a mob of 200 persons, to take a young Negro from the county jail. Happily, the mob had been foiled in advance by the removal of the prisoner to another county for safekeeping. Save for that forehanded action by the county authorities, an ugly situation must have arisen.

A theoretical case can be built up against a Federal anti-lynching act, but the constant recurrence of sadistic outbreaks like that at Columbia is making irresistible the argument on the other side.

## THE POISONED CUP.

A spectacled little boy strode sturdily to the platform, faced his audience of fellow pupils, with here and there a fond parent to witness an offspring's triumph, and began:

At midnight, in his guarded tent,

The Turk was dreaming of the hour

When Greece, her knees

Teacherous memory. The words wouldn't come. After an endless minute of embarrassment a fresh start was made. The second effort ended like the first. "When Greece, her knees"—that was as far as he could get. A third trial, with the same result. At this point, the teacher, grave and old and wise, intervened encouragingly to say: "Grease her knees once more, Theodore."

The spectacled little boy went on to finish the piece and to go other places and do other things; to be hailed as "Teddy" from many a friendly gallery; to become the "T. R." of great power and much glory; to be identified in history as "the first Roosevelt." But the school-day incident was a haunting experience, in which, as he laughingly liked to recall, he really did "sweat blood."

If Homers nod, may not obscure mortals fumble?

They may and do. And their errands are usually plinked with fine gusto. But occasionally, as in today's letter column, a Dr. Prig appears, to serve the hemlock in a saucer.

## PROF. FRANKFURTER AND THE PACKING PLAN.

No doubt, in view of the widespread misunderstanding and misrepresentation of the part played by Prof. Felix Frankfurter of Harvard in the New Deal, there will be some surprise at the news from Washington that the Roosevelt-Frankfurter alliance has come to grief on the rocks of the court-packing scheme. There ought to be no surprise. No one familiar with the Frankfurter philosophy, with its expressed faith in the orderly processes of democracy as a means of progress, could have supposed for a minute that he approved the revolutionary and dangerous short-cut advocated by the President in the packing bill.

Some officials enjoy their vacations and others are hounded by bond scandals and Klan exposes.

## LOOKING AHEAD.

In September, 1963, the paw-paws will be adding a savory tang to the Ozark mountains, and St. Louis, having had an earful of Branch Rickey through the long, unhappy summer days, will be listening to what Jimmy Conzelmann and Cecil Mulierette have to say about the prospects of the Bears and Billikens, and somewhere a Bureau of Research will have examined the State budget and Col. Mulberry Sellers will be designated to broadcast the news from his trans-Stylegian station.

Assuming the Government at Jefferson City can, for the next 25 years, keep up the spending pace of the last quarter of a century, the figures will enthrall Col. Sellers. If we multiply expenditures by 10 in the period ahead of us, as we have since 1913, it will be a saga of billions. Jefferson City will then be disbursing, biennially, the tidy sum of \$1,938,619,270. The county seats will be distributing a total of \$1,468,690,980. And the city halls, with urban precision, will be getting rid of an even round billion.

If addition can stand it, without cracking under the strain, the full-blown biennial bill of government in Missouri along in '63 will be \$4,407,340,250. But don't be alarmed. Tom Pendergast will not let us down. Tom will instruct his Governor to send a committee of three from the Senate to Olympus with orders to trade the Missouri River for the golden currents of Paeonius. And the Senate committee of three—Casey and Kinney and Brogan—will turn the trick.

With Boss Pendergast's pledged support, Senator Clark will enter the contest for re-election holding all five aces.

THAT COSMIC HOT POTATO.

## What Is the Practice of Law?

Lawyers are encroaching on commercial functions, insurance publication charges; limitations sought by Missouri bar groups could be used to drive claim adjusters, credit men, ticket agents and others from field, it asserts; estimates 4,000,000 employees might be affected; attorneys say no such sweeping application is planned.

From the Journal of American Insurance.

DEVELOPMENT which deserves the immediate and serious attention of every far-sighted business man seems to be the growing tendency on the part of America's legal profession to encroach more and more upon the routine functions which business men have for many years performed for themselves as a matter of course.

One has only to inform himself upon some of the court actions which bar groups have brought against laymen in the several states to come to the realization that an aggressive campaign by the lawyers' organizations is not only in the making, but has already made more than a little progress. To the legal mind such moves are thoroughly justifiable, on the ground that those unskilled in the mysteries of the law should not be permitted to participate in any of its functions. But to the experienced business man, who is often better versed in a particular line than any attorney, such a movement comes as a distinct and unnecessary annoyance and an invasion of his rights.

His position is that, in two fields so closely complementary as business and the law, there must be a twilight zone of separation in which one group is as well qualified to operate as the other. And when the lawyers' organizations attempt to set up a sharp and advanced line of demarcation, not in the center of this twilight zone, but at that exact outer edge where the admitted and agreed functions of the business man begin, he feels that he is being imposed upon. He holds that the attorney is attempting to push him off the sidewalk.

Because the proceedings of bar groups against business men are usually for specific alleged violations in widely separated jurisdictions, this trend has been a long time taking the limelight. It was not, in fact, until the taking of testimony began recently in a suit for declaratory judgment upon what constitutes the practice of law in Missouri, brought by six large mutual casualty insurance companies against Boyle Clark, general chairman of that State's bar committee, and the members of his advisory committee, that the issue became clear.

The proceeding was inspired by the citing for contempt of court of several of the companies on the ground that their Missouri adjusters practice law in settling claims which are made against the companies as the result of acts of their policyholder members. When the Missouri Supreme Court gave permission to file such an action in the Circuit Court at Columbia, and the bar groups agreed to it, business generally considered the matter simply a formal method of having the courts set up a workable code for insurance adjusters in Missouri.

But when William S. Hogsett, chief counsel for the insurance companies, stood off the bitter objections of the bar committees attorneys to introduce into evidence the results of a questionnaire he had submitted to a number of leading trade associations and business organizations, opinion changed with lightning swiftness. The tabulation showed that 30 such organizations, a mere fraction of the national total, employ almost 4,000,000 laymen in performing acts that the Missouri attorneys seek to have declared the practice

of law. The practices affect almost every business in which disputes are adjusted with customers, in which opinions incidental and pertinent to the business are given, and in which the blanks in contractual documents are filled in.

They concern such diverse types of business men as accountants, credit men, transportation rate experts, realtors, insurance agents, department store complaint adjusters, newspaper and magazine advertising salesmen, bank officers, and even such enormous groups as the agents who would be considered to be drawing contracts in filling out tickets on railway, bus, steamship, and air lines. He showed how impossible it would be for lawyers to take over these duties, now being handled by millions of laymen, by producing certified figures indicating that there are but 175,000 practicing lawyers in the United States.

However, it was when counsel for the bar groups objected that they had no intention of going to such lengths in enforcing the Missouri definition of the practice of law that Attorney Hogsett scored the most telling point that has been made in the course of the controversy.

"The intentions of any bar committee are of no importance in matters of this sort," he explained. "The court is being asked to set a rule of law, and once set it must be enforced uniformly. Who is the bar committee to take upon itself the authority to determine against what person or groups of persons the law will be enforced or will not be enforced?"

The counsel declared that the definition of the practice of law is simple and familiar—it consists of serving clients in a representative capacity, for a fee, in the determining or securing of legal rights—and that there is an implied right for any legitimate business to perform the functions incidental to that business.

For there can be no doubt that the precedents which are certain to be set in the Missouri case concern mutual insurance only incidentally. They are bigger than insurance. They take in the whole of American business, and upon the findings of the court will doubtless depend the question of whether the bar groups of other states will increase their efforts to extend the frontiers of the field of law.

It is exactly because the duty of any bar association is a double one that there is at once suggested to the lay mind this possibility. If licensed attorneys are disciplined for engaging in practices which border upon the unethical, their natural response is to demand that they be given a wider and more fertile territory in which to operate, at the expense of other groups.

There are many observers who hold that it is precisely this factor which is behind the increased aggressiveness of the lawyers' organizations in seeking to extend the profession's exclusive functions. And they hold that it is unfair to seek to force business to carry the added burden of supporting the nation's lawyers by forcing it to engage them to carry out unneeded and unwanted services which can be performed more efficiently and at less expense by experienced laymen.

## Dixie and the Klan

From the Richmond Times-Dispatch.

PROPOS of Mr. Justice Hugo Black and the Ku Klux Klan, Ferdinand Lundberg, biographer of W. R. Hearst, has just written a letter to the New York Post deploring that militant New Deal organ's demand for Black's resignation from the Supreme Court. Mr. Lundberg is one of those who still hold that the tremendous uproar over Mr. Black is largely synthetic, and mainly induced by reactionary newspapers and organizations bent on driving the Alabamian from the court by fair means or foul.

Mr. Lundberg is entitled to his opinion, but we should like to see him get the best before he delivers himself of such wild pronouncements as the following:

"Assuming that the charges of membership in the Klan are true, we must recall that back in 1926 virtually every public official south of Mason and Dixon's line and every aspirant to public office was a member of the Ku Klux Klan. Indeed, nearly every substantial local property holder in the South appears to have been a member of this organization."

Bunk! That is the sort of silly talk which issues from people who haven't ever been south of Hoboken, and whose mental picture of the South is seen through a maze of misinformation and prejudice. Certainly it is true that the Klan was strong in the South during the period in question, stronger, in fact, than we like to admit. It was especially strong in Alabama, the State under discussion in the current controversy, as well as in Georgia and Texas. It was potent in Louisiana, as those who remember Mer Rouge will testify.

But despite the recent titillating revelation that we have nothing less than a grand dragon in our midst here in Richmond, to the present time, the Klan has always been comparatively weak in Virginia and the Carolinas, and it has never enlisted in its membership "virtually every public official south of Mason and Dixon's line and every aspirant to public office." Equally ridiculous is the Lundbergian assertion that "nearly every substantial local property holder in the South" belonged to this grotesque organization, and walked about in a night shirt in the dark of the moon.

## HOW THE MONEY GOES.

HERE she comes and there she goes... Gov. Earle the other day announced that the State of Pennsylvania had settled the inheritance tax case of the late Richard Mellon, and will receive \$13,898,000. Suddenly, he announced that the money will go at the rate of \$2,000,000 a year to provide salary increases for State employees.

So the money was spent the same day it was assured. Taxpayers, who will thus receive no benefit from the windfall, will be comforted by remembering that the State employees who get it are exempt from the Federal income tax.

## THEIR ONLY CHANCE.

FROM the Kansas City Times. DUE to the failure of Gov. Stark to appoint Treasurers in 74 Missouri counties, as authorized by a recently enacted statute, the counties are unable for the time being to pay out any funds. After all, this may be the one chance of these counties to save a little money.

## ARGUMENT IN REVERSE.

FROM the Ohio State Journal. The head of the W. C. T. U. lauds Hitler because he doesn't drink, but that seems to us almost like an argument in favor of taking an occasional snifter.

## RAIN AIDS EXPLORERS ON SHIVA TEMPLE

Expedition Members Report Country Atop Plateau Is Very Rugged.

By the Associated Press.

GRAND CANYON, Ariz., Sept. 22.—A terrific rainstorm lashed the lofty summit of Shiva Temple yesterday, so Dr. Harold E. Anthony, mammalogy curator of the American Museum of Natural History, and his companion, George Andrews, who had been short of water since they ascended to the plateau last Thursday, had a bath.

The rain came in torrents, enabling the scientists to launder their clothing for the first time since their arrival. A radio message to the base camp said: "All O. K." Guided by veteran mountain climbers, the scientific expedition mounted to Shiva Temple in what its members believe was modern man's first conquest of the lonely mesa that towers above the Grand Canyon. They are studying the forest's wild life which they think has been isolated from the rest of the world since the ice age.

Dr. Anthony and Andrews, son of Roy Chapman Andrews, noted explorer and head of the Museum, are maintaining 49 traps atop the mesa and one-half high plateau. On Sunday morning, Dr. Anthony mentioned, he skinned a catch of 19 small mammals.

He explained that because the summer is larger and more rugged than at first supposed he has been unable so far to explore it fully. Shiva Temple got its name because of the mystery which the Grand Canyon impressed on its first modern explorer. Literally, it means "temple of destruction."

Maj. J. W. Powell led the first expedition of white men into the canyon in 1889. Unable to find native American names to express the wilderness of the plateau, plants and apes within the great chasm, he turned to mythology. "Shiva," or "Shiva," was a Hindu deity representing destruction.

## MOTHER ODEIDE MOUTON ACTING HEAD OF MARYVILLE COLLEGE

New Appointments to Teaching Staff Announced by Head of College.

Mother Odeide Mouton has been appointed acting president of Maryville College, Meramec and Nebraska streets, succeeding Mother Mary Reid, who died Jan. 18. Announcement of the appointment was made yesterday by Mother Matilde Mouton, head of the southern province of the Order of the Sacred Heart.

Mother Odeide Mouton joined the order at Albany, N. Y., in 1928. She was assigned to Maryville College in 1935 after spending six months in the mother house at Villa Duchesne, St. Louis County. New appointments to the teaching staff at the college include Dr. Wolfgang Born of Munich, who will head the art department and Miss Dorothy Southwell-Sander of London who will supervise speech and dramatic work.

## DAY CAMPS FOR CHILDREN

Playground Association Director Says They Are Needed in St. Louis.

Alfred H. Wyman, executive secretary of the Park and Playground Association, a United Charities agency, declared there was a need for day camp facilities in St. Louis and every aspirant to public office was a member of the Ku Klux Klan. Indeed, nearly every substantial local property holder in the South appears to have been a member of this organization.

But despite the recent titillating revelation that we have nothing less than a grand dragon in our midst here in Richmond, to the present time, the Klan has always been comparatively weak in Virginia and the Carolinas, and it has never enlisted in its membership "virtually every public official south of Mason and Dixon's line and every aspirant to public office." Equally ridiculous is the Lundbergian assertion that "nearly every substantial local property holder in the South" belonged to this grotesque organization, and walked about in a night shirt in the dark of the moon.

New appointments to the teaching staff at the college include Dr. Wolfgang Born of Munich, who will head the art department and Miss Dorothy Southwell-Sander of London who will supervise speech and dramatic work.

## DAY CAMPS FOR CHILDREN

Playground Association Director Says They Are Needed in St. Louis.  
Alfred H. Wyman, executive secretary of the Park and Playground Association, a United Charities agency, declared there was a need for day camp facilities in St. Louis parks for children from congested areas, in a talk yesterday before the Scottish Rite Women's Club, 3637 Lindell boulevard.  
Establishment of such camps would permit underprivileged children to enjoy the experiences of a camp life at minimum expense, he said.

## Just Going for the Sea Air

Mr. and Mrs. William Porter Burnett, 5670 Clemens avenue, have arrived in Richmond, Va., on their motor trip through the East. They have been in White Sulphur Springs, W. Va., and Washington en route to New York. Later they will visit their niece and nephew, Mr. and Mrs. Duer McLachlan, who recently returned to New York from their summer home in Watch Hill, R. I.

## HOW THE MONEY GOES.

HERE she comes and there she goes. Gov. Earle the other day announced that the State of Pennsylvania had settled the inheritance tax case of the late Richard F. Mellon, and will receive \$13,309,000. Suddenly, he announced that the money will go at the rate of \$2,000,000 a year to provide salary increases for State employees.  
So the money was spent the same day it was assured. Taxpayers, who will thus receive no benefit from the windfall, will be comforted by remembering that the State employees who get it are exempt from the Federal income tax.

The head of the W. C. T. U. lauds Hitler because he doesn't drink, but she seems to us almost like an argument in favor of taking an occasional snifter.

# SOCIAL ACTIVITIES

## Back From Holiday Abroad

MRS. LILY BUSCH MAGNUS and her sister, MISS MIQUETTE MAGNUS, who returned to New York Monday on the Bremen, after a summer trip abroad. They were accompanied by their parents, Mr. and Mrs. Edward Magnus, 4 Hortense place.

Mr. and Mrs. Lee Fraser of El Paso. She received her education abroad and finished her studies at the Shipley School in New York.

Four of the season's debutantes will be honored guests at a cocktail party the night of the fall Pro-phet parade, Tuesday, Oct. 5, according to invitations received early this week from Mr. and Mrs. Blaisdel Shapleigh, 3 Southmore, and their daughter, Miss Ann. The honor guests are Miss Elizabeth Funsten, daughter of Mr. and Mrs. Edward S. Funsten; Miss Eunice Jackson Holderness, daughter of Mr. and Mrs. Marvin E. Holderness; Miss Dorothy Lee Post, daughter of Dr. and Mrs. Hayward Post, 501 Clara avenue; and Miss Katherine Gratz Randolph, daughter of Mr. and Mrs. William Fitzhugh Randolph. Guests are invited to call after 6 o'clock.

Miss Agnes Galt, daughter of Mr. and Mrs. Charles F. Galt, 4508 Pershing avenue, has decided against a debut this winter and will return to John Burroughs School to complete work needed for graduation. Last winter she studied abroad with Miss Eleanor Leo Carter, daughter of Mr. and Mrs. Taylor Scott Carter, 7 Oakleigh lane, who is one of the debutantes of the season. Cards were received Monday for Miss Carter's debut, the first function after the Veiled Prophet ball, a reception at her home the afternoon of Oct. 8 from 4 to 6 o'clock. A small dinner and dance for debutantes and their escorts will follow.

The Galt family spent the summer at the Tamaracks, Henry Turner's ranch at Seelye, Mont.

Mr. and Mrs. William H. Danforth, 17 Kingsbury place, have gone on a short holiday at Banff and Lake Louise in Canada. They are expected home Tuesday. They spent the early summer abroad. Their son and daughter-in-law, Mr. and Mrs. Donald Danforth, 17 West Brentmore park, are visiting the West and are expected to arrive home Tuesday or Wednesday.

Mr. and Mrs. William Porter Burnett, 5670 Clemens avenue, have arrived in Richmond, Va., on their motor trip through the East. They have been in White Sulphur Springs, W. Va., and Washington en route to New York. Later they will visit their niece and nephew, Mr. and Mrs. Duer McLachlan, who recently returned to New York from their summer home in Watch Hill, R. I.

Mrs. William Benton McMillan, 3 Dromara road, left Monday for Chicago where she will be matron of honor at the wedding of her sister, Miss Nancy Avery, and Rogers Fullabee tomorrow. The wedding will take place at 3:30 o'clock in the afternoon at the home of Miss Avery's parents, Mr. and Mrs. Sewell Lee Avery, 209 Lake Shore drive. Only the two families and a few close friends will be present at the ceremony and the reception following.

Mr. Follansbee, son of Mr. and Mrs. Mitchell Follansbee of Chicago, will be attended by his father. Among the guests will be the prospective bridegroom's sister, the Baroness Helmut von Erffa of Cambridge, Mass.

Mr. and Mrs. John Montgomery McTeer of Louisville, Ky., have returned home after a visit to their son and daughter-in-law, Mr. and Mrs. John M. McTeer Jr., 145 Pontiac trail, Kirkwood. The brother-in-law and sister of Mrs. John McTeer Jr., Mr. and Mrs. Marion L. J. Lambert, and their daughter, Miss Mary Carmen, Miss Florence Tierney will be her

sister's only attendant and Walter Baumstark will be best man for his brother, E. Philpot Curran will give his niece in marriage. A small reception will be given afterward at the Tierney home. The wedding will be quiet because of the recent death of Francis A. Baumstark, father of the bridegroom-elect, Mrs. Baumstark makes her home in Kirkwood.

The Baumstark-Tierney betrothal was announced last May at a garden party at the home of Miss Tierney's aunt, Mrs. Sol W. Gross, Curran House, Normandy.

Mrs. Elkin L. Franklin, 5391 Waterman boulevard, with her daughters, Miss Helen, Miss Jane and Miss Ruth, have returned from a vacation at Plymouth, Mass., where they had a cottage. On the way home they stopped at New York, where Elkin Franklin, Mrs. Franklin's son, is a cadet at the United States Military Academy. They attended one of the academy dances. Later they motored to Washington for a few days before returning to St. Louis.

Miss Jane and Miss Ruth will be students this year at the Convent of the Sacred Heart.

Mrs. August A. Busch Jr., 5577 Lindell boulevard, is visiting in New York.

Miss Jane Westphalen, daughter of Mr. and Mrs. William J. Westphalen, 6383 Pershing avenue, entertained yesterday morning at a breakfast at her home in honor of Miss Constance Ann Cleary of Sevens Gables, Ponca City, Ok. Miss Cleary stopped off here for a day and, with Miss Westphalen, left today for Sweet Briar College in Virginia where they will both be students. The past summer Miss Westphalen spent with her parents touring New England and the Northeast coast.

Mrs. Theodore Moreno, 24 Brentmore park, is expecting as her guest the first of October, her sister, Mrs. George Pascall of Portland, Conn.

Mrs. Theodosia Holland of Hotel Kings-Way has returned from a summer visit in the East.

Dr. and Mrs. Roland M. Klemme of the Oxford apartments returned home a few days ago from a two weeks trip West. They went by train to Little Rock, Ark., where they joined Dr. and Mrs. F. O. Rogers and motored to Santa Fe and Carlsbad Caverns, N. M. At Santa Fe, where they attended the fiesta, the party was complimented at cocktail parties and dinners.

Miss Alice Colt Day of Hotel Kings-Way has just left Magnolia, Texas, and is now visiting New Orleans. She will go to New York before returning to St. Louis next month.

Mrs. Oscar Johnson, 38 Portland place, has as her guest for a few days, her son-in-law, Malcolm W. Moss of Berkeley, Cal. Mr. Moss will go from here to Texas to spend some time before returning to Berkeley.

Mrs. Johnson's sister, Dr. Anne Walter Fearn of Shanghai, left today for New York where she will spend about two weeks. Then she will go to Chicago, then to Seattle, Wash. Later she will be the guest of Mr. and Mrs. Moss at Berkeley. She will return here before going to Washington where she plans to make her home. Dr. Fearn and Mrs. Johnson recently returned from Holly Springs, Miss. and in a few days Mrs. Johnson plans to go back there. Her son, Oscar Johnson, will be home the first of November from Berkeley where he has been spending the summer.

Miss Margaret Pendleton, daughter of Dr. and Mrs. J. R. Pendleton, 5771 Waterman avenue, whose marriage to Kenneth Robert Case will take place Saturday, will be attended by her sister, Miss Clara Pendleton, as maid of honor. Mrs. Graham Torrance Flint will be matron of honor and a member of the Alpha Xi Delta sorority. Mr. Eicks is a graduate of the University of Iowa. He is a brother of Mrs. William Sling, 7036 Amherst avenue.

Thomas F. Neill, son of Mr. and Mrs. Harry G. Neill, 4225 Maryland avenue, left last week for South Bend, Ind., where he will enter the graduate school of Notre Dame University. Mr. Neill was graduated in June from the College of Arts and Sciences of St. Louis University, and was awarded a scholarship to Notre Dame.

Mrs. Bessie Bown Ricker, 5788 Pershing avenue, has gone to Chicago to spend two weeks visiting relatives.

Dr. and Mrs. J. D. White, 6909 Washington boulevard, are expecting as their guests the last of the week, Dr. and Mrs. William Rector Smith of Shanghai, China. Dr. and Mrs. Smith are now visiting Lincoln, Neb.

Mrs. Sarah Frank and her sister, Mrs. Simon Lewis, have returned to Hotel Kings-Way after spending the summer in Chicago.

Mrs. F. W. Sneed of Hotel Kings-Way has returned home after a vacation at Atlantic City, N. J.

Students from St. Louis at Mount Holyoke College this year include: Miss Dorothy L. Cabell, daughter of Mrs. Dorothy Matteson Cabell, 5160 Waterman avenue; Miss Francelle R. Wohl, daughter of Mr. and Mrs. David P. Wohl, 6400 Forsythe boulevard; Miss Margaret and Miss Virginia Frank, daughters of Mr. and Mrs. Simon Michael Frank, 7232 Greenwood avenue; and Miss Dixie Scott, daughter of Mr. and Mrs. Eric A. Scott, 7738 Maryland avenue. The term will begin tomorrow morning.

## BRITISH CONTROVERSY OVER DIVORCE LAW

Church Attacks Reform Act,  
Other Groups Seek Still Further Liberalization.

By the Associated Press.

LONDON, Sept. 22.—Controversy over Britain's divorce laws is continuing, with church leaders attacking the new law broadening the grounds for divorce, while other groups advocate still further liberalization to include habitual drunkenness and life imprisonment.

Not satisfied with the recent revolutionary changes in British divorce laws, including admission of cruelty, desertion and insanity as grounds for divorce, the Divorce Law Reform Union wants "additional facilities for reasonable and equitable divorce."

Leaders of the Church of England, refusing to accept the principles of the new divorce laws, are expected to challenge with still more vigor any campaign for further changes.

Explains Cruelty.

A. P. Herbert, member of Parliament and author of the new divorce act, returned to the controversy in a broadcast analysis of the provisions of the new bill. He argued that cruelty as a ground for divorce under the new act does not mean "Hollywood or Reno cruelty."

"Legal cruelty has been strictly defined by the English courts for a very long time as 'conduct of such a character as to have caused danger to life, limb or health (bodily or mental), so as to give rise to a reasonable apprehension of such danger.'"

"But danger to mental health does not rightly or wrongly include mental cruelty. That is, in my opinion, no one will be able to get a divorce because a husband spends too much time fishing, or a wife becomes a film star, and so on."

Preparations are being made for handling the extraordinary rush of applicants for divorces which is expected when the new Matrimonial Causes Act goes into effect in January.

Last year the courts rejected 22,000 formal petitions for divorce on grounds which, after Jan. 1, will be acceptable. The Liverpool Diocese Review, edited by the Bishop of Liverpool, as a guide to the increase in divorces expected, states that "there are in this country not fewer than 150,000 men and women who are married but legally separated—divorced in all but name."

So far church leaders have flatly refused to accept as church practice any of the divorce reforms approved by the state. Fundamental church law on the question of marriage and divorce remains the same.

Individuals, clergy are expected to interpret the new divorce laws differently, but on the whole it is expected that persons divorced under the new rules will not be permitted to remarry by the church nor admission to communion.

More than ever before, it is pointed out, individuals seeking divorce will have their choice between adherence to church laws or acceptance of the laws of the state as regards marriage or divorce.

## NURSERIES ON SOVIET TRAINS

Attendants Provided to Look After Traveling Babies.

LONDON, Sept. 22.—Nurseries are included in all the newly-built trains of the Soviet Union, with trained nurses to look after the babies, who travel in small bunks arranged along the walls.

All large railway stations are being fitted with facilities for children. Kindergarten, nurseries and rest rooms furnished with cots are provided by the railway, so that mothers may leave their children while waiting for a train or shopping.

## D'ANNUNZIO HEADS ACADEMY

Mussolini Names Him to Post as Successor to Marconi.

ROME, Sept. 22.—Premier Mussolini today named Gabriele D'Annunzio President of the Royal Academy to succeed the late Guglielmo Marconi. The appointment means that the famed poet-patriot will again be seen in Rome, after a decade of only rare appearances.

Mussolini also appointed Marcello d'Amico, a veteran of the Ethiopian campaign, to be President of the National Council of Research, another of Marconi's posts.

## FUNERAL OF JUSTICE HERRICK

By the Associated Press.  
FARMER CITY, Ill., Sept. 22.—Funeral services were held here yesterday for Justice Lott R. Herrick of the Illinois Supreme Court.

Among the honorary pallbearers were Gov. Henry Horner, Chief Justice Paul Farthing and the other five Justices of the State Supreme Court, Attorney-General Otto Kern, State Superintendent of Schools John A. Wieland, and United States Senator William H. Dieterich.

Students from St. Louis at Mount Holyoke College this year include: Miss Dorothy L. Cabell, daughter of Mrs. Dorothy Matteson Cabell, 5160 Waterman avenue; Miss Francelle R. Wohl, daughter of Mr. and Mrs. David P. Wohl, 6400 Forsythe boulevard; Miss Margaret and Miss Virginia Frank, daughters of Mr. and Mrs. Simon Michael Frank, 7232 Greenwood avenue; and Miss Dixie Scott, daughter of Mr. and Mrs. Eric A. Scott, 7738 Maryland avenue. The term will begin tomorrow morning.

## LIFE TENURE PROPOSED FOR PRESIDING EPISCOPAL BISHOP

Report Says "This Church Needs Visible Symbol of Its National Unity."

NEW YORK, Sept. 22.—A recommendation that the presiding Bishop of the Episcopal Church in the United States be given a life tenure, along with increased powers, will be submitted to the general convention of the church which opens in Cincinnati Oct. 6.

The report of a joint committee of bishops, priests and laymen, made public last night, suggested that instead of the present three-year term of office, the presiding Bishop should be elected to serve until a fixed retiring age of 70 years.

The report also recommended that a presiding Bishop surrender the jurisdiction of his diocese to a Bishop-coadjutor, so that he would be able to devote his entire attention to the national church.

"In reply to those who question the advisability of making any changes at all," the report said, "we would say that this church needs, increasingly, a visible symbol of its national unity."

The committee advocated the appointment of a commission of bishops, presbyters and laymen to study the matter of a primatial see for the presiding Bishop, suggesting the possibility of such see in the diocese of Washington.

## ROOM-SIZE 'IRON LUNGS' URGED BY THEIR INVENTOR

Would Permit Easier Treatment of Infantile Paralysis Patients, He Says.

NEW YORK, Sept. 22.—Room-size "iron lungs" are advocated by Fred Philip Drinker of the Harvard School of Public Health, who, with L. A. Shaw, invented the present type of respirator eight years ago.

The room would be easier on the infantile paralysis patient than lying in one spot in the narrow, five-foot-six-inch long metal barrel, the iron lung of today, which encloses the body up to the neck, he said.

An important advantage of the room-size respirator, he says, is that the physician can enter it to minister to his patient.

Prof. Drinker has built one such room, at the children's hospital, in Boston, to hold four patients. Doctors and nurses enter it through a double door. They notice no sensation out of the ordinary except a slight pressure in the ears, as the air of the whole room alternately becomes light and then returns to ordinary air pressure. Each room, he says, could accommodate eight patients. He thinks rooms will be cheaper in the end than separate "iron lungs," which cost nearly \$1000 each.

## DINNER TO HONOR BISHOP

Testimonial Under Auspices of St. Louis Chapter of K. of C.

The Most Reverend C. Schulte, who was consecrated Bishop of Leavenworth, Kan., yesterday, will be guest of honor at a testimonial dinner next Monday evening at 7 o'clock at the York Hotel, Seventh and Market streets.

The dinner is under auspices of the St. Louis chapter, Knights of Columbus. The new Bishop will be installed at the Leavenworth Cathedral next Wednesday.

The deSmet Carbons Home Again. Mr. and Mrs. Leo deSmet Carbon have returned to their home in Huntley Village after a vacation trip to Canada, which was interrupted by an automobile accident near Grafton, Ontario. Both were injured in a head-on collision and were treated in a hospital at Coburg, Ontario. A child riding in the other car was killed.

That Thought of Tomorrow!  
OVER 60 million people have given heed to it in many life insurance policies.  
This is the largest subscription to a single commercial idea this country has ever known.  
In each instance it brought the spectre of the inevitable very closely. Yet life continued its accustomed pace.  
With the same momentary chill, wills are made, trusts are created; in various ways dependents are provided for. And when the job is done it is a relief—and a worry is dismissed.  
But what of the wife who may have to see to her husband's funeral?  
THE ROBERT J. AMBRUSTER PRE-ARRANGED FUNERAL PLAN  
This is her salvation. Indicated by the husband himself, everything is provided for—the casket, the vault, the services, and the cost. Nothing is overlooked.  
And what trouble, what distress and what uncertainty are spared her!  
If, therefore, a man has done all else to protect his wife and foster her living, surely this is That Thought of Tomorrow to which serious attention should be given.  
Let us counsel together on this. Interviews are entirely confidential. Call CAbany 2522 for an appointment.

# STOCK MARKET

## COMMODITY INDEX AVERAGES

## NEW YORK STOCK MARKET

## ST. LOUIS STOCKS

## SEPTEMBER CORN

## INDUSTRIAL SITUATION

## WEEKLY WEATHER SURVEY

## WALL STREET BRIEFS

## TURPENTINE, FLAX, LINED OIL

**SENTIMENT AIDED SOMEWHAT BY BETTER MARKETS IN EUROPE BUT MANY STOCKS ON UPTURN ARE BESET BY PROFIT SELLING.**

NEW YORK, Sept. 22.—Many stocks ended a recovery move of the previous session in today's market, but most found the going slow and beset with profit selling difficulties.

It was an "up-and-down" day, with leaders ahead fractions to 2 or more points one minute and unchanged to lower shortly afterward. There were numerous wide gaps between bids and offers.

Bombing of New York by the Japanese, brokers said, chilled the buying urge of some customers who were apprehensive of international complications in the event embassies in the Chinese capital are damaged and foreign lives lost.

While sentiment was aided somewhat by better markets in Europe and higher copper prices abroad, there was nothing particularly stimulating in domestic business news.

A few steels and rails exhibited renewed strength, but others in the same categories were in the losing division. Steel, well as stocks, were uneven at the close.

Transfers were around 800,000 shares.

**September Corn Up 8c.**

Commodities were mixed. Another "squeeze" in September corn at Chicago shot that future up 8 cents a bushel, the limit permit for the spot month. Other corn contracts ranged from 1/2 to 1/4 higher. Wheat was unchanged to 1/2 higher.

Pittsburgh Steel common shares stepped up more than 3 points and the preferred gained 2 on approval by stockholders of the concern's recapitalization plan which would eliminate arrangements on the senior stock.

Others on top most of the time included U. S. Steel, Bethlehem, Youngstown Sheet & Tube, Santa Fe, N. Y. Central, Great Northern, Chrysler, Motor Vehicle, Mack Trucks, Woolworth, Deere, American Telephone, Consolidated Edison, Anaconda, Magna Copper, American Smelting, St. Joseph Lead, National Lead, Phelps Dodge, American Sound, Allied Chemical, American Can, Loew's, Allis Chalmers, Coca-Cola, Crown Cork and Borg Warner.

Douglas Aircraft lost 5 points or more at the work, after a move to give ground to Boeing, United Aircraft, United Airlines, Ludlum Steel, Republic, Goodyear, J. I. Case, Oliver Farm, Caterpillar Tractor, Amrad, Da Pont, Phillips Petroleum, Northern Pacific, Nickel Plate, Chesapeake & Ohio, Public Service of N. J., Western Union, Brooklyn-Manhattan Transit common and preferred, Commercial Credit and U. S. Pipe Foundry.

Leaning forward at the end were Monsanto Chemical, Hercules Powder, Lima Locomotive, Mead Corporation, Inland Steel and Eastman Kodak. Other offside were Philip Morris General American Transportation, American Chicle and Libby-Owens.

At mid-afternoon the French franc was off 0.04 of a cent at 44 1/2 cents. Sterling was 1/4 of a cent lower at 48 1/2 cents. Cotton yielded 5 to 20 cents a bale.

**News of the Day.**

Pere Marquette prior preferred stock, on its first since last week, jumped 3 points following action of directors in wiping out \$10 a share of accumulations on the issue and paying the regular quarterly dividend of \$1.25.

**U. S. TRADE WITH WORLD MARKETS UP IN 7 MONTHS.**

**WASHINGTON, Sept. 22.—**The United States increased its trade with all world markets during the first seven months of this year.

**WASHINGTON, Sept. 22.—**The Securities Commission reported today these transactions by customers with odd lot dealers or specialists on the New York Stock Exchange for Sept. 21: 6802 purchases involving 169,184 shares; 6298 sales involving 141,931 shares.

**FOREIGN MARKETS AT A GLANCE.**

**LONDON, Sept. 22.—**There was a continued good demand for securities and commodities, and the stock market moved higher. The industrial group was exceptionally strong, with tobacco, rayon and chemical shares in good demand. Mining and oil shares came from the fore, and foreign bonds remained steady, while Trans-Atlantic eased after early firmness.

**NEW YORK, Sept. 22.—**Total stock sales today on the New York Stock Exchange amounted to 739,280 shares, compared with 981,500 yesterday, 1,433,140 a week ago and 1,483,670 a year ago. Total sales from Jan. 1 to date were 989,929,295; compared with 345,098,296 a year ago and 228,193,426 two years ago.

Following is a complete list of transactions giving sales, high, low and closing prices:

## Use Your Bank Account to Establish Your Personal Credit

- That is what you do when you bank with Industrial. Regular depositors, both checking and savings, are establishing credit where they can borrow over long terms and under many plans, some requiring only their unsecured note.
- While it is not necessary to bank with Industrial to insure a line of credit, a bank account goes a long way toward making the owner eligible for a loan on his unsecured note.
- There are other advantages, too... most convenient banking hours... 2% on savings... the Popular Checking Account requiring no minimum balance or monthly charge... regular checking account service for those who prefer it... and deposits insured in full to \$5000 by the Federal Deposit Insurance Corporation.

Bank with Industrial! It Pays.

## A LETTER TO A CITY THAT WANTS TO BE CLEAN

Dear St. Louis:

Here is the solution of your smoke problem that has been troubling you for so many years.

Burn Superwashed Zeigler Coal. It's wonderfully pure to start with, but the people who mine it are not satisfied with its inherent purity. Two years ago they built an enormous bituminous coal cleaning plant—the largest in the world. Here, by a patented process, all loose impurities and dust are removed with sand and water.

It's surprising what a hot fire this highly refined clean coal makes. More surprising still is the scarcity of smoke, soot and ashes. That's because there's so little waste. And because economical.

So, quit worrying about your smoke problem. Dear old St. Louis. Burn Superwashed Zeigler Coal properly and you've got it licked.

Yours for a clean face,  
A Real Friend.

### Stoker Owners ATTENTION!

#### SUPER-X 'The Perfect Stoker Coal'

Specially prepared to give utmost satisfaction in domestic stokers by washing, and treating with a thin protective coating of wax which makes Zeigler Super-X dustless, and keeps it dustless. In addition, it's scientifically sized for perfect combustion.

Your neighborhood dealer can supply you with Super-X from one of our many conveniently located yards.

Order from your neighborhood dealer, or

### ZOO ELEPHANT QUILTS GIVING DAILY FREE RIDES

'Miss Jim,' Estimated to Be 70 Years Old, Now Carries Only Her Keeper.

'Miss Jim,' the elephant which St. Louis school children bought and donated to the Zoo 22 years ago, has been relieved of her job of giving daily free rides to Zoo visitors.

During the summer the number of rides has been gradually cut down and there will be no more, except on rare occasions. Zoo Director George P. Vierheller estimates that Miss Jim is 70 years old.

The elephant still takes a daily walk around the Zoo grounds, however, carrying her keeper.

### CONSTITUTIONAL PLEA IN DEFENSE OF CUSSING

Lawyer Insists Client Had Right to Swear Around, M Not at, Officer.

The constitutional right of a citizen to swear at an officer was asserted in Police Court yesterday by counsel for Joseph A. Bussmann, manager of the Bussmann Manufacturing Co., charged with obstructing an inspector of the Bureau of Weights and Measures by using profane, derisive and insulting language.

The lawyer, David E. Horn, cited Article II, Section 14, of the Missouri Constitution which provides that "no law shall be passed impairing the freedom of speech."

Bussmann, a stocky, vigorous man in his 40s, readily admitted that he had used violent language Sept. 1, when inspectors sealed a large uncompleted scale which he said was used only for weighing scrap about the electric fuse manufacturing plant at 2536W University street, but he allowed himself a fine distinction.

"I wasn't swearing at them," he said, turning toward the court. "I was just swearing around them."

Inspectors Louis Webber and John McAteer questioned Bussmann's sense of direction.

After dismissing charges of resisting an officer and using an unlicensed scale and unlicensed weights, Judge Ruddy expressed surprise at the unprecedented appearance of a constitutional issue in Police Court. He did not pass on the question but he obviously was impressed at Bussmann's indignation at having his honesty impugned.

"There seems to have been a lack of understanding about the use to which the scales were put," Judge Ruddy remarked as the one-hour hearing drew to a close. "Mr. Bussmann's profanity appears to have been provoked by an understandable misunderstanding," he added, ordering the case dismissed.

### ST. CHARLES BOARD OF WORKS HEAD WITHDRAWS RESIGNATION

Walter C. Hueffmeier Declares He Is Still Willing to Serve.

Walter C. Hueffmeier, president of the St. Charles Board of Public Works, yesterday filed at the office of the City Clerk a letter repudiating his resignation which had been received several hours earlier in the day.

Hueffmeier, a baker, stated that he understood two other members of the board, Theodore Willbrand and Emil Heltgerd, were to have sent in their resignations, but that they had failed to do so. He said he had been induced to sign the resignation by R. M. Thomson, newspaper editor, and Dr. George W. Tainter, both of whom are active members of the Municipal League, which is sponsoring municipal ownership of the lighting plant. F. C. Baker, vice-president of the board, resigned two weeks ago, asserting that the board had failed to carry out the mandate expressed in the April election, when a municipal ownership ticket was elected.

### WOMAN TAKEN TO HOSPITAL AFTER OVERDOSE OF SEDATIVE

Mother of Two Said She Couldn't Sleep Since Husband Confessed He Killed Walchman.

Mrs. George Howarth, whose husband has admitted that he killed Frank W. Dressler, a fellow workman at the St. Louis Steel Casting Co., 100 East Mott street, was taken to City Hospital last midnight suffering from an overdose of a sedative.

She said she had been nervous after she suffered a head injury in an automobile accident two months ago and had been unable to sleep well since her husband "got in trouble." She is mother of two children and resides at 5801 South Broadway. Dressler died Sunday of a skull fracture suffered last Friday at the steel plant. Howarth admitted to police he had slugged Dressler to prevent him from repeating an accusation he had stolen gasoline from the company. He denied stealing the gasoline.

### PUBLIC MEETINGS AND ENTERTAINMENTS

A. O. Eberhart, former Governor of Minnesota, will address a luncheon meeting of the Kiwanis Club at Hotel Statler tomorrow at 12:15 p. m. His subject will be "The American Home."

Frank Morris, chief clerk of the St. Louis Probate Court, will discuss "Procedure in the Probate Court" before a luncheon meeting of the North Side Optimist Club tomorrow at noon at the Norwood Hills Country Club.

A luncheon meeting of the North Side Kiwanis Club will be held at noon today at Fairgrounds Hotel. Moving pictures in color of Herschel Island, inside the Arctic Circle, will be shown by C. W. Godfrey.

Man Burned to Death in Truck.

Special to the Post-Dispatch.

PANA, Ill., Sept. 22.—Arthur Eckels, laborer, was burned to death last night in a truck at the city limits near a tavern. Police said no one could give any explanation as to the manner in which the man met his death. The truck was destroyed and people fled from the tavern. Eckels was blind.

## WELL, I'LL TELL YOU—By BOB BURNS

IN SPITE of the fact that I wrote an article not long ago in defense of the younger generation, it looks like the question ain't settled yet. They are still sayin' "What in the world is the younger generation comin' to?" The other night me and my wife attended one of those playful little informal parties that last until pret' near breakfast time and I got to talkin' to one of them modern mothers who is always worryin' about the late hours her children

keep, and about three o'clock in the morning the lights was burnin' in her house and so we went in with her. Sure enough her youngest daughter was sittin' up, readin'. The mother says, "What in the world are you doing up at this hour of the morning? Surely you weren't waitin' for me?" The little girl says, "No, mama, I knew you'd be all right, but I thought someone oughta wait up for grandmaw."

## SPANISH LOYALISTS ENTERING SHELL-TORN BELCHITE

Advancing cautiously, these Spanish Government soldiers are taking over the city of Belchite, on the Aragon front, following its capture from the rebel forces. —Wide World photo.

## PLANE AND PILOT TAKING DEATH PLUNGE

The above picture was made the instant before an English plane crashed in Yorkshire during the British King's Cup Air Race. One of the flyers can be seen as he was thrown into the air when the ship was caught in a squall. He somersaulted to earth down the side of the castle wall in the foreground. Both Pilot E. G. Hilton and his friend Wing Commander Percy Sherren were killed. Below is the wreckage of the plane, which cleared the wall of Scarborough Castle and crashed nearby.

## Precautions For Safety in School Sports

Physical Condition Should Be Checked—Restrictions Not Essential.

By Logan Clendening, M. D.

ATHLETIC injuries, especially on the football field, are preventable to a considerable extent. As has been pointed out here in previous years, the proportion of injuries in college and university football is far smaller than in secondary schools. The reason is plain: that the higher schools have more careful and more experienced trainers, and they exercise more control over their athletes.

The little boy should go into football very slowly and by degrees, only as he gets hard. Young bones and tendons are fragile and stretch, and then sometimes snap. Thorough preliminary training is a requisite too often neglected in the lower schools, or in little boys' football teams. There, too, the tendency for players to keep on, after they are exhausted, leads to many unnecessary injuries.

The concept of safety in athletics does not call for the restriction of those spectacular feats which constitute the fascination of sport for the spectator and player alike. On the contrary, it embodies those tested precautions which enable a player to perform in the most spectacular and effective fashion, with ease and with less chance of being stopped by suspended, impaired or playing.

The first consideration is the player's condition. Proper condition means better co-ordination, which tends to prevent injuries, as well as the ability to withstand strains better and resistance to complications. A thorough medical examination is, of course, an absolute requirement before playing football or basketball.

If a player loses weight or tire easily, this calls for a very special medical examination. If a player falls sick, he should recondition himself gradually before he returns to play, starting with short periods of mild exercise.

Next in importance to training are protective devices. The one device which is universally recognized for every player of every sort is the athlete's supporter.

Strapping with adhesive plaster and bandaging with or without pads of various kinds, are important and effective measures. Strapping and bandaging weak spots, such as the knee and ankle, before entering playing, may prevent long invalidism.

Other protective devices, such as sliding pads, head guards, shoulder pads and masks vary with the game and position played. Most players know what their individual play calls for, but sometimes one will neglect to provide it. This is particularly true of secondary school football, on account of the expense of these devices. But they pay for themselves in the long run.

Parents should particularly insist on proper safety precautions for secondary school football players, because that is where most of the injuries occur.

Editor's Note—Seven pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a 3-cent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diets," "Feminine Hygiene," and "The Care of the Hair and Skin."

## IF YOU ASK MY OPINION

By Martha Carr

Dear Mrs. Carr: HOPE you will find time and space for the following questions:

1—Is "jealousy" often a misnomer? 2—Is this word often used by those who wish to cover up their own transgressions? 3—Who is the head of the table, the husband or wife? 4—Hasn't the second wife the same rights in the home as the first wife? 5—Who should speak first, the one entering the room or the one already in the room? 6—Are stepchildren shown great consideration when they stay out of the kitchen, allowing her to manage to suit herself? 7—Isn't it the wife's place to manage the house? 8—Should a step-daughter sit in the front seat with her father or his second wife? 9—Is it unkind or abusive for a step-mother to insist upon children being orderly, putting things back in their proper places outside their own rooms? 10—Is it right for children, college graduates to clutter up dining table chairs with their coats, hats, etc., when they enter the room? 11—Should a person who interrupts people at their work or in their conversation to get his own word in, and looks about him for glances of admiration from the other pupils, thinks he is smart. Other folk, those who come for most in his life, have decidedly different opinions. They think him stupid and when occasion offers, say so.

It is stupid to be selfish. The pupil who gets out of line and pushes someone else out of his way in order to be served first; who takes four sheets of drawing paper when two are his allowance; who shoots down stairs three steps at a time when others are making their way down in regulated fashion; who insists upon the instructor's seeing his paper first, attending to him first, making an exception in his case always, and fancies that he is the center of admiring glances from those not so smart, is mistaken. He is being stupid because those who have been inconvenienced by his selfishness are united in their opinion of him. They dislike him and all his ways, and some day he is going to feel the weight of that dislike.

THERE is always the temptation to say the bright smart thing, to astound the teacher or confound the conventional relative with the latest catchword, but it is a mistake to be too smart. Many people have been bitterly sorry for the smart bright things they have said, but comparatively few have been sorry for not saying them. Once a thing has been said, it is an indelible record of your short-sighted, selfish, shallow mind. The shallow mind allows its tongue to condemn it. The mind that thinks through a situation before expressing itself, respects the mistake of saying the wrong thing brilliantly.

Sharp, sparkling words hurt people. People are hurt often enough in the routine of daily living, and they resent unnecessary wounds, especially from those to whom they look for friendship and co-operation. Nobody, and this applies more particularly to the young than to the rest of us, can live successfully without the co-operation of other people, beginning with those closest to us. If for no other reason, selfishness should put a guard on the tongue.

But there ought to be other reasons quite as compelling for soft speaking, for gentleness and consideration of other folk's opinions and feelings. If for no other reason, I should make gentle one's manners and one's speech. It is smart to be smart, but it is smarter not to be too smart.

Cordially yours, Angelo Patri.

Angelo Patri has prepared a special booklet (No. 301) entitled, "Obedience," in which he tells parents how to get a better education than they are getting. Send for it, enclosing 10 cents. Address your request to Mr. Angelo Patri, The Bell Library, in care of this newspaper, 247 West Forty-third street, New York, N. Y.

The same line. Each mentioned that she was being pushed something terrible by other young men, and in the same evening hinted that they would like to have me help them pass away the time, acting as if they were a little lonely.

Am I to assume that these statements, which are somewhat contradictory, are both hints that they want more of my company? Was the intention of the first to arouse my envy and make them seem more important and desirable—and was the second, a plea for sympathy and probably more truthful? I, for one, am not always intrigued by feminine indirectness, but it is generally stimulating if not carried too far.

I should say that your sense of humor and general knowledge of what is known as the "gold digger" is quite sufficient for you to be able to answer these profound questions for yourself.

Letters intended for this column must be addressed to Martha Carr at the St. Louis Post-Dispatch. Mrs. Carr will answer all questions of general interest but, of course, cannot give advice on matters of a purely legal or medical nature. Those who do not care to have their letters published may enclose an addressed and stamped envelope for personal reply.

## Open Letter Of Advice to Boys and Girls

By Angelo Patri

"There Is Such a Thing as Being Too Smart to Be Intelligent."

DEAR boys and girls: I wish I could say something to you that would help you to see that there is such a thing as being too smart, too clever, to allow of being intelligent at the same time. Being intelligent is the highest state of being for you, and sometimes you let your craving for admiration overcome your intelligence and allow yourself to say or do something smart, too smart to be intelligent.

It is stupid to be ill-mannered. Manners bear close relations to morals, to character. The young person who forgets to stand until his teacher first sits down; who enters the assembly room chewing gum; who interrupts people at their work or in their conversation to get his own word in, and looks about him for glances of admiration from the other pupils, thinks he is smart. Other folk, those who come for most in his life, have decidedly different opinions. They think him stupid and when occasion offers, say so.

It is stupid to be selfish. The pupil who gets out of line and pushes someone else out of his way in order to be served first; who takes four sheets of drawing paper when two are his allowance; who shoots down stairs three steps at a time when others are making their way down in regulated fashion; who insists upon the instructor's seeing his paper first, attending to him first, making an exception in his case always, and fancies that he is the center of admiring glances from those not so smart, is mistaken. He is being stupid because those who have been inconvenienced by his selfishness are united in their opinion of him. They dislike him and all his ways, and some day he is going to feel the weight of that dislike.

THERE is always the temptation to say the bright smart thing, to astound the teacher or confound the conventional relative with the latest catchword, but it is a mistake to be too smart. Many people have been bitterly sorry for the smart bright things they have said, but comparatively few have been sorry for not saying them. Once a thing has been said, it is an indelible record of your short-sighted, selfish, shallow mind. The shallow mind allows its tongue to condemn it. The mind that thinks through a situation before expressing itself, respects the mistake of saying the wrong thing brilliantly.

Sharp, sparkling words hurt people. People are hurt often enough in the routine of daily living, and they resent unnecessary wounds, especially from those to whom they look for friendship and co-operation. Nobody, and this applies more particularly to the young than to the rest of us, can live successfully without the co-operation of other people, beginning with those closest to us. If for no other reason, selfishness should put a guard on the tongue.

But there ought to be other reasons quite as compelling for soft speaking, for gentleness and consideration of other folk's opinions and feelings. If for no other reason, I should make gentle one's manners and one's speech. It is smart to be smart, but it is smarter not to be too smart.

Cordially yours, Angelo Patri.

Angelo Patri has prepared a special booklet (No. 301) entitled, "Obedience," in which he tells parents how to get a better education than they are getting. Send for it, enclosing 10 cents. Address your request to Mr. Angelo Patri, The Bell Library, in care of this newspaper, 247 West Forty-third street, New York, N. Y.

The same line. Each mentioned that she was being pushed something terrible by other young men, and in the same evening hinted that they would like to have me help them pass away the time, acting as if they were a little lonely.

Am I to assume that these statements, which are somewhat contradictory, are both hints that they want more of my company? Was the intention of the first to arouse my envy and make them seem more important and desirable—and was the second, a plea for sympathy and probably more truthful? I, for one, am not always intrigued by feminine indirectness, but it is generally stimulating if not carried too far.

I should say that your sense of humor and general knowledge of what is known as the "gold digger" is quite sufficient for you to be able to answer these profound questions for yourself.

## HOLLYWOOD'S MARRIAGE MYSTERY

Even Little Constance Worth Can't Tell Why Her Husband, George Brent, Wants an Annulment.

By Marjorie Driscoll

HOLLYWOOD, Cal., Sept. 22.

YOU'D be surprised if you knew the real reason behind the annulment troubles of Constance Worth and George Brent.

In her sunny apartment, high above the turmoil called Hollywood, which looks so incomprehensible to Australian eyes, Constance Worth read that paragraph in a gossip column and smiled a trifle wryly.

"I'd be surprised myself—I really would," she said.

For, said the young film actress with the tumbled golden hair and the shy smile, rather like a bewildered little girl suddenly plunged into a strange world, she has been trying desperately ever since her first and only romance went on the rocks, to find out what it is all about—and she still doesn't know.

And neither does the world at large. It all began when Miss Worth came from Australia nine months ago to act for American films, and met George Brent, Irish actor, whose name has often been linked with that of Garbo in the gossip columns.

"I was lonely," Miss Worth says today. "Everything was a strange and so different. I didn't care much for parties and all that sort of thing."

And then I met Mr. Brent—and, for the first time, I believed I had someone who—well, every girl who believes she has met the right man will understand what I thought."

In her Australian girlhood, Constance Worth had inevitably dreamed of romance and marriage with all its stately beauty, a white veil and a wedding gown, a honeymoon, a home to be built together.

Instead of the wedding of which Constance Worth had dreamed, there was a hurried dash across the border to Tijuana last May 10, a ceremony that lacked any semblance of formality, a rush back to work.

"Mr. Brent suggested Tijuana because he didn't want all the publicity that Hollywood wedding means," she said. "Reporters and photographers and people crowding around. And neither did I."

All she knew about Tijuana was that it was somewhere just across the line in Mexico, where a couple could be married without delay.

Nothing about the wedding—except that she was marrying the man of her choice—was like Constance Worth's dreams.

Her family couldn't be there. Most of them were still in Australia. Her mother couldn't cross the border, because she is here on a visitor's permit. Bride and groom had to hurry from location, stealing time to rush to Tijuana and back again. That same night, the bride had to return to work. And when she was free at last, the bridegroom was sent off on location.

They had just four days together. And, to cap it all, Miss Worth was injured in a studio accident and

## ON BROADWAY

By Walter Winchell

The Katherine DeMille-Donald Friede combine has a serious look about it. . . . Vicki Lester and William Parker's consistent dates are the McCoy, not for publicity reasons. . . . Andrea (Stage Door) Leeds' change of mind is why Arnold Kunoody is brooding. . . . The Japanese Ambassador keeps squawking to Sec'y of State Hull about the proposed evacuation of Japanese from Pasadena.

Hull refuses to influence the publishers about the matter. . . . Theodore Dreiser has switched litree agents, from George By to William Lengel, the former major editor. The Big Idea is to reduce the Budge 75 to go pro, but the star won't consider the idea until next winter.

The Bruce Cabot society woman romance item certainly aroused a lot of wrong-guessers. She's not an Easterner—from Pasadena, says Patricia Parker, who was sealed to a publisher's son last winter and divorced soon after, is dueting with Mrs. McLean's boy, Jack, in Washington. . . . The Bob Hagues (Mary Lewis, the opera canary) can't decide about their marital future. She's back from Yurp, dwelling on Fifty-seventh street solo. . . . Dorothy Mackall's Wal' street broker heart took the first plane to H'wood, after it was itemed she was about-towing with Mary Kins Brown's ex, Billy Seymour. The Seymour thing being strictly palstuff. . . . Virginia Felt, the coast eyeful, makes Vic Orsatt look so much happier. . . . Charles Morrison, the agent, and Pauline Craig, the movies, are a new and serious combination.

Add Star Is Born Stories: Billie Martin, cutest of the Brown Derby tray jugglers, has been given a part in "Rosalee," by Bill McGuire. . . . They are saying Winnie Sheehan, the backing Jack and Charlie in their new coast enterprise. . . . Joe DiMaggio's press agent is a lady named Dorothy Haas of the Fanchon & Marco firm. . . . Lou Holtz, the groom, says most H'wood people have been to the swimming pools, tennis courts, yachts, Rolls-Royces, and nobody to talk to! . . . Fred Perry, the tennisist, made 95 Gs from January to May.

Herbert Bayard Swope wishes it

known that the Mary Swope, who is melting from her groom, is no kin to him or Gerard Swope, as reports put it. . . . Al Van Arbelt, who scarcely needs it, inherits another 5,000,000 smackers at the end of the month. . . . Muriel Baker, of "The Show Is On," and her groom in the Lyman band have reached a momentous verdict. . . . Dr. H. Left and Shirley Zaglin will merge about Xmas. He's the former N. Y. U. basketball team captain. . . . Eve Symington resumes at the Waldorf's Set Room, Oct. 21. . . . Marjorie Feist, who divorced M. Nast in Reno about six weeks ago, and promptly wedded a coast writer, has him confused. She's gone, already!

Billie Burke wishes she had sold the Ziegfeld estate when she could (for 150 Gs.). . . . Just paid out another 35 thou in taxes and upkeep. . . . The Shanghai doings have cost 20th Century-Fox \$300,000 already. . . . If Walt Disney says okay, a radio sponsor will pay a dozen thousand smackers weekly for the Disney characters. . . . Another big air showman wants the Theater Guild—and its repertoire of plays. . . . Dorothy Martin and Virginia Howard were the victims of stickup men. . . . Meredith Howard is okay after a severe crash near Arrowhead. . . . Hellinger will act for Warner's.

Reginald Gardiner and Colleen ("Johnny") Clare are a-hem! . . . Oscar Levant, who distinguished himself at the Gershwin Memorial concert—can't get a job. . . . He only ran away with all the medals! . . . Antina of D. Selznick assured that Miriam Hopkins and La Bankhead are not being considered for any role in "Gone With the Wind." . . . Eddie Cantor, they figure, will tag \$400,000 from the profits of "All About Me." . . . After Mr. Whiskers takes his Cantor will wind up with 75 Gs. . . . John Torrence, the dancer, and Vivian Faye, the ditto, are sweethearts. The legends elsewhere that they had split, made them ache all over. . . . Leona and Hardy, the comedians, say they won't divide.

Francis Hennessey, the Cognac heir, is readying to marry Alphonzo Bell's daughter—Bell is one of the nation's biggest drys! . . . Maxine Smith, former Chicago movie critic, has a ring from Wayne Morris—she's coming to the coast to see him. Add heavy romances: Frances Maroll, the stocking model, and Frederick Nye, kin of the North Dakota Senator. . . . C. Feldman

## TOMORROW'S HOROSCOPE

by WYNN

For Thursday, Sept. 23.

DON'T be deceived by the apparent ease with which you may be getting by; such is a signal to try harder and get still better results. Today is one for putting on pressure to go further in the right direction. Make it pay.

Young and Old Souls. The fact that two old babies are born at the same place at the same time accounts for changes in horoscopes, however slight because of the nearness in time and place which does seem to occur. One is also always a younger soul, as it were, than the other and therefore has a very different set of lessons to learn from practically the same horoscope factors.

Your Year Ahead. Your year ahead brings creative, emotional, romantic, harmony and expansion, if born on this date, but tests in law, home, partnership, estate matters due—get straightened out. Danger: now to Nov. 4; Jan. 19-March 9; May 31-July 19.

Friday. Tendency to blow impractical bubbles; better in later hours. (Copyright, 1937.)

and Jean Howard will cancel the divorce and reconcile!

Sally Phelps and Rudy Field have split. . . . Mistinguett sends daily cables to Henry Wessels of the Plantation in Harlem. . . . Claire Keller and Walter Hagan of the upcity set, are an item. . . . Florence Calkins, mater of Pat Billis of the screen, and J. Watson Downes of New York were sealed at Tia Juana the other day. . . . Mr. and Mrs. Dickie Wells' marry-go-round has broken down. He's the Harlem midnight man. . . . The Frolics opened big, Joe Louis being the crowd-bait. . . . The Clarke Robinsons of the Essex House have separated.

EASE PAIN OF Sore Muscles

Do what "trainers" do—douse on penetrating Penorub to bring 10-second pain relief. Its analgesic action soothes muscular nerve strain. 35c, 60c, \$1, \$1.75 bottles. At druggists.

## A Dog Lobbies for Congressional Bill

By Albert Payson Terhune

BILL came up before a subcommittee in Congress, last spring, to grant free rides on all railroad trains to dogs which are used to guide the blind. The bill found favor with the subcommittee, largely through the "lobbying" of a big young police dog named Rex.

Rex's blind master, Dr. H. E. Clause, of Arlington, Va., was at the hearing as a witness. He brought Rex along. The dog lay most of the time, with a gently protective manner, at the feet of the master he had led into the committee-room. Once or twice wearying of the dull legal proceedings, he rolled on his back, waving his legs, and eying the committeemen roughly over the top of his head. He suffered angrily—no doubt because of the tone in his master's voice—as Dr. Clause told of having to ride with the dog in a baggage car, because Rex was denied a place in a Pullman compartment. Then, gravely, Rex got up and strolled across to Chairman A. L. Bulwinkle. He laid his paw on the chairman's knee and looked imploringly up into his face.

From first to last, the entire committee paid more attention to the dog than to anything or anyone else in the room. Rex had won all hearts. Incidentally, he won unanimous approval for the bill.

Potato and Shrimp Salad. Three cups diced boiled potatoes, one and one-half tablespoons chopped onion, three-quarters cup chopped cucumber, one jar shrimps, three hard-boiled eggs, one and one-half cups cooked salad dressing. Mix together lightly with a fork and serve on crisp lettuce leaves. A nice solution for the foursome bridge club.

Dainty Cookies. In making those dainty cookies for fall teas use orange juice in place of the liquid called for in the regular recipe. A little grated orange and lemon rind also will add a subtle flavor.

Dear Mrs. Post: How does a beauty shop operator address a customer when she doesn't happen to know her name? I am referring to the transient customer who asks to have some work done immediately and doesn't give her name. We would also like to know what the receptionist should call her when she turns her over to the operator.

Answer: Under these and all other circumstances, the proper way to address a lady or speak of her is "Madam," as "Please show Madam in the gray salon for a gardenia facial." Not "Show Mrs. c-r-a-s-h" or "Show this lady."

Dear Mrs. Post: I am a widow. My son, who bears his father's name, is going to marry soon. The thought of giving up my name, which has always made me feel nearer to the grand person who gave it to me years ago in these many years that I have been carrying on without him, makes me sad indeed. My son says he doesn't know any other way unless he again calls himself "Junior." Do you think it will be necessary for my son's wife and me to have some distinguishing change in a big city, in which we will live far apart?

Answer: Correctly, you add "senior" to your name, but in many cases, for the very reason you describe, the son continues to use "Junior." In any case, his wife's name must be the same as his. Legally, he has no right to junior after his father's death, and therefore its use could be a social one, only.

Dear Mrs. Post: My son has recently become an M. D. He had always written his name with a junior after it, since he was named for his father, who, I am happy to say, is still living. Since his father writes his name with the ordinary title "Mr.," should my son now write his name without "Junior?"

Answer: His name should be "John Harrison Smith, M. D." or else "Dr. John Harrison Smith Jr." The fact that he has an M. D. and his father uses "Mr." has nothing whatever to do with the suffix junior, which is an actual part of his name for so long as his father lives.

Dear Mrs. Post: What does one call a sister-in-law whom one seldom sees and didn't know at all before her marriage to my brother? Naturally, she seems little more than a stranger under the circumstances.

Answer: You call her by her first name—there is nothing else to call her.

BRITISH MUSEUM NOW HAS GENUINE TAYLOR CIGARETTE BUTT

Women in London trampled each other fighting for a cigarette butt tossed away by Robert Taylor. Women also attempted to snuff off pieces of his necktie for souvenirs.

HOLLYWOOD.—International financiers are holding secret conferences with film magnates in an effort to obtain rights to Robert Taylor's cast-off cigarette butts, which will be sold to museums and private collectors. It is believed that by preserving sound stages and dressing bungalow sleepings, the studios have a by-product that will mean a sharp increase in earnings.

LONDON.—A cigarette butt, said to be a genuine Robert Taylor, was presented to the British Museum today by an unidentified donor. It will be kept under glass and displayed on a velvet air-conditioned pillow.

PARIS.—A necklace, said to be made of cigarette butts supplied by Robert Taylor, was displayed today at the pre-Spring fashion showings.

I'd rather sit and think I think Than listen to the chatter Of clucks who think that what they think Can very greatly matter.

BULL-ETIN. Every well-dressed man, according to an announcement by the National Merchant Tailors' Designers' Association, should have seven evening suits in his wardrobe—including a red, blue or green kashmir suit for dinner at home.

At that, a red, blue or green kashmir suit for dinner at home wouldn't taste worse than the food some husbands get.

Little Willie gave the old man a clout And pushed him out of the rumble seat. Mother said, "Willie, what are you about? You mustn't throw rubbish into the street!"

—Marion Schmidt.

GOOD FEELINGS.

LEAVELL'S SIDE!

(From the Lamar (Mo.) Democrat) The Summit Come and Join Us Club met with Mrs. C. M. Hall Thursday. Mrs. John Phipps had charge of a very interesting program. First was a song by all. School Days. Mrs. Ed Bickford and Mrs. Ray Leavell tied on the telegram contest, so they drew straw. Mrs. Leavell winning, so she received a nice enamel ice box. Mrs. Ray Leavell's side won the biggest feat contest. Hurrah for big feet, sometimes they come in handy. They received a package of marshmallows to divide. Refreshments of watermelon, cookies and punch were served.

FAMOUS LAST WORDS

But surely, Mr. Stalin, you don't want to be arbitrary about it.

—Marion Schmidt.

BY PHILIP WYLIE

Irene Is Accosted by Charlie, a Curbstone Artist, Who Draws Her Picture—She Saves Him From Arrest.

### CHAPTER THREE.

NINETY-NINE girls out of a hundred, when accosted by a curbstone artist, would respond (depending upon their stations) with such phrases as, "No thank you," "Go peddle your papers," "Scram, Michael Angelo."

Irene's background and up-bringing were such, however, that upon being given a forceful command she almost automatically obeyed—especially when that command was backed up by eyes that held the same sort of assurance as Margit's.

She walked over to the easel.

As she walked, the artist continued to talk and to look at her. "There's a Mona Lisa in you—a little Garbo—and something all your own. Your hair curls naturally that way—a rare thing these days. He was sitting down on his camp stool. "Keep on holding your chin up." He began to draw. "Go peddle your papers," "Scram, Michael Angelo."

Irene's background and up-bringing were such, however, that upon being given a forceful command she almost automatically obeyed—especially when that command was backed up by eyes that held the same sort of assurance as Margit's.

## TODAY'S PATTERN

Comfortable

HERE'S the "wrap-around"—queen of comfy at-home frocks, and, when it's as flattering as style as Pattern 4567, it's one that bestows slender lines upon a too-plump figure! There's a bit of easy, pleasant stitching in store for you when you make up this dainty style, for even a "beginner" will find its simple seams easy to cut 'n' stitch in the briefest of time. Distinctive, indeed, is the button-side fastening and every busy house-maker will appreciate the ease with which this desirable frock of cotton is donned. Crisp ruffles (optional) outline unusual collar and pocket.

Pattern 4567 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Slip 36 inches 5 1/2 yards 36-inch fabric and 1 1/2 yards ruffling. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

Our NEW fall and winter ANNE ADAMS PATTERN BOOK just off the press! Order at once! Here are the "makings" of smart new frocks, a dashing new coat or suit, "career-girl" clothes, "at home" styles. Debs, Kiddies, Juniors! A SCHOOL PORTFOLIO just for YOU, complete with campus-to-kindeergarten styles, all easy-to-sew. Newest fabrics! Assorted! Budget gifts! Chic for the matron, too. BOOK, FIFTEEN CENTS. PATTERN, FIFTEEN CENTS. TWENTY-FIVE CENTS FOR BOTH WHEN ORDERED TOGETHER.

Send your order to St. Louis Post-Dispatch Pattern Department, 243 W. 17th St., New York, N. Y.

But not the policeman's. It was as if Keough, the butler, had suddenly told her that she had to do the dishes. After all the artist had paid her the compliment of wanting to draw her picture and now he was being arrested for it. Although Irene did not know it, there was a little of Margit in her.

She gave her silver for a belligerent alumnus and confronted the officer. "Just a minute."

He turned. "Move on, lady. Red spots came in her cheeks. 'I certainly will not move on! This isn't Russia! This is a free country! And that man is not a peddler.'"

"Maybe you'd like to go down to the station, too, lady."

Somewhat to the cop's surprise Irene answered, "I'd love to go down to the station to see you."

"Irene was angry, but she realized that she'd need better ammunition than rage to get out of this situation. She glanced toward Charlie for assistance but he was looking on with pleased impersonality.

The cop was hesitating over his next move. Finally Irene said, "See here! I commissioned this man to paint my portrait. I wanted a picture of myself walking down the street with a lot of people in the background so we came down here to make some sketches. I guess I've got a right to do it. See that skyscraper?" She pointed to the nearest one. It wasn't even the building in which Margit had her office. The cop agreed toward the edifice. "My uncle owns that one," Irene lied easily. "My aunt owns the one over there. All those little stores belong to my grandfather."

She was continued out of relatives, but she continued with her invention. "These Madison avenue buses are controlled by my nephew. He's four years older than I am. He's called the Bus King. Maybe you've heard of him. Stillwell B. Tracy. Have I or have I not the right to occupy a square yard of sidewalk?"

He stroled off, spinning his billy. Charlie, who had not assisted Irene in the defense of herself, now looked at her. She had expected a little gratitude and admiration. Instead his face was clouded with obvious disgust. "You make me sick," he said quietly and he began to fold up his easel.

Irene started. "I make you sick, do I? I save you from 30 days in jail and I run the risk of going to jail myself—and that makes you sick? I guess you're about the most unappreciative man I ever heard of."

He looked up from his packing. His voice was calm and his eyes were disdainful. "All you rich snobs. You think you own the earth. You don't mind humiliating anybody. For a minute I thought you were my dream girl. I must be a little bit nuts today. Toxemia. Well—run along to your uncle and your grandfather and your new secretary."

Irene gaped. "But I haven't any uncle or grandfather or nephew."

"Huh!"

"Only a sister."

"Sister?"

"I'm an orphan."

A great light came in Charlie's eyes. Under his arm he thrust his folded easel and his box of materials. Under the same arm he hooked his camp stool. His free hand

## "Change Rapid And Radical in World Today"

By The Rev. J. F. Newton

"T O us who live in less colorful times, John Paul Jones will always seem a strange, romantic figure."

The words were written by Edwin Starbuck, a great teacher, who is old enough and wise enough to know better—the man who wrote the first book on the psychology of religion ever printed.

Less colorful? My friend must be suffering from falling eyesight, if he thinks we are living in drab days. No time has ever been more colorful.

Of course, we may not LIKE the color scheme at times, but colors of every sort are splashed all over the canvas! It is a dazzling, thrilling time in which to live, if we have eyes to see.

The human race is on a trek, having decided, for good or ill, to make over its social, political and religious life. We are going so fast, and in so many directions, that we hardly know whether we are going or coming. At no time has change been so rapid and so radical.

Social and economic ferment is seething. One explosion follows another, here and there around the earth. History is being made all about us, faster than it has been made before.

The Russian adventure is stupendous. We may not agree with its idea, we may hate its spirit, but no one can deny that the effort to build human society on a new basis is exciting.

The vast mass movements of today are terrifying. We hardly know what to expect next, as old things are overturned and outmoded. It is a gigantic moving picture show.

Hardly a day passes that some discovery is not made, some adventure undertaken, some exploit achieved which would have made John Paul Jones gasp for breath and dislocate his jaws with wonder.

The time is, that we have too much color—it is laid on too thick. Wonders come so fast that we have well nigh lost our power of wonder. We live in the most colorful age in history.

"HMMMM. A FLAT TIRE—A SURE SIGN OF A BAD HOUSEKEEPER!"

### A Story of College Athletics

One-half pound macaroni.  
Six chicken livers.  
One-quarter pound mushrooms.  
One-third cup butter.  
One-quarter cup flour.  
Two cups light cream.  
One-half teaspoon salt.  
One-eighth teaspoon pepper.

Cook macaroni in boiling salted water until tender. Drain. Cover chicken livers with cold water, bring to boiling point and simmer 15 minutes. Drain and chop. Peel and slice mushrooms, and saute in two tablespoons butter five minutes. Melt remaining butter. Blend

Approximate yield: six portions.

**Insurgents Drive Within Few Miles of Defense Line While Planes and Gunboats Bombard Ribadesella.**

**LOYALISTS ADVANCE IN UPPER ARAGON**

**Four Hill Positions and Four Villages Taken in Surprise Assault Within 15 Miles of French Frontier.**

**ROOSEVELT FREED AS PROBLEM**

By the Associated Press.

HENDAYE, French - Spanish border, Sept. 23.—Spanish insurgents were reported today to have opened a concerted offensive by land, sea and air to smash the Asturian defense of Gijon.

Advices reaching the French border said the drive was centered on Government positions near the mouth of the Sella River, about 30 miles east of Gijon.

Generalissimo Francisco Franco's bombing planes swept Ribadesella, the Biscayan fishing port at the river mouth, yesterday and also dropped bombs on nearby Government fortifications.

Gunboats Join Bombardment.

Insurgent gunboats off the coast joined the bombardment, it was said, while two columns of Franco's Navarrese troops — one near the coast and the other descending from the Europa Mountains for a junction—drove within a few miles of the Asturian defense line, beginning from Ribadesella, about 10 miles south of Covadonga.

Both insurgent brigades took additional villages and wrested more positions from the defense troops, the daily insurgent communique said, while about 30 miles south of Gijon, on the Leon front, Franco's forces were driving on Lena, having completed occupation of El Gallo Peak and surrounding mountain country.

While the insurgents waged this campaign to dislodge the Government completely from Northwest Spain, Government forces were said to have pushed into enemy territory on the southern front and have executed a victorious surprise attack on the upper Aragon within 15 miles of the French frontier.

Loyalists Gain in Aragon.

The upper Aragon onslaught, the Government said, had brought a large gain of territory, including the four important hills and four villages, in a zone bounded by the Gallego River and its tributary, the Guara, as well as positions at La Sieso and Valdorsan near the strategic town of Jaca. One hundred and fifty insurgents were said to have been captured.

The Government said Asturian rearward positions at El Pedros, Rebolledo Heights and Salcedo on the Gijon front were bombarded and machine-gunned yesterday in seven separate air raids, but that the Government troops held their ground.

Loyalists Enter Outskirts of Historic Town in Southwest Spain.

By the Associated Press.

MADRID, Sept. 23.—Historic Granja de Torrehermosa in southwestern Spain has become a no-man's land in the path of the Spanish Government's offensive in the Cordoba battle zone.

The Government said its forces swept across the Cordoba-Badajoz provincial border and into the outskirts of the town after their air force had bombarded it throughout the day yesterday. The civilian population had abandoned their homes.

High in the tower of the Central Cathedral insurgent machine gunners continued to fire on Government troops, many of whom crawled for a siege behind the tombstones. The Government described the battle as the most brilliant of recent weeks on the Andalusian front.

Government infantry, supported by cavalry and tanks began the advance along the highway toward the town before dawn. By noon they were on its outskirts. As fire raged throughout the town, Government sources believed its surrender was imminent.

Forty-six brigades, formerly known as the Uribarri column, bore the brunt of the fighting. With al-
